DEMPSEY SIGNS TO FIGHT WILLS NEXT SEPTEMBER

South Bend, Ind., Sept. 30.—(AP)—In a country doctor's office above the corner drug store in the little city of Niles, Mich., last night, Jack Dempsey signed articles to defend the world's heavyweight championship against Harry Wills, negro challenger, in Michigan City, Ind., in September, 1926.

The scene, replete with all the drama of a motion picture ended Wills' four-year chase for a championship meeting with Dempsey. The signing came after a conference of more than 18 hours stretched out over two days, and only after the question of a referee had threatened to wreck the negotiations. It was finally agreed that if Paddy Mullins, manager of Wills, and Dempsey could not come to terms over the selection of the third man in the ring, sixty days in advance of the contest, promoter Floyd Fitzsimmons, with two members of the financial group backing him would name the referee.

Just as dusk was beginning to settle over the countryside, Dempsey, Wills, Maitner Mullins and his advisers, promoter Fitzsimmons and others, motored from here just over the Indiana state line to Niles, Mich.

The reason for the invasion of Niles was because boxing is recognized as a legalized sport in Michigan and the promoters wanted to avoid all technicalities in the contract that might possibly come up later.

Fitzsimmons announced that \$200,000 had been posted as forfeit with the First National Trust company here.

Both Dempsey and Wills received \$25,000 as training expenses, according to Fitzsimmons.

The signing took place in the office of Dr. Fred N. Bonine, oculist, a staunch supporter of boxing and a personal friend of Dempsey and Fitzsimmons.

The match will be staged in the blue-sky arena, owned by Fitzsimmons at Michigan City. It has a seating capacity of about 30,000 but will be increased to meet demands. It has been the scene of numerous boxing contests, notably the Gibbons-Carpenter bout two years ago.

Neither Dempsey nor Wills will receive a guarantee, but their respective percentages were not revealed. Mullins declined to say that Wills' share would be, but said it was the best offer ever made to Wills for a Dempsey match, and that he was entirely satisfied.

"The future of the dairy industry lies in the cooperative movement," it was stated this noon by Jack Scollard of Chehalis, Wash., in a short speech before the Salem Rotary club. Mr. Scollard is a prominent figure among dairymen in Washington, being former president of the state association. A dairy products plant, owned by the nearby farmer, is successfully operated at Chehalis, he declared. Scollard called the dairy industry "the greatest contributing influence in the development of western Washington and Oregon." Mr. Scollard is in Salem for the Oregon state fair, having a number of head of cattle entered in the events at the fair grounds. He declared that the present fair is the best that has been held here for a number of years.

N. C. Maris, an old member of the state fair board is a visitor at the fair, coming over from Corvallis.

DAIRY DISPLAY AT STATE FAIR BEST IN YEARS

The dairy building on the fair grounds is housing one of the most high grade exhibits staged in Oregon. Judging, which was scored according to the National Creamery Buttermakers' Association, was completed Tuesday night with the following taking top scores: first, butter, Emil Lauber of the Raven Dairy of Portland, scoring 95 1/2; second, butter, Frank Holler, Mt. Angel Creamery, scoring 95 1/4; A. A. Oswald, Clear Creek Creamery of Corvair, Ore., third, scoring 95 1/4. Cheese, Ralph Sutton, of Oretown, scoring first, with 95 1/2; Reed Farmer of the Coos Bay Mutual Creamery, Marshfield, second, with a score of 96; Hugh Harber of the Holstein Factory, Tillamook, third, with a score of 95 1/2.

The entries of cheese number twenty, butter entries running up to thirty-four. "The showing is really wonderful this year," L. B. Ziemer, of Portland, of the state Dairy and Food department, in speaking of the exhibit, "is proving conclusively the high standard of Oregon's dairy supply. Butter scores varied very little, the lowest score being 90. A slightly greater divergence was noted in the cheese class, the low score being 85 1/2."

Cheese was judged by Robert Ireland of Portland, butter by E. Carver of the White Clover Ice Cream Company of Portland; Chris Johnson of the North Pacific Butter Association, Portland, and Herman Raven of Portland.

It is doubtful if there is a more artistic exhibit on the entire grounds than that made by the Capital City Co-operative Creamery of Salem, and the Coos Bay Mutual Creamery of Marshfield, showing Michigan West Cheeses. This latter concern has erected a handsome permanent booth, which is not only attractive but is arranged with a thought for an artistic general effect.

