One of the most disgusted men in the yesterday was Patrolman Walker Thompson when Chief Frank Minto, Patrolman "Cherry" James, Bud Welch and Lee George returned from a deer hunt without a deer. "The only way them guys could get a deer," declared Thompson, "would be for the deer to run into camp, stick its front feet into the air and yell 'kamurad.'"

The farmers are beginning their fall plowing. H. Noble & Son report sales of 7 model D John Deere tractors the past week to Mr. Lafe, Townsend, Gerald and Mr. Geo. Tenney, Wacunda and Mr. J. R. Kaiser at Rickreall. 221

The long anticipated plowing up of the Willamette university campus, announced several days ago, was definitely begun this morning. Two teams of horses, each drawing a plow, began plowing the section east of the walk leading out to State street from Eaton hall. The ground too close to the walk to be reached with a plow will be turned with a spade. The first plowing is shallow, and is expected to kill most of the weeds that infest the campus lawn. Within a few months a second plowing will be made, about twice as deep as the present one. About half the maple trees in front of Walker hall will be cut down. New trees will be planted in their place.

CAILLAUX TO COME READY FOR ACTION

(Continued from page one)

That he would have something to say about the situation when congress reconvenes.

"The United States," Senator Smoot said, "will settle with France without any reference whatever to the conference held between M. Caillaux, French finance minister, and Mr. Churchill, the British chancellor of the exchequer, or any propaganda by either one or both of them. The United States has nothing to say about any political deals or understandings between European countries and does not propose to be drawn into them."

"M. Caillaux and associates will be granted every possible chance of presenting their side of the question. The United States commission will look after the interests of America."

It was pointed out that by the agreement reached between Caillaux and Churchill at London, France is to pay Great Britain an interest rate of 2 per cent on its war debts to that country.

Senator Smoot declined to discuss possible terms which may be presented to the French commission, but administration officials have made it clear that France may not expect the preferential treatment which was given to Belgium and the recent agreement with that country respecting the settlement of its war debts.

It is the present view of administration officials, as well as of many leading members of congress, that France should settle on a basis similar to that which Great Britain funded its huge war debt to this country.

ROTARIANS HEAR SALES LECTURE

The customer of today cares little about the price he pays for his goods, and much about the method used in selling it to him, W. H. Spence, president of the Rotary club, said in a sales lecture given at the luncheon of the club at the Marion hotel this noon.

"Only about 10 per cent of the public is interested in price," he declared. "The other 90 per cent is interested in service."

Business houses that give good service are generally successful, he indicated, even though they charge high prices. Two thirds of the safety razors sold in the United States are high priced, the public being little interested in moderately priced razors.

"I hate this word conservatism," he said. "What did a conservative ever do. Even in politics give me a radical every time. A radical is usually wrong, but a conservative is always wrong."

TURNER MAN ASKS \$75,000 IN SUIT

Portland, Ore., Sept. 16.—(AP) Samuel, former employe, today filed suit in the United States federal court against the Southern Railway for \$75,000 damages for injuries which he claims he sustained when he alighted from a train at Turner, Ore., in March, 1924, in his complaint says he had a pass to ride on the trains between Cottage Grove and Turner.

He alleges a trainman induced him to alight from the car before the train had stopped at Turner, with the result that he was thrown to the ground and his leg badly mangled under a log which he had to be supported.

CHEAPER LUMBER DECLARED NEED

Spokane, Wash., Sept. 16.—Necessity for closer manufacturing under sales methods to permit sale of lumber at a price "that will stop the constant inroad of substitutes" was urged before today's session of the Wood Hoe convention here.

N. Tate, assistant manager of the Wood-Hoe sales company of this city.

"Should we practice conservation in selling?" he asked. "The answer is not that we should but that we must."

"What we know and must lead in helping the world to find a solution for it is that the trees we cut for necessary purposes may be replaced for our children and their children. We know that the present forest cover is entitled to the same reasonable return on his investment as any other property owned or manufactured. And we also know that only in a very altruistic way can he practice selective cutting or replant his trees for the benefit of future generations unaided."

LOSERS ONLY 8 COUNTIES

Milwaukee, Wis., Sept. 16.—(AP)—Youth outdistanced all opposition at yesterday's senatorial primary. Robert M. La Follette, Jr., just inside the constitutional age limit, swept everything before him, carrying all but eight of the counties.

Cunningham, favored by the Pennsylvania republican machine, won a three cornered state contest for nomination as judge.

