

### EXPECT BETTER BUTTER DEMAND; EGGS MOVING

Portland, Sept. 8.—With Portland people back from mountain and beach for the opening of school, local creamerymen look for a broader demand for butter. This morning prints moved out fairly active and prices are expected to hold steady. Cane butter is none too plentiful and as long as the demand keeps up current price levels will hold.

Although there has been no season on the local dairy since last Friday afternoon, the egg market continues steady with a good movement of both fresh and storage stocks. Outside markets are holding up well and no price recession is anticipated here as long as the outlet remains open. With large storage holdings this year, dealers are advocating the purchase of a dozen storage eggs along with each dozen of fresh, for baking purposes.

#### LIVESTOCK

Portland, Sept. 8.—Cattle active; receipts 60; calves 6; steers medium \$7.25@8.25; cubs \$6.00@7.25; canners and cutters \$4.50@5.00; helters, common and medium \$4.00@4.50; cows, common and medium \$3.25@3.75; canners and cutters \$2.50@3.25; bulls, good (but yearlings excluded) \$4.00@5.00; common to medium canners and helters \$3.00@4.00; calves, medium to light \$2.50@3.50; included \$7.50@9.00; cull and common \$5.00@7.50; yearlings, medium to choice \$10.00@12.00; cull and common \$6.50@10.00.

### 500 CARS APPLES ARE DESTROYED BY CLOUDBURST

Wenatchee, Wash., Sept. 8.—Approximately 500 cars of apples have been damaged to 100 per cent, according to George E. Harter, district horticultural inspector who with E. Solomon of the Independent Fruit Shippers company, has made a complete survey. The damaged fruit covers an area of between 500 and 600 acres, mostly in East Wenatchee.

A large section of delicious apples, owing to lateness of the season, will not recover even to make a fourth grade apple. It was stated. The loss in money will be between \$200,000 and \$400,000 to the fruit section alone. Many of the half-picked delicious will have to find a market by having a special grade and some of the apples will not even be salable.

### FEAR EXPRESSED FOR FRUIT CROPS

Portland, Sept. 8.—Fear is expressed for northwest fruit crops as a result of late severe storms over the week end. Already reports of severe damage to the delicious apple crop in the Wenatchee district are coming in and local dealers expect that other fruit producing sections will suffer heavy loss from the wind and hail storm that accompanied the downpour of rain.

It is still too early for any accurate estimate of the damage to be put forth but local authorities who are keenly interested in the 1925 fruit crop are much concerned this morning as to the outcome.

The principal damage will be the apple orchards although the prune crop, too, may be hurt. Prune picking is just getting under way in the big producing districts of the Willamette valley and Clarke county, Washington. Fruit left on trees will be split and water soaked, fruit men declare.

### HUCKLEBERRY HARVEST HEAVY

Harry Percy and Dan Langenberg have just returned from a huckleberry picking expedition up above Mill City. They state that the patches have been pretty well picked over since the fleet of August and that hundreds of parties have been into them since the picking season opened.

One woman states Percy, has been in that section for about five weeks, and during that time has picked over 300 gallons. Her son takes these into Mill City on a pack animal where they sell like hot cakes at \$1.25 a gallon. The woman, who is 60 years of age, expects to remain in for another week. Percy states that when they finished some sweet corn and other vegetables as a part of their eating equipment, the woman fell onto it like a glutton. She had seen or tasted no fresh vegetables for many weeks.

### WHEAT HIGHER CORN FOLLOWS

Chicago, Sept. 8.—Wheat opening prices, 1/4 to 3/4 cents higher. December \$1.53 1/2 to \$1.52 and May \$1.55 1/2 to \$1.55 1/2 were followed by something of a sag and then by a fresh advance.

After opening at 1/4 to 1 1/4 cents.

### ENGLISH HOP ESTIMATE IS AGAIN INCREASED

According to a subcommittee received in Salem, the estimate of the English hop crop has again been increased this time to 350,000 cwt. as compared to 325,000, the estimate a week ago. Continued rains are responsible for the increasing estimates. Reports from all English hop producing districts show continually improving conditions under favorable weather.

