WANT PRISON SIREN TO WARN COUNTRY OF CONVICT BREAKS

(Continued from page one)

At present the gate is electrically operated by the guard on tower No. 1, which is 75 yards or more away and who has to scrutinize applicant for entrance at the gate through the bars of the yard fence.

Persons passing through the gate now are not subject to any inspection, and guards, trustees and civilians are constantly passing in and out carrying packages of the contents of which the gate guard has no means of knowing anything about. It is urged that the system in use at Folsom and other prisons, where everyone who passes through the gate must be identified and every article carried in accounted for, be installed here.

Why an appropriation is needed for the construction of such a tower at the gate has not been satisfactorily explained. The prison has a surplus of brick on hand and plenty of labor available, there being from 100 to 150 men idle in the yard all the time. The required steel and lumber for such a tower would be a small item of expense. Contractors who have been interviewed regarding the matter say that the prison authorities could build such a tower with an outlay of cash less than \$100.

Washington, Aug. 21.—(AP)—The department of agriculture estimated today that 250,000 fewer cattle will be marketed from the range country this fall than last fall with the principal reduction for the southwest. The number for market is placed at 4,077,099 head compared with 4,327,099 last fall and 4,284,000 in the fall of 1923. The movement from the southwest is estimated at 1,547,000 head compared to 2,117,000 in 1924 and 2,041,000 in 1923. Because of dry weather movement from the south west from January to July has been very heavy with a considerable increase from Texas, Oklahoma marketed 325,900 during this time compared with 225,000 in the same period in 1923 in New Mexico a record number 254,000 head were moved in the first seven months compared with 164,000 in the same period last year and a six year average of 165,000.

Excellent feed supplies in Idaho, Oregon, Washington and Utah will result in more cattle for market this winter than last year, with most of these cattle moving to coast markets. A shorter hay and beet crop in Colorado indicates a reduction in cattle feeding.

"Early indications are that the feeder cattle demand will be strong during July prices on feeders and stockers steers shipped from Chicago were higher than during July 1924. Recent sales of heavy, well finished cattle have shown top prices."

PIIONEER CHURCH TO BE TORN DOWN FOR BUSINESS BLOCK

(Continued from page one)

members, Jason Lee, one of the first missionaries in the northwest being primarily responsible for the organization. The church congregation met in the chapel of Willamette university, then called the Oregon institute, until it grew too large for that meeting place and constructed its church, passing through an eventful career for three-quarters of a century, eventually became the headquarters of a laundry company, and will be razed to the ground within a few days.

Many pastors of note have had charge of the church in its time. Rev. A. F. Waller who, with Jason Lee, is given the principal credit for establishing Willamette university, was pastor of the church in 1852. Waller's hall on the Willamette campus, one of the very first brick buildings to be erected in the west, was named for Rev. Mr. Waller.

The property was purchased from the Frederick J. Hurst estate through the Grabenhorst company.

HERD OF 800 SLAUGHTERED

Houston, Texas, Aug. 21.—(A. P.)—Spread of foot and mouth disease among a herd of about 800 sheep near Deepwater, south of Houston, necessitated slaughtering the entire herd today.

Government veterinarians ordered the sheep transferred to the trenches which had been excavated near South Houston, where they were killed and buried.

Up to the present about 5000 head of cattle have been destroyed in the eradication campaign.

FARMERS LIQUIDATING OBLIGATIONS TO BANKS

Walla Walla, Wash., Aug. 21.—Belief that farmers of eastern Washington will liquidate their obligations to their bankers in a greater degree this year than in any other since the close of the war, was expressed here today by Harry C. Johnson, state supervisor of banking, now on a tour of east side communities.

"Farmers feel that they can and must wipe out the old debts this fall," said Mr. Johnson. "Already the effect of this feeling is apparent. Bankers feel that the liquidation is going to be large and that the number of failures in business and farming will be few."

GRIEF OVER BOBBED HAIR CAUSES GIRL TO SUICIDE

Chicago, Aug. 21.—(A. P.)—The body of Rose Hallon, 17, whose disappearance last Tuesday night was attributed to her disappointment because she had bobbed her hair, was found today in the Chicago river. The girl is believed to have ended her life by jumping into the water.

The mother said the girl so regretted her changed appearance after the shingling of her hair, that she sat crying before a mirror much of the time.