Miss Violet Fahrenstock, Philadelphia's first woman judge, was defeated for re-nomination as magistrate.

60 PLANES FLY AT DEDICATION

Vancouver, Wash., Sept. 16.—Half a hundred airplanes, piloted by many of the most famous aviators of the country, are taking part today in the dedication of Pearson field, named in honor of Lieutenant Alexander Pearson Jr., who lost his life at Dayton, Ohio, in an air race.

Fifty airplanes, which have been concentrating from the aviation fields of the western part of the country are to fly over Portland, the home of Lieutenant Pearson and this offering are participating in races, stunts and demonstrations of various kinds.

Brigadier General Paul A. Wolf, commander of the 15th brigade; Colonel Frederick T. Arnold, chief of staff of the 9th division of the army, and B. P. Irvine of Portland are on the program to speak at the dedicatory exercises. The Pearson and parents of Lieutenant Pearson are honor guests here.

above one place on the directorate is left vacant, being the plan as now discussed to name the manager of the mill, whoever he may be, as the ninth director. As the board depends upon the manager largely for advice and it is necessary for him to attend all meetings it is probable he will be placed on the board. The manager is expected to come from Canada and by a man of long experience in the operation of linen mills.

Mr. Sanson, Canadian promoter of the Salem project and one of the largest stock subscribers, will be here for the first stockholders' meeting a week from Thursday, but if he is not present he will have a representative at the meeting, it is understood. Selection of a site for the mill, it is believed, will depend largely upon the advice of the manager and as a result no steps will be taken in that direction until the ground is selected, is on the manager and has a chance to familiarize himself with local conditions.

HYLAN LOSES; L'FOLLETTE EASY WINNER

(Continued from page one)

Arriving at the city hall this morning, Mr. Hylan declared he would conclude his term with "nothing to regret."

The New York Journal, strenuous supporter of the mayor in the pre-primary campaign, asserted editorially today that there would be a third ticket and expressed hope that a Hylan could be induced to head it.

Mayor Hylan won in Queens and Richmond.

In Manhattan Senator Walker's vote was 193,536 compared with only 27, 942 for the mayor. His vote in the Bronx was 45,577 compared with the mayor's 21,311. In Brooklyn, the mayor's home borough, Senator Walker won 65,584 votes, while the mayor's was 60, 959. The mayor carried Queens with 21,627 votes to Senator Walker's 28,266 and in Richmond the mayor received 12,197, compared with Senator Walker's 6254.

Republican regulars won legislative contests in Niagara county, New York, against men who were suspended by the Ku Klux Klan for trying to build up a political machine.

Henry L. Bowles, of Springfield, Mass., defeated Mayor Pelker of Northampton, republican nomination for congress in the Coolidge home district after visiting White Court. Pelker had a dry plank; Bowles favors liberalization of the Volstead act if consistent with temperance.

Cunningham, favored by the Pennsylvania republican machine, won a three cornered state contest for nomination as judge.

Miss Violet Fahrenstock, Philadelphia's first woman judge, was defeated for re-nomination as magistrate.

A boy named Cunningham, riding a bicycle, was struck at 21st and Center, by a car driven by Grace Swops of Independence.

REGISTERED IN NO UNCERTAIN MANNER

registered in no uncertain manner their desire to retain La Follette in Wisconsin. Young Bob won with a majority of 29,495 over his three opponents and a plurality of \$3,488 over his nearest opponent, Roy P. Wilcox of Eau Claire, the Coolidge republican candidate.

KLUKERS RUN THIRD

Wilcox did not make the run expected of him by his supporters, carrying only five counties. Daniel Woodward of Kaskaskia, running with the endorsement of the Ku Klux Klan, was the surprise candidate, finishing third, carrying three counties. The others went to LaFollette by a wide margin.

From the first return until the last the election was La Follette, leading the victories of his father the former Badger senator, in other years.

One of the surprises of the election was the poor showing by Francis E. McGovern, former governor. He was beaten by Woodward, a man who, when he was governor, he appointed warden of the state penitentiary.

The election was fatal to the democratic cause in the state. William George Bruce, selected to make the race by the state democratic convention was unable to poll sufficient votes to carry his party into the final race.

His count did not reach the required five per cent of the democratic total in the last election in 1924, or 15,585 votes. There is some doubt about the ability of John M. Work, the socialist candidate, to make the required goal.
