FORTY-SEVENTH YEAR No. 260

SALEM, OREGON, SATURDAY, OCTOBER 31, 1925

PRICE THREE CENTS ON TRAINS AND NEWS STANDS FIVE CENTS

LONG WOMAN GETS PAYROLL

MICHIGAN AND YALE VICTORS ON GRIDIRON

Middies Take Round Drubbing, While West Point Lads Strive Vainly to Pierce Eli Defense.

Ann Arbor, Mich., Oct. 31.—Michigan trounced the Navy eleven here this afternoon almost without opposition. The final score was Michigan 54, Navy 0.

New Haven, Conn., Oct. 31.—A. P.—Yale conquered the undefeated Army eleven before 80,000 spectators in the Yale bowl today 28 to 7.

80,000 See Game. A crowd of 80,000 witnessed the game.

It looked bad for the Army right at the start when Harry Wilson fumbled Jones' opening kickoff but recovered and ran to the Army 20-yard line.

Both teams engaged in a kicking duel when it was evident that progress through the line was almost impossible.

Yale got its first real chance early in the second quarter when Noble tossed a long forward pass to Kline which gained 25 yards for the Elis and gave them the ball on Army's 31-yard line.

The third quarter brought forth a punting duel again when both teams resorted to the kick on the second down. Harding caught a Yale punt on his own 38-yard line and ran it back 22 yards to the Yale 40-yard line.

A five-yard penalty for Yale offside put the ball on the Eli 45-yard line. Then Trappnell swung wide on an end run around the Yale right wing but fumbled just as he was tackled on the goal line and Yale recovered.

Yale immediately kicked to her 44-yard line. After failing to gain through the line, Army kicked out of bounds on the Yale 24-yard line.

Yale punted after one unsuccessful attempt to gain through the line. The ball bounded against Harding and before he was able to recover, Noble punted on it for Yale on the Army 25-yard line.

Three thrushes through center gave Yale first down on the Army 19-yard line.

Officers suspect that the gun which Sorhus attempted to smuggle into the state prison was intended for Fallon and that Fallon, who was to be called as a witness in the trial of Tom Murray, leader of the gang that escaped from the state prison on August 12 last, was to get the gun into Murray's possession.

GUN SMUGGLER'S BAIL PLACED AT \$3000 BY COURT

Nagel Sorhus, who was arrested about two weeks ago when he attempted to smuggle a gun into the state penitentiary, presumably for Frank Fallon, a convict, appeared in justice court today where his bail was fixed at \$3000 by Justice of the Peace Small. He was unable to furnish the money and will continue in the county jail.

Officers suspect that the gun which Sorhus attempted to smuggle into the state prison was intended for Fallon and that Fallon, who was to be called as a witness in the trial of Tom Murray, leader of the gang that escaped from the state prison on August 12 last, was to get the gun into Murray's possession.

GOOD EVENING WORDS and MUSIC

By Stoddard King
NEW WORDS FOR AN OLD TUNE.

In flivvers or limousines though we embark,
Be ever so watchful, there's no place to park.
Though, grimly determined, we drive 'round the block,
And trickle through traffic an hour by the clock.

CHORUS:
Hark, hark, retard your spark,
There's no place to park, oh, there's no place to park!

An exit from home, splendor dazzles in vain,
Oh, give me my own little driveway again,
My own wee garage, full of memories tender,
Where I can get in without nicking a fender.

At night there come visions, my sleep to disturb,
Of five hydrants every two feet on the curb,
Of traffic policemen with hands full of cards,
And hard-hearted scowl at this hundredth of yards.

CHORUS:
Hark, hark, it's almost dark,
But there's no place to park, oh, there's no place to park!

The correct name of that toothsome fish, the sand dab, is hippocloides platessoides, which is rather an interesting fact, because no other item on the menu, as far as any one has been able to find out, is named after the proprietor of a Greek restaurant.

An elevator has been installed to help salmon pass a dam on the White Salmon river, and it will be all right if the salmon don't get pampered and too lazy to swim. Elevators have worked that way with a lot of other poor fish.

ANNE STILLMAN SEEKS TO MARRY AGAIN IS REPORT

New York, Oct. 31.—(A. P.)—While the principals in the latest Stillman divorce proceedings continued in seclusion today, there came a report as to a definite reason for the institution of a suit by Mrs. Anne Urquhart Stillman against James A. Stillman.

The New York American says that Mrs. Stillman is using so that she may be free to marry Fowler McCormick, who at her suggestion, some time past, put on overalls to learn the business of the International Harvester company from the ground up.

