DR. MENDELSON FITS GLASSES CORRECTLY

Skill and experience are needed to fit glasses right. Precision and good judgment are required to make them as they should be made.

I do not only fit your eyes, but I design glasses that are comfortable and good looking and give you every advantage that science and skill can give you.

Poor eye sight is the cause of backwardness in many children. A safe plan is to allow me an examination and I will advise you correctly.

If your glasses are not entirely satisfactory in every respect, I will change them free of charge for one year.

There is no experimenting on any one's eyes in my office, I do all the work myself and guarantee satisfaction in every respect.

BOOTH RAPS ATTITUDE OF ESPEE LINE

(Continued from Page One)

Ralph Budd, president of the Great Northern, was called as a rebuttal witness. He stated that one of the provisions of the transportation act was that competition must be preserved as far as possible.

"We had this in mind in the Bend-Klamath extension," he said. "If this road is not built, a very large part of Oregon will be without rail competition."

TESTIMONY OF ALIENISTS IS ADMITTED

(Continued from Page One)

person under the influence of the drug to execute such an escape as Murray had engineered, Dr. Griffith said:

"It would be impossible to carry out these complicated acts accurately if under the influence of Cannabis Indica."

Insane Never Escape. In examining Dr. Griffith, Will R. King, chief counsel for the defense, sought first to elicit from the witness whether or not insanity is dependent upon the degree of intelligence of the subject.
