UNITED STATES OF EUROPE SEEN AS POSSIBILITY

Paris, Nov. 2.—(A P.)—A United States of Europe has become the subject of discussion in Paris as an outgrowth of what is considered the masterful handling by the council of the league of nations in recent days of two situations dealing with the peace of Europe—the Locarno agreements and the controversy between the Greeks and Bulgarians.

The backing given the council by Europe's two greatest states, France and Great Britain in both these matters and the successful termination of both, is looked upon in some quarters as meaning that henceforth the league of nations must be the agency for the settlement of all disputes.

The council has ended its session, quickly organized to bring order out of the chaos along the Greco-Bulgarian frontier in Macedonia, the members parting with a feeling of satisfaction that the belligerents had agreed to obey the covenant of the league of nations and submit their dispute to the meditation of the council.

WALNUT CROP IN RUMANIA SHORT

(Continued from Page Six.)

the Bessarabian crop will be very good.

Of the walnut-producing regions, Bessarabia has enjoyed the most favorable weather conditions. Drought in that area caused considerable damage to grain crops, but contributed to the normal ripening of walnuts, with a consequent high degree of quality. The setting of nuts was light, however, and in spite of the favorable conditions, the Bessarabian crop is placed at only 50 per cent of that of last year. Gathering was completed by the end of September.

The Moldavian crop is described as an average one of good quality, but 20 per cent short of the 1924 harvest. Transylvania was expected early in the season to have a larger crop than in 1924 but heavy rains threw down almost 40 per cent of the nuts when still green. The result is a crop estimated at scarcely 60 per cent of that of 1924. Gathering was expected to begin early in October.