Mr. McCormick at one time was regarded as a suit of Mrs. Stillman's daughter, Anne, now the wife of Henry P. Davison Jr.

Lawyers for both Mr. and Mrs. Stillman continue to refuse to discuss the divorce proceedings.

Portland Quota for Linen Mill Nearly Half Subscribed Now

With \$67,500 actually subscribed and \$10,000 more definitely in sight to be subscribed in the next day or two, Portland's quota for the Oregon Linen Mills, Inc., of Salem has gone well past the 50 per cent mark and the way things are going the entire amount should be subscribed in the next few weeks.

Officers of the United States National bank, \$2525. Officers of the First National bank, \$10,500. Officers of the Northwestern National bank, \$2525. Meier & Frank company, \$10,500. Fieschner, Meyers & Co., \$2525. Henry Fraling Estate, \$2525. Blake-McFall company, \$1050. E. W. Noble, \$1050. Franklin T. Griffith, \$2100. C. M. Clark of Philadelphia, president of the Portland Electric Power Co., \$2525. A. B. Ayer, \$2625. Portland Telegram, \$2025. Ira F. Powers, \$2100. E. J. Cobbe, \$1050. A. H. Johnson, \$1050.

Work will continue in co-operation between local men and Julius Meier and his committee.

TAX CRITICS URGE CUT IN EVERY LEVY

House Committee Deluged With Suggestions On Means of Reducing Annual Tax Bills.

Washington, Oct. 31.—(A. P.)—Concluding today its second week of public hearings on revision of the revenue laws, the house ways and means committee has received appeals for repeal or reduction of practically every tax law on the statute books.

There is every indication, however, that the committee will follow in general lines the suggestions of the treasury, keeping its proposals for total reduction in revenue near to the \$300,000,000 mark, regardless of how closely it follows the specific suggestions of Secretary Mellon as to how the reduction should be effected.

Colt Asks Exemption. Frank W. Mondell, former republican leader in the house, and James B. Colt, of Boston, Mass., were allotted time today for appearance before the committee.

Exemption of tangible personal property from the inheritance tax was urged by Mr. Colt. Appraisal of such property for taxation, he said, constitutes a burden on our taxpayers wholly out of proportion to the sums received by the government from that source.

He estimated it cost estates \$1,112,460 to make returns from which the government collects less than \$300,000.

Reduction of the maximum surtax rate from 40 to 20 per cent or even 15 per cent, and a cut in inheritance rates was recommended by Mr. Mondell.

Surtax Cut Urged. "While the reductions of the surtaxes will benefit all the people of all sections," he said, "by bringing and keeping capital in industry, the most pronounced benefits will come to the south and the west, the sections having the greatest undeveloped resources and the least accumulations of capital."

The effect of high surtax rates is now reflected in the slow recovery in the livestock and other basic industries, in lack of capital at reasonable rates in many lines of investment and enterprise.

Urging reduction in the inheritance levy, Mr. Mondell proposed that new rates be retroactive to the date of enactment of the 1924 revenue act, which increased the duties.

"There is a widespread and earnest opinion in the country," he said, "that the increase of the estate (inheritance) taxes in 1924, in the absence of a national emergency, was a mistake, that it was neither logical nor reasonable and that the wrong then done should be rectified."

This was only a momentary check, however, for Grange quickly went over for Illinois' third touchdown on an 18 yard run around right end after he had led a march from Penn's 40 yard mark.

Grange shook off four or five tacklers in his race for a touchdown. He was withdrawn from the lineup with the end of the half insight.

Delegates from Rich, Williams, Provoit and Medford, declared the new highway would benefit all sections of southern Oregon.

Mr. Davidson, a typical pioneer, was loath to speak but finally yielded to persuasion and said that he favored the new road for he calculated the more people who saw the caves, the better for all concerned.

Mr. Flynn, assistant to the vice-president and general counsel of the Great Northern Railway company, will be the speaker at next Monday's luncheon of the chamber of commerce when he will speak on "The Public and the Railroads."

Mr. Flynn, aside from his connection with the Great Northern, is also district governor of the ninth district of Rotary clubs, including Minnesota, North Dakota and parts of Missouri.

Edwards A. Flynn, assistant to the vice-president and general counsel of the Great Northern Railway company, will be the speaker at next Monday's luncheon of the chamber of commerce when he will speak on "The Public and the Railroads."

Work will continue in co-operation between local men and Julius Meier and his committee.

