In an effort to promote the health of children in the country schools, County Superintendent Fulkerson has introduced in those schools a special project for the year under the head of the normal child. As an incentive a campaign is being planned to win recognition for each child who makes an effort to place himself at the top, physically, as well as mentally. A child may be eligible for the honor roll under the plan after a physical examination by a physician and if in the opinion of the teacher he comes under a rating which has been mapped out to cover the child's practices as to cleanliness, food, sleep and general health habits.

That plans for landscaping the Willamette university campus will go forward at once was announced at the university this morning following a visit of Henry Booth of Roseburg, who has general supervision of the work, to the campus here. Work began this morning tearing out several more trees that have grown in front of Walter hall for years. More trees will be put in at a later date, it was indicated by President Doney of the university. Most of the campus has been minus a lawn of any kind for about a year. It has been dragged and disced a number of times to get rid of the weeds. The parking running along State street and south Winter street has been sowed to grass, and an underground

sprinkling system put in. The system will be extended over the entire campus. Work is expected to be completed in about two months.

DR. HALL SAYS U. OF O. MEANS OPPORTUNITY

Eugene, Sept. 21.—(P)—"I want the University of Oregon to mean opportunity to every boy and girl who comes to Eugene." This is the greeting of Dr. Arnold Bennett Hall, president-elect of the University of Oregon, who arrived yesterday to take up his duties as head of the institution. He was accompanied here by Mrs. Hall and their daughter, Grace Elizabeth, four years of age.

In his statement the new president voiced what many people of the state are interested in, his attitude toward limiting the number of students applying for entrance.

He is unambiguously opposed to limiting educational advantages. President Hall is ready to take off his coat at once and go to work. He has, since election last spring, formed many ideas in policy and departments which he hopes to carry out to fulfillment.

Delighted at his reception here and pleased beyond bounds at the flood of congratulatory letters and messages he received from all over the state at his election, Dr. Hall is in Eugene, his mind filled with the possibilities of opportunities for the university.

That thought is with him constantly, in every word of his speech. He wants to "do something for Oregon."

ROOM SCALPERS BUSY FOR FIGHT

Philadelphia, Sept. 21.—(P)—Scarcity of hotel accommodations for the night of the Dempsey-Tunney battle has developed a new variety of scalper, specializing in room reservations.

Nearly every hotel in the city is sold out for the night of the fight, reservations having been made for more than 60,000 rooms. Hotels are to place cots in all available places and send the overflow to rooming houses.

ACCUSE SOLDIERS OF SETTING FIRES

Fort Hill, Okla., Sept. 21.—(P)—Origin of fires which in the last two years have destroyed more than \$2,000,000 worth of government property here is believed to have been solved with the arrest of eighteen private soldiers of the Fort Hill garrison on charges of incendiarism. Several of the men were members of the post fire department.

PROHIBITION LAW GRILLED BY ROOSEVELT

Atlantic City, N. J., Sept. 21.—(P)—Intemperance of action against a know evil has begotten many of America's gravest problems, Theodore Roosevelt declared today at the tenth annual convention of Exchange clubs. He cited agitation against the direct primary and the adoption of the national prohibition amendment as instances.

"Perhaps an even more startling example of intemperance of thought is the national prohibition amendment and in the Volstead act. Our people were shocked by the evils of intemperance of the corner saloon. Instead of approaching this matter in a careful way, we let our emotions get the better of us. We placed in the national constitution a summary law through which we understood to say that on account of the evil actions of some, we would ban the harmless pleasure of all. We jammed the law through by caucus, by propaganda by every method known politically."

Asserting that prohibition has done much to break down respect for law and that "if we Americans lose our respect for law the republic is doomed," he continued, "I believe the most practical method of eliminating the danger that threatens the country is to modify or repeal the Volstead act and substitute for it some enactment raising the alcoholic content to the highest point permitted under the constitution. Delimitation thereafter should be left to the states who could reduce the alcoholic content to any point desired." He declared that as long as the prohibition law remains on the statute books, it must be enforced.

