FRIARS' CLUB
FLOUTS ORDERS
OF THE BOARD

(Continued from page one)

President, and J. C. Nelson, principal, Sunday, when Chauncey Bligh reported that his son, Robert Bligh, had been initiated into the Friars' fraternity.

The stand taken by the boys is that the similarity of name, pin, and membership, between the present organization and the organization which was ordered disbanded this fall, is purely a matter of coincidence, and that the present organization is in reality a fraternal organization analogous to the De Molays, which are sponsored by the Masons.

The Friars' Issue Statement

The technical question with regard to the De Molays will probably come up for decision by the school board along with that of the Friars, school authorities believe.

The Friars made the following statement this afternoon:

"The members of the Friars' fraternity of Salem, Oregon, want it understood by the public that their organization is not for the purpose of evading the action of the school board, but merely a group of fellows, banded together for the purpose of fellowship."

"The fraternity believes that it is correct in maintaining that it is a bona fide organization and that

the board meeting Tuesday night intends to have a complete understanding for all time. The Friars' fraternity is prepared to disband if it can be shown that they have broken a school board ruling, but inasmuch as the order is not limited to high school students, and its organizers, Dick Schel, Waldo Smith, Floyd Kinzer and various others in the city, are not members of the high school, the fraternity feels that its organization is legally justified."

Junior O. A. C. Frat
Members of the Friars also stated that they are connected in some way with some O. A. C. organization, which they apparently feel is similar to the DeMolays' connection with the Masonic order.

A considerable degree of conjecture centered today around the name of Cecil Edwards, president of the high school student body. Edwards, who was a Friar last year has not definitely announced whether he intends to continue with them again, or whether he will abandon all connection. Edwards is to make a decision on the question, by the request of Mr. Nelson, and with the approval of the Friars' meetings. He has not attended meetings this year, it is reported by the boys.

Three former Friars, Le Roy Grote, Kenneth Webb and Max Burris, have stated definitely that they are "standing by our pledges," and have not, and will not have, any connection with the newly formed fraternity.

The school entering the most pupils will receive a Victoria phone graph as a prize, and the final contest winners of the fourth, fifth and sixth grades will also receive Victrolas as prizes. Other prizes awarded will be Red Seal records.

DOOLITTLE WINS SEAPLANE RACE

Bay Shore Park, Baltimore, Md. Oct. 26.—(A.P.)—Lieutenant George T. Doolittle and Ralph A. O'Leary, United States navy pilots, failed to appear after completing their sixth lap in the Jacques Schneider cup race this afternoon. Officials were apprehensive that both were down and were dispatching searchers. Both planes were over ten minutes overdue.

Bay Shore Park, Baltimore, Md. Oct. 26.—(A.P.)—Lieutenant James H. Doolittle, U. S. A., flying a Curtiss seaplane, won the world's seaplane racing classic, the Jacques Schneider trophy here today. His official time was announced at 232.573 miles per hour.

Experts estimated that Lieutenant Doolittle saved thirty miles on the race by his extraordinary banking on the turns.

The time of Captain Hubert Broad, flying a British Gloster-Napier III, was 129.169 miles per hour.

Lieutenant Doolittle's time is a new Schneider cup record. The previous best Schneider trophy was made by Lieutenant David Rittenhouse in a United States navy Curtiss seaplane at Cowes, England, in the 'first race in which the United States competed in 1923. Rittenhouse made 177.38 miles per hour.

McDonough's time for the 250 miles was one hour 35 minutes and 2.71 seconds.

Baltimore Speedway, Laurel, Md. Oct. 26.—(A.P.)—Bob McDonough, youthful speed champion, nured a balky motor through 25 laps of today's 250 mile motor classic, to lead Peter DePaolo home by a scant quarter of lap.

After leading by almost two full laps through 150 miles of the grand McDonough's motor began to fall in the final stages. Only desperate maneuvering brought him home in the lead. Tommy Milton took third money, several laps behind the leaders.

SCHOOL CONTEST FOR STIMULATING MUSIC INTEREST

To stimulate interest among the school pupils of Salem in better music, a unique contest is to be instituted in the schools by the H. L. Siff Furniture company and Moore's Music House, terminating in a final contest at the armory which probably will be staged about the first week in January.

A list of 30 phonographic records of classical musical pieces will be used. In the preliminary contest to be held in each of the schools the pupils will listen to a portion of the record and then write certain information concerning it. The same method will be followed in the final contest to be participated in by the winners of the preliminary contests.