RED GRANGE MAKES HASH OF PENN LINE

62,000 Fans See Illinois Star Tear Holes Thru Opposing Line at Will; Score 24 to 2.

Franklin Field, Philadelphia, Oct. 31.—(A. P.)—While a record crowd of 62,000 looked on in amazement, Red Grange, Illinois gridiron thunderbolt, ran wild through Pennsylvania's hitherto unbeaten team today on a muddy field.

The famous red-head tore Pennsylvania's defense literally to pieces in a succession of dazzling thrusts. Time after time he shook off, straight-armed and dodged a half dozen tacklers before he was downed.

In the first half Grange had carried the ball 16 times altogether for the astonishing gain of 225 yards.

All told, Grange, for his sensational afternoon's work, figured in 2 plays for a total gain of 345 yards, representing about 80 per cent of the entire Illinois advance.

Franklin field was a quagmire. Pools of water stood in many parts of the field and here and there patches of snow could be seen. A cold, damp wind blew across the field.

Robinson kicked off to Grange, who returned the ball to his own 36 yard line. They exchanged punts and getting the ball on the Illinois 45 yards mark Grange broke through and dashed 55 yards for a touchdown. Britton missed the placement goal.

On the next kickoff Grange ran 55 yards to Pennsylvania's 25 yard line. Penn held momentarily but had to give way. Britton pushed over for a second touchdown. He again failed at a placement goal. Score Illinois 12; Pennsylvania 0.

Pennsylvania flashed her first offensive soon after the start of the second period. Britton was thrown as he tried to kick from behind his own goal line and Pennsylvania gained a safety for two points, which made the score Illinois 12; Pennsylvania 2.

A succession of knife like thrusts in which Grange carried the ball nearly every time, took Illinois from her 30 yard line to Pennsylvania's 36 yard line. Grange took a pass from Britton to make it first down on Pennsylvania's 14 yard line. First down was made again on the four yard line. Britton failed to bridge this short gap, however, and Penn recovered the ball on down on her own one yard line and punted.

This was only a momentary check, however, for Grange quickly went over for Illinois' third touchdown on an 18 yard run around right end after he had led a march from Penn's 40 yard mark.

Grange shook off four or five tacklers in his race for a touchdown. He was withdrawn from the lineup with the end of the half insight.

Delegates from Rich, Williams, Provoit and Medford, declared the new highway would benefit all sections of southern Oregon.

Mr. Davidson, a typical pioneer, was loath to speak but finally yielded to persuasion and said that he favored the new road for he calculated the more people who saw the caves, the better for all concerned.

Queen of Tropical Paradise Indicted

Mrs. Edna M. Harper

The face of Mrs. Edna M. Harper, queen of Palmisto Del Verde, "Garden of Eden" in the sunny seas off Mexico south of Mazatlan, is familiar to some Salemites, who a few years ago ventured their fortunes, their lives and their future happiness and prosperity on the golden islands of their dreams, only to come back with dreams and for times both shattered.

Mrs. Harper, who with her royal financial consort, were arrested in Los Angeles on a charge of fleeing across in three states along the Pacific coast, is out on bond, as is her companion, W. O. O'Bryan each putting up \$10,000 bail.

It has been estimated that fully half a million dollars was subscribed in Oregon, Washington and California to the Palmisto Del Verde scheme, of which about \$60,000 made up Salem's quota.

In addition Salem sent farm implements, chickens and hoes into the country where coconuts and good things grew in such profusion as to be a nuisance. Other Willamette valley cities also joined in the procession.

Early snow records were broken in Connecticut, but heavier snowfalls were reported in Washington and Virginia. As much as a half in New Haven, Conn., was the heaviest there in 52 years, but Washington and northern Virginia had a two-inch fall, the earliest since 1870.

Salvaging of the wrecked submarine S-51 off Block Island, R. I., had to be suspended because of high seas and the blinding flakes in Klyria, Ohio, a woman, blinded by snow, was killed by a train.

The two game officials left this morning for the south after a three-day inspection trip through the stricken district. Thus far the news have not been affected.

Delegates from Rich, Williams, Provoit and Medford, declared the new highway would benefit all sections of southern Oregon.

Mr. Davidson, a typical pioneer, was loath to speak but finally yielded to persuasion and said that he favored the new road for he calculated the more people who saw the caves, the better for all concerned.

Work will continue in co-operation between local men and Julius Meier and his committee.

ASK FRANCE TO EXPLAIN SYRIAN ACTS

League Requests Official Light On Bombardment of Damascus; General Sarraill Recalled.

