COMPLETE HOUSE FURNISHERS

The Woman Who Pays!

To You Women Who Have Been Trying to Save Money By Doing your washing at home, this frank message is addressed. Read every word. For if the facts show it actually costs MORE to do this drudgery at home then certainly you want to know!

The Price You Are Paying

It's Always the Woman Who Pays!

Every woman is entitled to her freedom from the home's most mental drudgery. She's entitled to it, because she's paying for it with lines in her face, she slaves away over a back-breaking washboard, rubbing her knuckles raw. She's paying with colds—with exposure to grippa and pneumonia—if she spends a day every week in a steamed-up wash room. She's paying with eventual run-down health. Your physician will tell you so! She's paying for it in actual cash—in soap, and muck, and bother—in the time it takes—if she buys an electric washer.

The price the woman pays who does this drudgery at home is far more than just mere money. Physicians of long experience say nothing so ages a woman before her time—nothing causes so many back-aches, so much feminine ill-health—as the work of the family washing.

And it's always the WOMAN who pays it! No man will submit to being chained down to a sloppy, health-wrecking washbasin.

And no woman should submit to it either. Especially when the men of this country spend far more on tobacco than the women spend in laundry bills. Frankly, do you think this quite fair?

Save More Work at Lower Cost

Try This Freedom Two Weeks

And the machine, if you buy one, does only PART of what you get in our LESS COSTLY Wet-Wash service. The machine can't draw the water, heat it, and lug it to the washer. It can't give you your time—you must stay right with it constantly. It can't save your hands from the hurtful effects of dirty hot water and the harsh suds of ordinary home laundry soaps. It can't empty the buckets of sloppy suds water, and fill the washer up again with rinse water. It can't drag heavy baskets of soapy clothes out to the line, hang them up, and take them down again. Your only object in buying such expensive equipment is to save yourself work and drudgery. But it saves you only the actual rubbing of clothes—and not even all of that! Wet-Wash service at the Capital City costs less, actual cash. And it saves you ALL the work—All the soap and muck and bother—and gives you ALL your time.

You may safely send EVERYTHING to the Capital City. Your sheer, delicate aliken things will be sorted out and scientifically hand-washed by careful specialists. Your clothes will all be thoroughly washed in purest of materials, and given many careful rinses. Old ways have gone, at the Capital City. Science has given us new and better ways. Now clothes wear longer if you send them here, then under less-scientific home methods.

It's worth this two weeks' trial to find out! And remember, we GUARANTEE not to lose or harm a thing! Just phone 165.
