

LOCALS

Governor Pierce said today that for the first time in some years every able bodied man in the state penitentiary is employed and has been for several days. Over 500 men are in the prison. Most of those at work are in the flax industry. The governor said that the state now carries \$125,000 insurance on the prison flax. About \$40,000 worth of flax that was raised by farmers in this district for a projected linen mill at Vancouver, Wash., but the project failed to materialize and the state has purchased the flax from the farmers.

Why not go to nickel dance at Mellow Moon tonight. 234*

M. J. Sutton, who caused a furor several weeks ago when he walked into the Salem Bank of Commerce building with his skin broken out with smallpox, was this morning discharged from a local hospital as cured of the disease. Mr. Sutton returned to his home in Salem, where he has lived for the past 19 years. No further cases of smallpox have been reported here.

Beat dance Crystal Garden. Harry Hobbs wonderful jazz band singing and entertaining. 235*

Aubrey Fletcher will fill the position of physical director at Parcell junior high school for full time this year. It was announced this morning by Superintendent George Hug, Fletcher and De Los Robertson, both Willamette university students, were each elected to take the position part time at a meeting of the Salem school board last spring. Robertson reported to Supt. Hug last week that he had never received his notification of election, and Fletcher has been out on for full time in his place. Taking the position would have made Robertson ineligible for athletics at Willamette, where he is a senior, and has made letters in football and basketball.

Dr. Marshall, osteopath, Or. 142

New equipment for loading and unloading the Northwestern is expected to be completely installed at the dock at the foot of Court street here by tomorrow night. It was stated this morning by F. W. Karr, head of the Salem Navigation company, which owns the dock and the Northwestern. The equipment consists of a car operating on a set of iron tracks running up and down a steep incline to the waters edge, and an electric motor to furnish power for drawing the car up the track. Karr expects that with the new equipment the time of loading and unloading the Northwestern can be cut practically in half. With the old system it took on an average of 12 hours to unload and load the steamer at the dock here. With the new equipment the estimated time is from 6 to 8 hours. The steamer has a capacity for about 200 tons of freight.

Want need furniture, phone 75.

The payroll for Salem public school teachers was being made up at the office of the city superintendent this morning. Salem schools pay their teachers at the end of the first two weeks of school for services up to that time, and again at the end of the next two weeks. For the remainder of the year checks are given out at the end of each four weeks period.

Roy Terry was arrested yesterday for being drunk. 234

Tonite, Tonite, Tonite Hobbs at Crystal Garden. 236*

The Salem Ad club, through its information booth in the old pavilion at the state fair grounds, has placed more than 310 persons in rooms in private homes during the first three days of the fair. It was announced this afternoon. The service was performed free of charge as part of the activity of the club, the purpose being to relieve the congested condition of hotels caused by the influx of people for the fair.

Dance Sat. Mellow Moon. 235*

The old Methodist church, now located on south Liberty street, will be completely torn down by the end of next week. It was stated at the building this afternoon. Dr. B. L. Steves, owner of the site, and George C. Whit, owner of the site adjoining, will build simultaneously, with a party wall between the two new buildings. Mr. Whit started his construction some time ago, but suspended operations waiting for Dr. Steves' site to be prepared. Will stated this afternoon that he will resume building this week. The two new buildings will be entirely distinct from each other except for the common party wall.

The personnel of the Salem division of the board of religious education was elected by the Oregon conference, meeting today in Eugene, as follows: William Hatfield, Corvallis; Miss Mary Flindley, Salem; Miss Mildred Bartholomew, Corvallis; M. A. Marcy, Hillsboro. Three Salem men were also elected to the southern division. They were, A. T. Large, H. L. Welles and Dr. E. C. Hickman, president of Kimball school of theology.

Mr. and Mrs. J. D. Wilmut of Beaverton are attending the fair this week and are being entertained while here as the guest of Mrs. Edith Tozier Weathered. Mrs. Wilmut was before her marriage Ziona Fanne of Washington county and by that name is widely remembered. They are greeting many old-time friends in Salem.

Mr. and Mrs. F. E. Lynn of Perrydale are remaining in Salem during the week of fair. Mr. Lynn is president of the fair board.

Motion pictures showing the activities of members of the three weeks' summer school of industrial club members in Corvallis this past year will be run off in the club building this evening at 7:30 o'clock.

Members of the state fair board were guests of industrial club members in their new building Tuesday night. Speeches were made by A. C. Maretra, Horace Addis, J. A. Calavan, official in club work, and others.

Bruce Wolverton of Portland, president of the Oregon Press association, is in camp with his family.

Four thousand persons were recorded on the camp grounds of the fair Wednesday.

Latest plan for the campers' parade Friday night, an annual affair, is to have L. K. Cogwell, chief marshal drawn by a team of goats which are on exhibit on the grounds.

J. A. Breeding of Amity came in Wednesday, two days later than usual, but prepared to remain during the fair.

J. D. Wilmut and his wife of the Beaverton section are in camp at 33 Looney. Mr. Wilmut came to Oregon with his parents in 1850, coming down the Columbia river in a float boat. His first visit to the state fair was in 1871.

The election of officers for the coming year was the principal business attended to at the annual meeting of the Oregon Purebred Livestock association, held Wednesday night in the industrial club building at the state fair. A good attendance of members was noted, who selected the following to head them: Ed Scholl of Albany, president; P. E. Lynn, first vice president; C. P. Kizer of Harrisburg, second vice president; N. C. Morris of Portland, secretary and treasurer.

A number of unimportant committees were named, and informal talks concerning the promotion of breed interest in Oregon. This not being a legislative year, business of that kind was not touched upon. Resolutions will be presented at the purebred banquet held on the fair grounds tonight. O. M. Plummer, manager of the Pacific International Livestock show will preside.