SIX BOTTLES OF LEGION BEER AWAIT OWNER

Six bottles of alleged beer were resting in the special vault at police headquarters reserved for confiscated liquor today awaiting developments.

For want of an owner to claim them they will likely find their way down the sewer without so much as having their "day in court."

They constitute the evidence seized by City Attorney Chris Kowitz in his snail-handed raid upon American legion headquarters here Monday, and are alleged to be a sample of the refreshment served to visiting legionnaires. But Chris is not so sure that he will have need for the evidence.

When he grabbed the six bottles from the improvised bar in the legion room Chris was convinced that all the prohibition laws in the country were being violated, and that it was his duty to act. The course of duty does not appear quite so clear now. Up to 1:30 o'clock this afternoon no complaint charging violation of the dry laws had been filed, and a search that had endured throughout the day had failed to locate the bar.

Yesterday afternoon he assured the Capital Journal that if he could determine who was in possession of the beer he would prosecute.

"I have a good idea who it belonged to," he said, "but it would hardly be fair to name the man until I am sure. The man who owned the liquor was not present when I made the raid."

MORE LIVESTOCK AWARDS ARE MADE

Silverton, today again took the grand championship ribbon in his class at the state fair. This makes the third year that he has carried off this prize here, with the past two years the Pacific International awarding him a similar honor. This animal is of great size, very smooth and as perfect, according to the opinion of his judges, as it is possible for a hog of his description.

Latest awards in livestock are as follows: Horses, Belgians—Senior champion stallion, L. Mueller of Oregon City; junior and grand champion stallion, A. C. Ruby, Portland; senior champion mare, Andrew Schwab, Salem; junior and grand champion mare, L. Mueller, grand display, A. C. Ruby.

Letcherons—Junior champion mare, P. M. Finley, Junction City; junior champion stallion, A. C. Ruby; senior and grand champion mare, Smith's Dairy, Aberdeen, Wash.; senior and grand champion stallion, E. T. Evans, Monmouth.

ABANDON HOPE FOR RECOVERY OF CREW ON SUB

U. S. Submarine Base, New London, Conn., Sept. 30.—(AP)—Rough water having caused a suspension of work at the scene of the wrecked submarine S-51, officers at the submarine base today said that it might be necessary to stop the efforts at rescue and try to salvage the boat.

Such a step, however, would have to be ordered by the navy department at Washington and probably would be taken only upon the recommendation of Rear Admiral S. S. Christy, in command of the rescue work, who so far has refused to give up hope that some of the 31 remaining men who went down with her more than four days ago, might still be alive.

Two bottles are all that have been recovered of the 33 who went down.

Forty deep sea divers are aboard the boats of the rescue fleet anxious to aid in the effort to reach the sunken submarine before all hope is abandoned. Several trips were made to the ocean floor yesterday. Two bottles were brought to the surface and divers cleared away debris and took other steps to enable them to continue the search of the hull.

The submarine S-50 whose sister ship lies 135 feet below her, is being used to pump air into the S-51 and at the same time for divers' rebreathes. Before going below the underwater workers are made familiar with all parts of the submarine and given an opportunity to try out the various openings with their diving suits on to determine whether these passages can be negotiated.

Yesterday afternoon he assured the Capital Journal that if he could determine who was in possession of the beer he would prosecute.

"I have a good idea who it belonged to," he said, "but it would hardly be fair to name the man until I am sure. The man who owned the liquor was not present when I made the raid."

PROSPECTS FOR ATTENDANCE OF 40,000

Describing the crowd at the roundup at Pendleton, from which he returned last week, W. S. Levans today told the Salem Rotary club, "Of all the big crowds I was ever in, I saw less intoxication and less rowdiness there than anywhere else in my life."

"I don't figure the success or failure of the prohibition movement by the number of arrests or convictions made under the prohibition laws. Looking back at recent events, I am convinced that there is a distinct tendency in the direction of prohibition, even though some people say it is not a success."

The present so-called crime wave is not due, Levans declared, to the fact that people today are worse than they formerly were, but because more things are made crimes by the passage of new laws.

"The time was," he said, "when it was a common thing for high school boys to drink. It was a familiar sight to see half a dozen members of a football team teed up before a game was over. Now if we smell liquor on the breath of a single student it causes a scandal."

The question raised over the prohibition issue, the speaker insisted, was not a question of the country being wet or dry, but, "are the American people able to make and enforce their own laws."

Mrs. D. B. Stamp of Monmouth was in this city yesterday.

city traffic officers on the approach streets kept the lines of cars moving smoothly and the grounds police attended to the parking.
