When You Fret and Fume—Guard Against Chronic Fatigue

Many a man and woman whose nerves are always on edge, who worry and fret over trifles, quarrel with their wives and husbands, and are always weak, tired and run-down—many, yes, thousands of these persons, are really victims of chronic fatigue—and do not know it.

Don't confuse chronic fatigue with the "healthy" fatigue you feel after vigorous exercise. Chronic fatigue comes from within. Your nerves, organs and muscles have become debilitated due to lack of sufficient organic iron in your blood.

To conquer chronic fatigue you must strengthen your system—especially your worn-out nerves—by restoring this organic iron to your blood. But don't take the older mineral iron medicines which many doctors now say do little good. Take organic iron—Nuxated Iron—which is like the iron in your blood and like that in spinach and lentils. Unlike ordinary mineral iron it will not injure the teeth or disturb the stomach, but is promptly assimilated.

Take Nuxated Iron for just 2 weeks and you'll be astonished how every weak, nervous symptom vanishes, and you feel stronger and better in every way. Money back if not improved. At all good druggists.