A banquet last night of members of the Oregon Jersey Breeders' association, was marked by a number of interesting speeches by Prof. Brant of O. A. C.; P. E. Lynn of Perrydale, president of the fair board; C. C. Dickson of Shedd; B. C. Altman of Gresham.

The banquet was presided over by D. O. Woodworth, president of the state Jersey cattle club of Albany.

The show was "hard-boiled" at 7:45 o'clock. At 7:50 tickets were still being sold, but purchasers were being turned away at the gates. An hour later some of the late purchasers of tickets were still waiting for admission or the return of their money. Holders of press tickets, reporters, had to fight or beg their way through the entrance and some were finally refused admittance by a "hard-boiled" gateman whose "public-be-damned" attitude extended even to his replies to women.

Inside was a bedlam. Inspired by a program that did not measure up to the standard established by previous shows and the unpopular decisions of the judges in several events the crowd jeered and booed when attempts were made to announce the awards.

Today's Crowd Short

Fearing a repetition of last evening's performance the attention of fire and police officials was today drawn to the situation with the request that admission be limited tonight and tomorrow night to those persons who can be seated in the regular seats.

Today was Portland, Grand Army and Elk day. The Grand Army veterans wrote out in verse and their reunions were one of the happy features, but the Portland and Elk representation was disappointing. Up to 1 o'clock this afternoon there was a marked scarcity of Portland people. Unofficial estimates this afternoon placed the day's crowd around 20,000.

Generally the crowds continue to be well satisfied with the extent and high quality of the exhibits, and the racing programs have so far met with a hearty response and enthusiastic praise.

The fair officials are looking forward expectantly toward tomorrow, when the hoister clubs of the state and their friends will converge on the grounds to swell the crowds and entertain with their stunts.

Santa Barbara, Cal.—Santa Barbara's new \$200,000 Masonic temple was dedicated on scheduled time in spite of \$30,000 damage which was suffered by the building during the earthquake.

Ten minor automobile accidents were reported to the police yesterday afternoon and today, none resulting in injuries to occupants of cars. Many of the accidents were caused by the congestion of traffic in and near the state fair grounds.

FAIR SIDELIGHTS

Rev. George Grier of Dundee, accompanied by Mrs. Grier, made their first visit to the Oregon state fair since 1864—sixty-one years ago when they came the first year of their marriage. Rev. Mr. Grier is a pioneer of 1852.

Members in their new building Tuesday night. Speeches were made by A. C. Maretra, Horace Addis, J. A. Calavan, official in club work, and others.

Bruce Wolverton of Portland, president of the Oregon Press association, is in camp with his family.

Four thousand persons were recorded on the camp grounds of the fair Wednesday.

Died

HAMILTON—Stacy Hamilton of 260 west Leflore street, died on Oct. 1 at the residence of his brother, W. M. Hamilton. He was 39 years of age. In addition to his brother he is survived by his widow, Mrs. Cordelia Hamilton, his daughter Margaret, and his father, E. R. Hamilton, all of Salem. The remains were today shipped to the Portland crematorium by Webb's funeral parlors.

HUMPHREY—Ernest Humphrey died at a local hospital at the age of 23 years. Survived by a brother and sister residing in Portland. Remains will go forward to Portland today where funeral will be held. Webb funeral parlors in charge of arrangements.

The IRON FIREMAN Automatic COAL BURNER

Is the Result of a Public Demand for a Burner which Incorporates Several Important Features

I. It must be simple in operation so that the average person can understand its principles and operate it efficiently.

The IRON FIREMAN is almost foolproof. Constructed in one unit, it has only two adjustments, for volume of air and coal feed, once adjusted they are not varied. Moving parts run in enclosed dust-proof housing in bath of oil, which is replenished every three months.

II. Safe In Operation

You can safely entrust the job of heating your building to the IRON FIREMAN. Knowing that you can not hire anyone who could do the work half as well. The IRON FIREMAN watches the temperature, in warmer weather, he will only operate at long intervals, just sufficient to give the amount of heat needed, but as the outside temperature falls he gets busy and delivers warmth—as needed—no more—no less.

III. Must Use a Basic Dependable Fuel, Low In Cost, the Price of Which Will Not Fluctuate Very Much from Season to Season

The Iron Fireman Manufacturing Company has one of the best equipped plants west of the Mississippi. Before producing this device, the company made an extensive research into the fuel situation. It had facilities to manufacture an equally efficient burner using other types of fuel, but, millions of dollars worth of perfectly good burners are being scrapped because of the prohibitive cost of the fuel. While the industries are turning back to coal, the basic fuel. There is enough coal in sight to last the nation for hundreds of years. Coal is always available and ready for you.

Installation

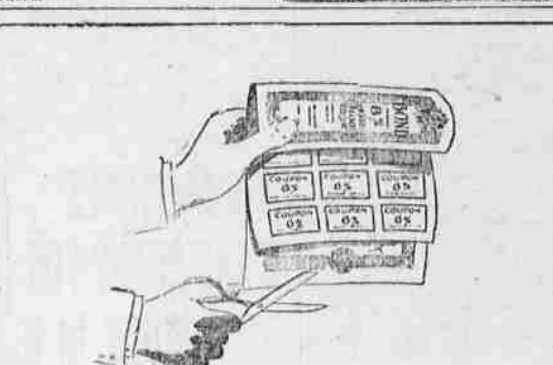

The IRON FIREMAN can be installed under any hot water or steam heating system. It quickly pays for itself in the saving of fuel and labor.
