SHORT CUT ROAD TO COAST NEARS COMPLETION NOW

Dallas, Or., Oct. 2.—Work on the Butler hill-Wallace bridge market road which has been in progress throughout the summer has come to a close and the crusher located near Buell has closed down for the winter.

The county road crews have completed rocking about 2 1/2 miles of new road from the foot of the Butler hill on the east to Mill creek on the west. There remains about five miles of road to build to extend the market road to connect with the coast highway at the Wallace bridge. This will shorten the present road about a mile and eliminate some steep pitches but it is not as heavy construction as the section now completed. It will be about 1 1/2 miles shorter than any other available route.

The completion of the project depends upon funds available for market road construction next year, but it is a highly project.

In addition to surfacing the market road grade about two miles of rock was laid on the Red Prairie road which extends northward toward Sheridan from the top of the Butler hill. About one mile of road was rocked from the juncture of the market road north and the remainder placed where most needed along stretches of the road. The rock for this was also supplied from the crusher near Buell.

With the approach of winter the roads of the county are in very good shape, especially considering the amount of freeze and weather damage which showed up after last winter. The county court is preparing to protect them as much as possible by placing a load limit in force as soon as wet weather sets in.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote acts on the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga.—Adv.

LLOYD TO FACE MURDER CHARGE IN POLK MONDAY

Dallas, Or., Oct. 2.—What promises to be the most interesting term of court in Polk county in several years will open Monday, October 5, before Circuit Judge Ramsey.

The trial of W. R. Lloyd, charged with first degree murder for the killing of Clint I. Baun of Independence, is set for 1 o'clock Monday. It will be the first murder trial in Polk county since the Warren case about three years ago. In that trial Warren was acquitted on a charge of killing two prohibition agents.

The Lloyd case is not expected to consume a great deal of time after a jury is secured. The selection of a jury, however, may take considerable time due to wide interest taken in the case.

The defense of Lloyd is being prepared by W. W. Harcombe, appointed by the court to defend him, and the prosecution by J. N. Holmgren, district attorney. The state will have a considerable number of witnesses to examine in developing the various phases of the case.

The remainder of the court session, following the Lloyd case, depends to a large extent upon the findings of the grand jury in its report, Thursday. One hold-over criminal case remains to be tried. This is the case of the State vs. Tim Derry on a liquor law violation charge. The case was sent to Marion county following the filing of a motion of prejudice in behalf of Derry against Judge Ramsey, but it was returned to Polk county by Judge Kelly, who held it must be tried in Polk county but before another judge.

It is not yet known whether all cases acted upon by the grand jury in the session just completed can be ready for trial at the October term of court. In addition there are a number of civil cases but these are of minor importance and several may not come to trial.

Mother! Don't "Physic" a Child

To Dr. W. B. Caldwell of Monticello, Ill., a practicing physician for 47 years it seemed cruel that so many constipated infants and children had to be kept constantly "stirred up" and half sick by taking cathartic pills, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all children's little ills, he did not believe that a sickening "purgative" or "physic" every little while was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels. A single dose will establish natural, healthy bowel movement for weeks at a time, even if the child was chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement, but best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60 cent bottle at any store that sells medicine and just see for yourself.

SALEM JOCKEY WRITES OF LIFE

Earl Sande, Salem boy, and American premier jockey, has the first of a series of two articles in the current issue of the Saturday Evening Post on the life, ways and remuneration of a jockey working under top notch conditions. Sande's talk is interpreted in the Post by James R. Crowell.

Sande tells how he broke into the racing game in 1917, and it was in December of that year he signed up his first contract with Joe Goodman which stood Goodman on his head for \$20 a month and the encouragement and advice he could give to Sande. Two months later Goodman sold Sande, contract and all for \$7500. Within seven months the contract had been sold for \$10,000 and Sande's salary had been increased to \$30 a month, plus riding fees and the cost of his clothes. He probably has won more money than any jockey ever riding on the American turf.

FRAKES IS HELD FOR ASSAULT ON E. C. KIRKPATRICK

Dallas, Or., Oct. 2.—Carl Frakes, who was charged by the Polk county grand jury with assault with attempt to kill, was arrested Thursday afternoon at his home near Arlie by Sheriff Hooker and brought to Dallas. The charges against Frakes grew out of the firing of a shotgun at E. C. Kirkpatrick in the Dallas garage Sunday night.

Bail was fixed at \$2,500 by the court and was provided. Oscar Hayer is representing Frakes. He will plead Monday before Judge Ramsey.

The grand jury in its report Thursday brought in three true bills, one against Frakes and one each against Leland Hoy, contributing to the delinquency of a minor, and Emil Schmid, statutory rape. Not true bills were returned on two charges against Frank Einfeldt of West Salem, who was charged with putting out poison and assault and battery. A not true bill was returned on an assault and battery charge against George Clark, assault and battery, and in the case of William Hop-

pe, charged with possession of a still.

Following the report of the grand jury Judge Ramsey took up the matter of an affidavit of prejudice filed in behalf of Tim Derry, seeking to have his case heard before another judge. Judge Ramsey ruled that according to a recent supreme court decision an affidavit of prejudice could not be filed if any motion had previously been filed in the case. In the Derry case a motion to suppress the evidence had been filed previously. He set the case for trial immediately following the murder trial of W. R. Lloyd. Derry is represented by Attorney E. K. Piasecki.

INDIANS TO PLAY BENSON ELEVEN

Chemawa, Oct. 2.—Tomorrow afternoon the Chemawa Indians football eleven will go to Portland where they are to meet the strong Benson eleven on Multnomah field, in the second game of the season for the Redskins. The Indians defeated the high school of Commerce in their first game last Saturday by a score of 25 to 6. They are in hopes of getting the second straight win and have been working hard to get into shape for the battle.

De Poe, Abraham and Strom have been on the injured list for the last few days. Abraham was unable to get into the game last Saturday. Strom stayed in during the game but was all in during most of the game but refused to come out. De Poe hurt his neck where he has had weak tendons. The rest of the team is in pretty good shape and it is hoped that the injured will be able to get into the lineup. Coquille Thompson, big husky, 190 pound full back for the Indians will more than likely be the mainstay of the team if he gets through the Commerce line almost at will last week. The Indians have been a little weak on the defense but have strengthened their line and expect that it will be in great shape.
