WOMAN AVOIDS AN OPERATION

Awful Pains and Misery Relieved by Lydia E. Pinkham's Vegetable Compound

Lima, Ohio. "I want to tell you how your medicine has helped me. I suffered with awful pains from inflammation and I was in such misery that I had to bend double to get relief. I could not be touched or jarred, had awful pain all over my abdomen and could not touch my feet to the floor. It was impossible for me to straighten up and the pains never ceased. I took treatments for some time and finally was told I would have to have an operation. I do not believe in operations and I had read so much about Lydia E. Pinkham's Vegetable Compound that I told my husband I would try it before I gave up. I soon began to feel that it was doing me good. The awful misery began to leave me, also the backache. I have a good appetite and am gaining in weight. Taking this medicine was the best thing I ever did. I feel like it has saved my life and I do not hesitate to say so to my friends. It has saved me from a dreaded operation and I am still taking it." - Mrs. ETHEL THURSTON, 224 North Pine St., Lima, Ohio.

YOUTH LOST IN BRUSH SETS FIRE; ARRESTED

Tucson, Ariz., Sept. 8.—Sol Frasin, 17-year-old New York youth, got lost in the wide open spaces at the head of Pima canyon near here yesterday.

Not to be outdone in resourcefulness by plainsmen and trail blazers of history, Sol drew his pistol and shot into the under-lying brush with the intention of starting a signal fire. He succeeded, the fire got unreasonably active, however, and Sol was forced to take to his heels.

Today he is in the city jail here charged with starting a forest fire. Two hundred acres of brushland are burning at the canyon's head and 18 forest rangers are busy trying to extinguish it.

A Simple Way to lighten cloudy teeth

This remarkable new way, urged by dental authorities, also Firms the Gums... removes the grimy film that clouds and hides the natural beauty of your teeth.

THAT dull, "off-color" teeth can be lightened amazingly, even given dazzling whiteness, now is an accepted dental fact. You can work a transformation in your mouth.

Leading dentists now tell us how to clear grimy teeth, and, at the same time, give firmness and healthy color to delicate gums. A new method that supplants old-type dentifrices. It removes the grimy film that covers teeth and hides their natural beauty.

Just run your tongue across your teeth. And you will feel that film. It is the great enemy of pretty teeth and healthy gums.

It clings to the teeth, gets into crevices and stays. It forms a breeding place for germs. It lays your gums open to bacterial attack, your teeth open to decay. Those germs, with tartar, are the chief cause of pyorrhea.

Old-time methods failed in successfully fighting film. So only teeth were common. You must remove it. Ordinary brushing won't do it satisfactorily. Under it are the clear, whiter teeth you envy in others.

Now modern science has perfected an effective film combater, called Pepsodent. It acts to curdle film, then removes it—no harsh grit dangerous to enamel. It firms and protects gums; beautifies teeth quickly and correctly.

Mail coupon for full 10-day tube to try. Or purchase large tube at any drug store. Note the amazing difference in your teeth... in your whole appearance.

If Every Human Heart Could Tell Its Story!

WHEN little Bobbie Dean crept sobbing out into the dark of the city streets in search of the great theatre where played his mother who loved a violin better than she did her baby boy, he did not know that he was making history.

Nor did old Mrs. Matheson when from the front of her apartment house she tore down the sign which read "Positively No Children Allowed" and replaced it with another bearing the message "Children Welcome."

When Margie wrote to Santa Claus imploring him to send her daddy back she did not realize that her pathetic little note was destined to bring tears to the eyes of a nation.

Yet, today—this very minute—hundreds of thousands of men and women are weeping, smiling, thrilling to the lure of these poignantly touching, true stories—such stories as they never read before they became acquainted with True Story Magazine—such stories as were never printed until the coming of True Story, the magazine that is written by its readers.

INTO the life of every man and woman some day there comes a crisis.

Sooner or later Fate puts to the test every human soul.

And when that time comes there is lived a story more powerful than any fiction story ever written.

From the earliest dawn of history such stories have been lived. So long as the human race endures they will be lived.

Each is a chapter of the book of life. Together they constitute the history of mankind.

These are the stories that appear in True Story Magazine. Authors of fiction cannot write them. They can come only from the hearts and minds of the men and women of whose lives they are a part.

Just as they come to us, unchanged in thought or fact, they are published in True Story—so that each issue is a cross section of life as it is actually lived.

THAT explains the unparalleled success of True Story Magazine which in six short years has captivated the hearts of the vast audience that each month goes to the newsstands and buys a greater number of copies of True Story than is sold of any other monthly magazine.

That is why you should become acquainted with True Story.

The October issue has just been placed on sale. You will find it at the nearest newsstand.

Editor True Story, New York
Dear Sir:

Please accept my criticism of your magazine known as "True Story" which I have been reading for the past two or three years. I cannot find words to express my enjoyment, both to myself and family. I would heartily endorse this magazine, both for a Public Library and a Sunday School or a Church Library. In saying this I have in mind the morals which are incorporated in all stories which I have read in your magazine. Unlike most true stories they are not only interesting but very gripping. I can say this with all truth as I am above the age when anything and everything would satisfy my desires in reading. Yours respectfully, David E. Hardtner.

Dear Sir:

I have been a reader of "True Story" magazine for some time and I have been a judge in the lower courts of the above city and county for 18 years.

I have heard all kinds of cases that come in a justice court and I can truthfully say, that I wish that every person in this country, especially those under 25 years of age, would read at least one copy for I believe it is of untold value to them.

If all would read, and take the warning and abide by it there would be far less cases in our courts.

Yours truly,
G. B. Wannack
