### Golden Eagle Proves Stormy Petrel With State Humane Group

Wondering what it is all about, a large golden eagle is being manuevered by people in a cage at the Ames auto park on the Pacific highway just north of Hubbard while the Oregon Humane society is ardently seeking his release.

Because of the commotion, H. J. Ames, proprietor of the camp grounds and custodian of the huge fowl is much perturbed to think that the society, of which he himself is a member, has found it necessary to drag him into the incident. There is no question as to the condition of care for the animals and birds at the private zoo, which are described by Deputy Game Warden Brown as "a good if not better than animals in similar zoos in the state."

When Col. E. Hofer, president of the Oregon humane society, first noticed the bird he exclaimed that it was a "Shame and outrage" that such a bird should be kept confined. The eagle is of a different variety than the bald or American eagle which is in captivity in many parks through the country. He announced that he would obtain release and the matter first taken up with the state game warden's department, which in turn placed the matter with the humane society inasmuch as the game department had issued a permit for the keeping of the bird in captivity.

### Quaker Oats "stands by" you through the morning

Important for Children and Grow-Ups Alike

HOW you feel all morning depends largely on what you eat for breakfast. Thousands have energetic forenoon because of wrong breakfast eating.

To feel right, you must have a well-balanced, complete breakfast ration. At other meals—lunch and dinner—you get it. But breakfast is hurried—often badly chosen.

Thus Quaker Oats, containing 16% protein, food's great tissue builder, 38% carbohydrate, its great energy element, its great energy vitamins and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today.

Don't deny yourself the natural stimulation this rich food offers you. Get Quaker Oats today. Grocers have two kinds: Quick Quaker, which cooks in 3 to 5 minutes, and Quaker Oats.