The school entering the most pupils will receive a Victoria phone graph as a prize, and the final contest winners of the fourth, fifth and sixth grades will also receive Victrolas as prizes. Other prizes awarded will be Red Seal records.

FLEET OF ESSEX GIVES FREE RIDES

A fleet of Essex coaches will stage an "ask for a ride" day on the streets of Salem Tuesday, it was announced this morning by Fred M. Powell, head of the local motor car company which handles Essex cars.

"It is for everybody and anybody," said Mr. Powell. The cars, all plainly marked, will be all over the city, and all anyone has to do is simply to hail one of them, climb in, and take a ride. It won't cost any of them a cent—nobody needs to be bashful about asking.

The purpose of the affair, Powell states, is to make people familiar with the automobile.

MISSING MAN FOUND DEAD

Eureka, Cal., Oct. 26.—(A.P.)—The body of Gustave Benson, 35, a retired farmer, was found hanging to a tree in the Sunnyside district, five miles north of here today. The authorities believe that Benson was hanged after he had been poisoned and killed by hooded whiskey, the hanging having been done by the man who gave him the whiskey.

Benson's feet were touching the ground and there was no evidence of strangulation. Nearby was found a whiskey still and it is believed that Benson had been drinking whiskey from it.

LEAGUE TELLS COMBATANTS TO EVACUATE

(Continued from Page One.)
frontiers.

The council during the session, which was held in private, adopted a resolution giving Greece and Bulgaria 24 hours in which to inform the council that orders have been given for the withdrawal of troops inside their frontiers and 60 hours to inform it whether the evacuation has actually been carried out.

Mutual defiance marked the attitude of both Bulgaria and Greece today before the opening of the special session of the league of nations council, convened to settle the new Balkan conflict.

Bulgaria sent a fresh note to the league announcing her refusal to enter into direct negotiations with Greece and the latter contending that she had invaded Bulgarian soil only in self-defense, made it clear that she would not withdraw until Grecian soil was free of Bulgarian forces.

League officials said the actual military situation was obscure.

They believe solution of the conflict may require several days as both the Bulgarian and Greek representatives who are to appear before the council will probably desire to confer frequently with Sofia and Athens before committing their respective governments.

Paris, Oct. 26.—(A. P.)—The first meeting of the league of nations council, called to consider the Greco-Bulgarian crisis, was extremely brief. The members assembled at 6 p. m. and adjourned 35 minutes later.

Paris, Oct. 26.—(A. P.)—At last accounts hostilities were in progress along the Macedonian frontier between the Greeks and Bulgarians.

The Greeks were reported to be throwing shells into various parts of the troubled district, while the Bulgarians from points of vantage were declared to be carrying out sniping operations against the Greeks. There still continued the excited rush of the frenzied populace in the war torn areas to make their escape from the shells and the whistling bullets.

While the council of the league of nations was gathering to investigate the situation and try to bring about harmony, report and it that the Bulgarians were rushing up reinforcement with which to counteract the Greek invasion of Bulgarian territory.

Greece, it is said, still adheres to her threat to hold all the positions her troops have taken from the Bulgars until full satisfaction has been accorded in the way of reparations and apology from Bulgaria.

The fact that Roumania, Czechoslovakia and Jugoslavia apparently will remain neutral in the conflict has created a feeling of satisfaction here. Czechoslovakia and Roumania already have announced their neutrality and the Belgrade government has ordered

that an invasion of Jugo-Slavia by the belligerents be prevented.

Vienna, Austria, Oct. 26.—(A. P.)—Advices from Sofia, the Bulgarian capital, declare that the Greek troops at all points are digging in and strengthening their positions, apparently for a long stay on Bulgarian soil.

Refugees Shelterless
Early this morning they are reported to have occupied a new position south of Petrich, which hitherto had been in the hands of Bulgarian troops. A number of persons were killed or wounded in the Greek bombardment of Pipernitza and Petrovo, about 15 miles north of Demirhisar.

A heavy rainfall is making the plight of the refugees pitiable as many of them are forced to camp in the open without the slightest shelter.

Greeks Apressors
London, Oct. 26.—(A. P.)—The Daily Express prints a dispatch from Levoново, Bulgarian headquarters, four miles from Petrich, dated Sunday, saying that the Bulgarians and the Greeks continue to wage intermittent warfare. The correspondent, however, confines the details to the doings of the Greeks, not mentioning any Bulgarian retaliation.
