NEW ORLEANS IS WORST WET SPOT SAYS PROHIB HEAD

New Orleans, La., Aug. 12.—(AP)—New Orleans is the "sore spot" on the prohibition enforcement department list of cities where bootlegging and the traffic in contraband liquor form a problem. E. C. Yellowley, national chief of prohibition agents, said here today discussing the campaign undertaken here by a force of 200 federal authorities.

"New Orleans is the worst wet spot in the country today," said Mr. Yellowley, "and Detroit comes next. We are going to try to stop the flow of liquor into the United States through New Orleans within 30 days.

"Liquor rises operating from Chicago, St. Louis, Kansas City and other cities with their connections here from a formidable enemy to prohibition, are the objective of this attack."

In a series of surprise raids beginning early yesterday the army of dry agents seized the plant and property of the Union Brewing company here and filled store rooms of the federal building with truckloads of liquor ranging from the finest imported brands to moon shine. More than \$1,000,000 worth was confiscated.

Following the seizures cabarets of the French quarter, usually the hub of New Orleans night life, were deserted. Newspaper investigators reported prices of intoxicants soaring.

TALKING MOVIE IS SUCCESS

Washington, Aug. 12.—(A. P.)—Successful test of a "talking movie radio" was announced yesterday by C. Francis Jenkins, Washington inventor.

For the experiment, Mr. Jenkins moved about the picture transmitting set and described his actions, an audience in another room viewing the returned picture and listening to the inventor's voice coming through the speaker.

Predicting that general use of the apparatus might be made feasible, Mr. Jenkins said he had designed it as an attachment to standard radio receiving sets.

A fire in an old sawdust dump near Bronson's mill has been giving trouble. It broke loose late Saturday but was checked by timely work of Fire Warden Croso with the help of a portable pump and aid from the Willamette Valley Lumber company tank pumper. SAN DIEGO GIRL KIDNAPED

San Diego, Cal., Aug. 12.—Held captive in a large automobile by two men, a young woman, scream-

RIFFS BURN STOMACHS FROM PRISONERS TAKEN

Casa Blanca, Morocco, Aug. 12.—(A. P.)—One of the orms of torture to which the rebellious Rifflans tribesmen subject their prisoners is burning out of the stomach. Consequently the French fliers try always to prevent being captured alive.

The casualties among them however are heavy, for the Rifflans are excellent marksmen.

As the bombing planes frequently drop as low as 50 feet from the ground to use machine guns against the enemy after losing a cargo of bombs, the Rifflans snipers are given good opportunities which they rarely neglect.
