"everlastingly fine performance!"

"Of the thousands of cars that drive these roads every year, the Willys-Knight is the only one that I have never seen with mechanical troubles" —statement of runner in one of the best known National parks in the West.

"The Willys-Knight is the finest automobile built regardless of price or size... it is a wonder to me that everybody who can afford the price is not driving one" —statement of a mechanic in one of the largest automobile repair shops in the West.

Striking ability
In every test made upon the power plant by the hardest driving conditions, the Willys-Knight delivers 100% perfect performance. Silently, smoothly, and economically, it conquers mountain grades, long stretches of roads that are barely trails or keeps its place at the head of the procession on the high-ways.

Used car values tell the story
Look through the list of used cars offered for sale—see the price of a used Willys-Knight as compared with the price of other cars in the same general classification—you will find a steady demand for Willys-Knight used cars at prices very much above other makes which originally sold in the same price scale.

Experienced automobile owners know that the Willys-Knight improves where other cars wear out, and that even with astounding mileage built up on the speedometer, the power plant is always good, always ready to deliver full measure of its rated ability.

Willys-Knight is as beautiful in appearance as it is in performance. In outline it is graceful and distinctive—in appointments it is rich and complete.

In any company it stands out as a car of rare grace and refinement. See this motor car. Familiarize yourself with its performance record. Especially consider the prices at which it is available now.
