

KLAMATH TRIO OF BANDITS NOT ESCAPED CONS

Klamath Falls, Aug. 15.—If the three men who held up and kidnaped G. A. Hayes, night man in an electric shop, here early this morning were the three escaped convicts Murray, Kelly and Willos—the leaders of the fugitives, Tom Murray, has staged a remarkable recovery from the gunshot wounds he sustained on the night of his escape in the opinion of police officers, who were conducting a probe of the holdup this morning.

Hayes, the victim, pointed to a newspaper photograph of Murray and partially identified him as the leader of the trio of bandits. It was Murray, he said, who took the lead. It was Murray who shoved a nickel-plated revolver in his stomach. The man he identified as Murray showed no evidence of having been wounded, he said.

Later this morning Hayes was not so certain in his identification, and police authorities were inclined to the belief that the three men are the same bandits who have been staging holdups on the high ways near Klamath Falls and even on the city streets during the past several weeks.

A peace officer expressed belief that they are the same trio who robbed six bank houses at the Ewanna logging camp earlier this week.

It was also pointed that the three men showed a familiarity with their surroundings at the electric shop where Hayes was robbed.

"I haven't any money," protested the night man, "I don't know where we're going to get it," the leader of the trio countered, as he forced Hayes into the office and compelled him to open the cash register.

In spite of the improbability that the bandits are the escaped convicts, sheriff's deputies and other officers are conducting a search for the bandits, on the theory that they might possibly be the escaped convicts.

MUMIFIED BODY THAT OF SUICIDE

Fresno, Cal., Aug. 15.—(A. P.)—A mummified corpse, fully clad, was found yesterday afternoon on a small island several hundred yards upstream from Herndon bridge over the San Joaquin river, north of here under circumstances leading local authorities to believe that the man committed suicide by hanging about eight months ago. Several small boys, swimming, seeing the form in a clump of willow trees on the edge of the island investigated and concluded it was either a dummy or a scarecrow placed there as a prank and did not learn otherwise until one of the more venturesome of the boy swimmers opened its lips and found human teeth.

Coroner John N. Lisre and attaches of his office last night said the body had been almost completely mummified by the wind, air and sun. A rope, almost rotted in two was tied about the neck of the mummy when the coroner cut it down and about a limb of one of the willow trees. The weight of the body, he added, had bent the limb of the tree until the feet of the mummified body were resting lightly upon the ground beneath the tree.

Because of the condition of the mummy, investigators were unable to even determine the nationality of the body, but are inclined to the belief that it is that of a Japanese.

CORONER'S PROBE BEGINS MONDAY

The coroner's investigation of the state prison delivery of Wednesday evening in which two guards, J. M. Holman and John Sweeney, and an escaping convict "Oregon" Jones, were killed, was begun here last night at the office of Coroner Lloyd T. Rigdon. After establishing the identity of the dead men and the manner and cause of their deaths the inquest was adjourned until Monday afternoon at 2 o'clock.

James W. Lewis, former warden of the state prison and now a Marion county deputy sheriff, formally identified Sweeney, whom he had known for 30 years. Edwin Jacobson of Portland—identified Holman. He was Holman's brother-in-law. Dee Jones of Portland, a brother of the dead desperado, identified Oregon Jones.

Dr. W. Carlton Smith described the wounds received by the two guards and Dr. G. E. Prime those received by Jones.

HOP YARDS MAKE READY FOR PICK

Independence, Aug. 15.—The hop season around this city is well on its way to commencement with the maturing of the early hops. Many of the yards have started proceedings already and others are scheduled to start soon.

It is expected there will be a few weeks of early hop picking before the late season will be due. The crop will be a bumper one according to all indications.

Whether the pickers will be paid by weight or box is yet to be decided, as it is in litigation at the present time. Most of the pickers have been hired for the first crop.

Custer, S. D., Aug. 15.—(A. P.)—A huge block of granite in an isolated spot in the Black Hills between Harney peak and Keystone has been selected by Gutzon Borglum, the sculptor, as the mountain site where he will carve the busts of Washington, Lincoln, Jefferson and Roosevelt.

Mr. Borglum said that while the location of the proposed memorial is inaccessible at present, a trail would be built to the spot when the memorial is completed.

18,000 DRUG ADDICTS AVERAGE 25 GRAINS A DAY

Chicago, Aug. 15.—(A. P.)—Investigation in the narcotic exposure here has developed that there are 18,000 drug addicts here making no secret of their plight. Several thousand more, L. J. Ulmer, acting chief agent, estimates, also use drugs but do not deal with narcotic peddlers.

The average addict uses 25 grains a day, says Ulmer.

Some use 50 and one physician made affidavit that for years he had taken 75 grains daily. One grain would be fatal to the majority of non-users.

While officials collect data on the extent of narcotic use here they continue search for loot which they charge Colonel Will Gray Beach, narcotic chief agent here, with receiving in exchange for drugs.

In ten packing cases belonging to Beach, agents yesterday found a miscellany of merchandise ranging from a baby's skull to a sack full of cheap jack knives. Included were a hundred Chinese bowls, lampshades, cigarette cases, opium pipes and hundreds of keys.

Jewelry valued at \$50,000 was found in safety deposit boxes belonging to Kitty Gilhooly which followed the seizure of drugs valued at \$100,000 several days ago.
