RYE GRASS SEED CROP CLEANED UP

English rye grass seed, which is becoming a crop of considerable importance especially in Linn, Benton and Lane counties, is pretty well cleaned up for the season, according to Harley C. White, who handles a considerable quantity of the seed. The crop was about 550 tons this year, but the year produced a small crop because of the dry season.

The largest grower in Marion county is R. Jones of Gervais, route 2.

The crop in Linn county this year brought from \$5 to \$6 a hundred to the grower, while a quarter of a cent a pound was paid locally to growers in this county because of the differential in the freight rate.

The eastern dealers buy up a large share of the crop, one Chicago firm contracting for 100 acres in Linn county this year and there were other contracts with eastern seed houses for 200 and 300 acre lots.

Harley White states there is some danger of the thing being overdone and suggests that to be on the safe side the grower should contract before entering into the game to any heavy extent.

700 BALES OF HOPS SHIPPED FOREIGN PARTS

Portland, Oct. 8.—Consignments booked for Portland loading aboard the Northwestern Miller to be delivered at London will be augmented by one lot of 700 bales of Oregon hops, which represents the largest single shipment of that commodity the Furness line has handled locally, says D. J. Frazer, in charge of affairs of the fleet in the Willamette and Columbia river districts. The Northwestern Miller is due here the latter part of next week. Export hops have moved in limited quantities of late and September's shipments to foreign destinations were shown to have been 48,445 pounds. Since January 1 there have been 69,825 pounds sent abroad via the ocean route.

PRICES SHADED ON CALIFORNIA PRUNES IN EAST

A circular just received here from the New York office of the Cato-American company states that California prunes are being quoted quite a bit lower than opening prices there, this being due, it is stated, to the fact that most of the sales made by independents were against association prunes. But very few prunes have been bought from independents which they had bought, themselves and as a result independents are getting anxious to sell and are depressing the market.

The circular states that a number of instances are known where Oregon packers have bought back their own early contracts on 40 to 50a because of the scarcity of those sizes in the Oregon crop this year.

Robert C. Paulson reports receiving a telephone call from Fresno yesterday in which it was reported that new crop Californians are being sold there at a cent under opening prices.

Fruit dealers at Hamburg, Rotterdam and Paris show a weakening. The Bonnia crop, he says, which was 15,000,000 last year is estimated at 15,000,000 this year. California crop is variously estimated at from 220,000,000 to 250,000,000 while the Oregon crop will not exceed 20,000,000.

WHEAT PRICES AGAIN SLUMP

Chicago, Oct. 8.—Wheat prices suffered a material new setback early today. The opening, 3c to 3 1/2c lower, new style, December \$1.26 to \$1.35 and May \$1.37 to \$1.38 was followed by something of a rally and then by fresh downward turns.

After opening unchanged 3/4 lower, December 75 to 75 3/4, corn underwent a general decline, December touching 74 1/2.

Oats started unchanged to 1/4 off, December 39 to 39 1/2. Later the market held near to initial figures. Provisions were lower.

COTTON PRICES HIT TOBOGGAN

New York, Oct. 8.—Cotton prices broke about 1 1/2c a bale today on publication of the government crop estimate of 14,750,000 bales which was about 500,000 bales more than the trade anticipated. Heavy selling which proceeded the sharp decline later was offset by trade buying in fairly large volume.