### FRENCH WALNUT CROP IS NORMAL

Early August conditions pointed to a 1925 French walnut crop of above average size, according to a report by L. Menninger, American consul at Bordeaux, received in the department of agriculture. This statement also applies to the total output of "Marbots," "Cormes" and "Charentais." In three varieties mostly exported to the United States in the shell, although opinions are divided as to the prospects for "Marbots," the production of which may be below average. Production of cracking varieties is expected to be considerably above normal.

While the trees were well filled with nuts early in August, the conditions experienced all during the first half of the month will have considerable effect upon the condition of the crop at harvest. Development is said to be about two weeks late, so that under average conditions harvesting will not begin much before early October, although favorable conditions will hasten maturity. No statement as to quality is included as yet available.

### WATER PLANT NOT ON BALLOT

Because of the limited time, there will be no opportunity for the city council to place on the special election ballot tentatively set for October 20, the question of purchasing the water plant from the Salem Water, Light & Power company. If it is finally decided to submit the question to the people it will have to be done at a later special election or submitted at the spring primaries. The sub-committee of the general advisory committee of 25 has not yet called a meeting.

The ordinance calling a special election for October 20 will come before the city council tonight for final passage and will contain four measures to be placed before the electorate of Salem. One measure will propose a bond issue of \$30,000 for additional fire equipment, another a special tax levy of 1 1/2 mills for a permanent bridge construction program, another a levy of 1 1/2 mills for street repal work and the fourth will be the question of purchasing at \$1000 an acre the seven-acre tract offered by T. E. Kay for a city park.

### STEGEMAN TO ASSIST OREGON LINE COACH

Eugene, Ore., Sept. 8.—Dr. Wilson Stegeman, a former captain and tackle on the University of Chicago football team, will be assistant line coach at the University of Oregon, according to an announcement of Virgil Earl, director of athletics. Dr. Stegeman will report to Coach Dick Smith when the season opens.

Dr. Stegeman learned his football under Stagg's tutelage. At the close of the football season, he will become a member of the university health staff. He is a graduate of Rush medical college as well as Chicago.

Dr. Stegeman had coaching experience before entering Rush. He will assist "Dax" Williams in coaching the Oregon linemen.

### MOTOR SHARES LEAD STOCKS IN UPWARD SWING

New York, Sept. 8.—(AP)—Responding to reports of expanding fall business, stock prices resumed the upward movement today under the leadership of the motor shares. Making up of the call money rate to five per cent on the calling of loans to make up the deficit in reserves shown in last Saturday's clearing house statement caused a temporary setback around the noon hour, which carried many issues off 1 to 2 points from their earlier heights, but the rally was resumed in the afternoon when Chrysler crossed 149 for a net gain of more than ten points to within a small fraction of its record high. Mail order, merchandising, food, equipment and public utility issues also developed several points of strength with pools again active in a number of specialties. Rails followed in the wake of the industrials.

The opinion was written by Justice Burnett and reversed Judge Percy R. Kelly of the lower court for Marion county.

Other opinions handed down today were:

Thomas Longthorn vs. D. Tarko, administrator of estate of S. Kajihava and T. Sumide, appellant; appeal from Multnomah county; action for damages. Opinion by Justice Burnett; Judge Robert Tucker affirmed.

State of Oregon vs. G. J. Hohnstein et al, appellants; appeal from Multnomah county; action to recover on undertaking of bail. Opinion by Justice Burnett; Judge George W. Stapleton affirmed.

Claude Cole, appellant, vs. Canadian Bank of Commerce; appeal from Multnomah county; appeal from judgment of non-suit in favor of defendant bank. Opinion by Justice Coshaw; Judge Robert Tucker reversed and case remanded.

Edward M. Gounin, appellant, vs. Walter T. Taylor et al; appeal from Benton county; action to recover money for services performed. Decree of lower court modified; opinion by Justice Rand.

Petitions for reorganizing denied in State vs. Bailey and in Oxman and Harrington vs. Baker county.
