Mrs. Heckman Decided to Try Lydia E. Pinkham's Vegetable Compound—Note Results—

Council Bluffs, Iowa.—"I had pains in my back and sides and headaches, so that I could not do my work. Once in a while I would be sick a week. A friend told me that Lydia E. Pinkham's Vegetable Compound had kept her out of the hospital, so I thought I would try it, as I had tried a number of other medicines. Now I feel like a different person and am telling my friends about the Vegetable Compound helping me, hoping they will let it help them, too."

—Mrs. ERNEST HECKMAN, Box 21, R. F. D. No. 1, Council Bluffs, Iowa.

Saved From An Operation

I saw your advertisement and have taken the Vegetable Compound with splendid results."

Why Not Save All the Drudgery of Washing?

AN Electric Washer Saves Only the actual rubbing of clothes—nothing more. We now offer Salem housewives a service which saves ALL the drudgery of washing, and gives you ALL your time, for less than it costs to wash with an electric washer at home.

New, Better Methods Now Save ALL the Work of Washing

Old ways have gone. Science has learned better ways, which save wear and tear on your clothes. The Capital City Laundry has revolutionized laundry methods.

Only purest of materials ever touch customers' clothes at this laundry. No caustics—no clothes-eating acids or chemicals. Laboratory tests show the materials we now use more pure—less harmful to fabric—than those used by housewives at home.

New machines prevent rubbing and friction—no chance of wearing or tearing.

Instead of using harmful materials, or machines that rub and tear, to get clothes clean, the Capital City Laundry now gives clothes nine baths—each time in fresh, clean water never used for a previous batch.

All silks and delicate things are carefully hand-washed by experts. You may safely send your finest, sheepest, most treasured things to THIS Laundry.

Washing is mighty hard work—even with a machine to help.

The machine can't draw the water, heat it, and lug it to the washer. It can't save you from soaking your hands in hot and dirty water. It can't empty out the heavy buckets of dirty water and re-fill the washer with rinse water. It can't drag baskets of soggy clothes to the line, pin them up, and take them down again. It can't prevent a steamed-up, mussy house, exposing you to colds and grippe. It can't give you your time—you must stay right with it constantly.

You STILL have drudgery to do. And it costs you more actual cash than to save ALL this work and slop and muss, and save ALL your time, by simply letting us do it all for you.

Our Inexpensive Wet-Wash service does all the washing for you. Everything in your bundle carefully, expertly, scientifically washed under our new pure-material methods. Silks and delicate pieces hand-washed. Woolens washed in a manner to prevent shrinking. Gingham and colored clothes in a different manner, to prevent fading. Each kind of fabric sorted out of your bundle and washed in the manner science has found most beneficial for it.

Your clothes will come home sweet and clean, as sterile as a surgeon's gown, everything slightly damp, just right for ironing.

20 pounds or less, 75c.
4c each additional pound.

Or, if you wish to save part of the drying, starching, or ironing, as well as the washing—we offer you a choice of four additional services, to fit every want and purse.

Hundreds of Salem housewives now give themselves a day off every Monday—at less cost than when they were chained to a back-breaking, health-wrecking wash-tub. Why not join them, this week, in this new freedom?

Just phone 165. Ask to have our route-man call for your bundle.