KIWANIS TOLD OF AFTERMATH OF GREAT WAR

The treaty of Versailles was the "most pernicious treaty that was ever signed," and has left Europe in a hopeless turmoil, the main contributing factor of which is France, was the statement made this noon by the Salem Kiwanis club at its weekly luncheon. Mr. Robertson has lived in Europe for the past 12 years, eight of which have been spent in Paris, two in London and two in Rome, with frequent visits into every other section of the continent. He has been a student of military and economic conditions in Europe, representing the United States government, Henry Ford and other American interests during the time he stayed there.

The United States is "rapidly enslaving Europe" through the present policy of shipping American goods abroad and preventing, with the tariff, foreign goods from coming back, he declared, adding that although he himself was brought up a republican he "gets a little disgusted, sometimes, with the republican administration."

"And people who say that America should stay out of Europe have a hopelessly narrow point of view," he said.

Of all the nations of Europe, England is the only one who has enough steadiness so that no fear need be felt for its future, Mr. Robertson stated. "When you get over on the continent, there you have an entirely different breed of cat."

He declared that France is the "most objectionable internationalist—and I don't get my ideas from anybody's press." One man, Poincaré, is the greatest disturbing element in France, he stated, representing bankers and similar interests and not being interested in the welfare of France or of Europe as a whole. Cullax represents the exact opposite element in statesmanship, he stated.

Alsace and Lorraine are, and always have been, German in sympathy and in point of view, he declared, and are not now contented with French rule. "All through Europe there are dozen of little Alsace-Lorraine, which have come as some of the dire results of the treaty of Versailles."

Throughout Europe the United States is universally hated and distrusted, he stated, the two countries nearest exceptions to the rule being Greece and Germany. Germany, he believes to be the strongest country on the continent. "There is none other so powerful and none so strong mentally today," he said.

The World war was not the fault of Germany any more than other European countries, including France, in Mr. Robertson's opinion. "I've seen so much international skulduggery that I wouldn't say anybody was any more to blame than anybody else."

Referring to Russia he declared that the bolshevik regime continues to crumble there, and could be kept running for a week were it not for the Jews of that country. "They are the only brains left in the country," he stated. It is known, he said, that they are helped financially by individual members of their own race in this country.

The speaker told about a plot he overheard recently in a Paris cafe, where it was planned to murder the Russian ambassador to France. The conversation was carried on in Russian with the idea that nobody in the cafe would understand it, but he himself could speak Russian fluently and was able to prevent the plot by taking the matter up with the authorities. He himself is acquainted with members of the Romanoff and other families connected with the czar's regime, he stated.

Released Golden Eagle Back at Old Haunts Continuing Depredations

Released only a week ago by order of the Oregon Humane society, the large golden eagle trapped in the Stayton district last December is back at his old haunts and continuing the depredations that led to his capture.

Ben Gehlen of Stayton, who had a permit from the game commission to keep the bird, yesterday was advised by the commission to kill the bird if he could. Gehlen when the bird was released by the humane society a few miles east of Portland and only 40 or 50 miles away from its old hunting grounds, protested as he was informed by members of the society that the bird was to be given its freedom in Harney county.

At the time of its capture the eagle was averaging a lamb or a goose a day and it was because of

inflicting a heavy casualty list on poultry and young livestock that a trap was set and it was caught by Henry Sigmond.

After its capture the eagle was placed in a cage in the Ames auto park near Hubbard and its foot, which was injured by the trap, was carefully treated and healed. Reports of the humane society that the bird was kept in a narrow cage with insufficient room in which to spread its wings and not properly fed are denied by those who have visited the park and seen the bird.

The game commission is not responsible for losses caused by the eagle and Gehlen is wondering about the action taken by the humane society, which released the bird. He admits that to kill the bird is quite a task as it takes a good rifle shot to bring it down.

SEEK TO STOP DEMPSEY FIGHT

Philadelphia, Sept. 21.—(P)—A bill in equity to stop the Dempsey-Tunney fight here Thursday night was filed in common pleas court number 5 today by B. E. Clements, president of the Chicago Coliseum club.

