Your Laxative!
Does It Regulate for Weeks?

DR. W. B. CALDWELL
AT THE AGE OF 63

To Dr. W. B. Caldwell of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated men, women, children, and particularly old folks, had to be kept constantly "strapped up" and had weeks at a time of cathartic pills, salts, sarsaparil and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, indigestion and stomach misery, he did not believe that a "strapping" "purge" or "physic" every day or two was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels. A single dose will establish natural, healthy bowel movement for weeks at a time even for those chronically

constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless, and so safe that even a cross, feverish, bilious sick child gladly takes it.
