Regla, Cuba.—Land crabs in great numbers invade this city every evening shortly after sunset, crawling through the streets in the lower section of town in search of scraps of garbage on which to feed. As a result, the affected sections have the appearance of a childless municipality. Authorities are unable to explain their presence.

### FALL-DOHENY INDICTMENTS HELD VALID

Washington, Dec. 7.—(A.P.)—The Fall-Doheny bribery indictments which were quashed several months ago in the lower courts here, were held to be valid today by the District of Columbia court of appeals.

A plea in abatement, filed by former Secretary Albert B. Fall, Edward L. Doheny, oil magnate and his son, Edward L. Doheny, which the lower court granted was overruled by Chief Justice George E. Martin on motion of the government's special oil counsel, Atlee Pomerene and M. J. Roberts.

Two indictments were covered by the court's decision, one charging Fall with receiving a bribe of

\$100,000 to influence his official action respecting certain oil leases and the other charging the Dohenys with giving the bribe.

The appellate court held the act of congress taking the prosecution of the oil cases out of the hands of the department of justice meant only to deprive the attorney general of the "charge and control" of the litigation and did not interfere with the right of the special counsel to make use of the assistance of district attorneys. The defense had argued the presence in the grand jury room of Oliver C. Pagen, a special assistant to the attorney general, violated the sanctity of the proceedings and nullified the indictments. This view was accepted in the lower courts.

Langlo, Westphalia, Germany, Dec. 7.—(AP)—Seven children, aged from one to three, were found asphyxiated in the children's hospital today. Death was caused by coal gas.