The bill asks the Pennsylvania court to recognize the injunction obtained in Indiana last week by Clements, who claims he holds a contract with Jack Dempsey to fight Harry Wills, the negro heavy weight boxer before he meets any other opponent.

Ralph Evans, counsel for Clements said that he also would file today a tomorrow four suits for damages. Three of them will be against Gene Tunney, Dempsey and Tex Rickard, individually, and one against Dempsey, Rickard and Billy Gibson, Tunney's manager, collectively.

RICKARD CONTRACTS BROADCAST RIGHTS

New York, Sept. 21.—(P)—The Dempsey-Tunney fight is to be radio-cast directly from the ring side by WEA, WJZ and some 30 allied stations.

It is announced that the broadcasting rights have been sold by Tex Rickard to the Royal Typewriter company. The price is not disclosed. Some reports place it at \$35,000.

The contract of sale has no inhibitions against radio-casting of press accounts of the fight, it is stated.

Chicago, Sept. 21.—(P)—The Chicago Herald and Examiner today announced a statement signed by Kenneth G. Ormiston, missing radio operator in the Albee Sample McPherson case at Los Angeles, declaring "confessions" reported to have been made in his name by Attorney S. S. Hahn of Los Angeles to be entirely fraudulent.

"I have never had the pleasure of meeting this man," he was quoted. "Every statement he has made concerning me is untrue."

E. M. S. Martin, a Chicago lawyer, yesterday issued a statement on behalf of Ormiston in which it was asserted "The woman who occupied the Carmel bungalow was positively not Mrs. McPherson," and announcing that under certain circumstances the evidence of "Miss X" would be produced. The attorney did not disclose the radio operator's whereabouts.

Thirty six passengers were injured, several seriously when the Charleston to Grafton passenger train on the Baltimore and Ohio railroad was wrecked near Orlando, W. Va., today.

PROPOSAL TO SELL ST. PAUL IS RESISTED

Chicago, Sept. 21.—(P)—A motion by receivers for the Chicago, Milwaukee & St. Paul railroad that a date be set for the sale of the property came before Federal Judge James H. Wilkerson today with a prominent group of bondholders prepared to resist it.

The bondholders group is known as the "Jameson committee" and its head, E. C. Jameson, New York insurance executive, was in court with Joseph S. Frellinghuysen, former United States senator and chairman of the group, who is expected to testify.

Nathan Miller, former governor of New York, is chief counsel for the bondholders. Objection to the setting of a date for sale of the road is based by the portents upon their contention that the "unset price" of \$100,000,000 suggested by experts as a minimum sale price is unfair and upon their opposition to the Kuhn-Loeb plan of re-organization. They also ask delay which will permit congress to enact legislation which they contend may obviate the necessity of the sale.

Jameson will not appear as a witness, the court having denied him opportunity to tell his story of the railroad financial difficulties.

COUPLE SHOT THROUGH DOOR

Los Angeles, Calif., Sept. 21.—(P)—Homer E. Ranes, an official of the chamber of commerce of Belvedere Gardens, a suburb of Los Angeles, and his wife were shot and killed at their home there late night, the murderer firing two shots through the screen of the front door according to a neighbor, and escaped in the darkness.

Ranes was shot through the heart while his wife was shot through the head and died on the way to a hospital. The position of the bodies indicated that the couple had gone to the door together, evidently in answer to the bell. Police were unable to learn a motive for the double slaying. Ranes was general salesman of the Belvedere Land and Water company.

DENY REHEARING KELLEY AND WILLOS

The supreme court today in an oral opinion overruled a second petition for rehearing by the defense in the case of the state against Ellsworth Kelley and James Willos. Kelley and Willos are two of the convicts involved in the prison break of August 12, 1925, in which two state prison guards were killed. The supreme court upheld the conviction in the lower court where they were sentenced to death.

GO SLOW ON RIVER CLOSING

Portland, Sept. 21.—(P)—That the cleansing of Oregon streams must be undertaken slowly was the consensus at the meeting of the executive committee of the Oregon Anti-stream pollution league today.
