Many Important Improvements

New Lower Price!

WE have made Jewett Coach comparison-proof—in roominess—in quality of detail—in price! To its already ample roominess—unmatched in the Coach field—we have skillfully added length without bulk—for even more roominess.

Jewett Coach now has more entrance space than any two-door car on the market.

It's the greatest example of manufacturing and designing skill Jewett has ever produced.

A Coach with so many great qualities, you will be hard put to the task of finding its greatest.

You will get an impression of quality when you see Jewett Coach such as you have never associated with so low a price. To look so good—Jewett Coach must be good.

And when you drive—you will realize instantly that Jewett has made a truly great motor even greater in smooth, quiet power.

See These Improvements!

You will be impressed with its new completeness that neglects nothing—charmed with its distinctive new coloring and upholstery.

To appreciate this great car you must see its many improvements. The new coincidental lock that locks steering wheel and ignition with one turn of the key; a new air cleaner that keeps road dust and grit out of the cylinders; indirect lighting that eliminates glare on the instrument board; light switches conveniently at hand on the steering gear; gear shift and emergency brake levers moved forward to provide clear floor space in front, and many other equally important improvements.

It Took 17 Years to Build It

Jewett has concentrated the experience of 17 years on this Coach. Through all these years it has been our constant desire to produce a car as good—as beautiful—as completely an engineering triumph as Jewett Coach—at a moderate price!

Already Jewett Coach has produced for us a sales record unequalled in our business.

Now—we offer a greater Jewett Coach, with all its improvements at an important reduction in price.

Come in and let us show you what these improvements mean with yourself at the wheel.

Why this is the economy oil for Fords

Veedol Forzol was created for just one purpose—to solve the unique problem of the Ford lubrication system.