Geneva, Oct. 31.—(AP)—The permanent mandates commission of the league of nations today asked France for official comment upon petitions, protests and complaints which have been filed with the league concerning the bombardment at Damascus, October 13 to 20.

Sarraill Recalled. Paris, Oct. 31.—(AP)—General Sarraill, France's high commissioner in Syria, who has been reticent with regard to the recent fighting in Syria and especially Damascus, which underwent a severe bombardment, has been ordered home by the Government to furnish a full explanation of the situation.

He will not return to his post, for a decision has been reached by Premier Painleve and his cabinet that instead of a military commissioner a civilian heneforth will take up the task of supervising the mandated territory.

The French cabinet for several days has been much perturbed over the representations reaching it from American and British sources regarding the bombardment of Damascus by the French artillery corps from October 13 to 20.

Lengthy discussions were given in these reports of amazing and extraordinary incidents accompanying the shelling. The British consul in Damascus in his report to the British foreign office, which conveyed its contents to the French government, described "atrocities" by General Sarraill's regime.

Early snow records were broken in Connecticut, but heavier snowfalls were reported in Washington and Virginia. As much as a half in New Haven, Conn., was the heaviest there in 52 years, but Washington and northern Virginia had a two-inch fall, the earliest since 1870.

Salvaging of the wrecked submarine S-51 off Block Island, R. I., had to be suspended because of high seas and the blinding flakes in Klyria, Ohio, a woman, blinded by snow, was killed by a train.

FAIR BANDIT TAKES \$4,600 IN ROBBERY

Department Store Clerks Held Up On Busy Bank Corner In Portland And Kidnaped.

Portland, Oct. 31.—(AP)—A lone woman today held up two employees of the Roberts Brothers department store in front of the United States National bank and escaped with \$4600, mostly in silver coin, which had been drawn from the bank for the weekly payroll.

As Phillip Jones and Ennis Pritchard, employees of the store, boarded their parked car in front of the bank with a leather handbag containing the payroll cash they were accosted by the woman, heavily veiled, who asked them if she could ride with them, they reported. She drew a pistol, partly covered with a handkerchief, and forced the two men to drive, with her in the rear seat.

She forced Pritchard to remove the money from his bag and transfer it to one she carried. The store employees were forced to drive thru several downtown streets, doubling back and forth through the heavy traffic. Finally the woman ordered the car to stop and stepped out.

Declaring she had a friend in a car just behind she ordered the department store men to drive to a point just outside the city. Jones, who was driving, observed a big car following and decided to take no chances, drove to the point indicated by the woman, then to the police station to report the robbery.

Early snow records were broken in Connecticut, but heavier snowfalls were reported in Washington and Virginia. As much as a half in New Haven, Conn., was the heaviest there in 52 years, but Washington and northern Virginia had a two-inch fall, the earliest since 1870.

Salvaging of the wrecked submarine S-51 off Block Island, R. I., had to be suspended because of high seas and the blinding flakes in Klyria, Ohio, a woman, blinded by snow, was killed by a train.

HIGHWAY BOARD HEARS PLEA FOR ROAD TO CAVES

Medford, Ore., Oct. 31.—At a hearing in Jacksonville yesterday afternoon, before members of the state highway commission regarding the creation of a super-road district from Williams to the Oregon Caves, over a dozen witnesses were called, all of them favoring the new road, with the exception of Attorney H. D. Norton of Grant Pass, who while not definitely opposing the proposition, questioned the wisdom of creating the district at the present time.

Delegates from Rich, Williams, Provoit and Medford, declared the new highway would benefit all sections of southern Oregon.

Mr. Davidson, a typical pioneer, was loath to speak but finally yielded to persuasion and said that he favored the new road for he calculated the more people who saw the caves, the better for all concerned.

50,000 DUCKS DIE OF BIRD CHOLERA

Klamath Falls, Or., Oct. 31.—At least 50,000 ducks died of bird cholera in the Tule lake country this fall and the disease has been diagnosed as a new form of bird cholera, according to George Tonkin, United States game warden for California, and Dr. Rudolph Snyder, inspector for the United States bureau of animal industry for California.

The two game officials left this morning for the south after a three-day inspection trip through the stricken district. Thus far the news have not been affected.

Delegates from Rich, Williams, Provoit and Medford, declared the new highway would benefit all sections of southern Oregon.

Mr. Davidson, a typical pioneer, was loath to speak but finally yielded to persuasion and said that he favored the new road for he calculated the more people who saw the caves, the better for all concerned.
