

CONFERENCE ON FARM PROBLEMS IS CALLED HERE

Recognizing that real estate transfers depend largely upon the financial condition of the men on the farms and realizing the necessity for a united effort on the solution of the farm problem the Pacific Northwest Real Estate association through their executive secretary, T. W. Zimmerman, has called a farm lands conference to be held in Salem, May 11 and 12, the following counties participating: Lane, Lane, Benton, Marion, Polk, Yamhill, Washington, Clackamas and Multnomah.

Since the agricultural problems of all the Willamette valley counties are common ones it is hoped that out of this conference will develop an agricultural and marketing program. While the various organizations have been asked to appoint delegates to this conference, yet no one will be refused admission and every one interested in lending assistance toward working out a workable program is urged to attend.

"The development of every other industry within the state of Oregon depends in a large measure on the development of the agricultural industry. If agriculture can be made to prosper, the state as a whole will enjoy a certain measure of prosperity," says Mr. Zimmerman.

"If we develop a sound and economic agricultural program, to include standardization of production and orderly market, will be assured of a substantial increase in the population of the Willamette valley during the next five years, and our cities will then have a background for the support of their manufacturing industrial development."

Among the speakers who will appear on the program are Seymour Jones, state market agent; E. E. Paville, chairman of the agricultural committee, Portland chamber of commerce; Frank A. Durbin, dairyman of Marion county; J. O. Holt, manager of the Eugene Fruit growers association; H. A. Fryer, expert in farm land management and others.

The Dallas chamber of commerce has appointed Conrad Staffin, J. R. Beck, Rae Craven, Eugene Hayter and W. G. Vassal as a committee to attend.

Several members of the Women's Eastern Golf association said they favored Miss Browne's retention as an amateur. The sectional association of California, her home state, will abide by the U. S. G. A.

MARY BROWNE OUT OF AMATEUR RANKS

New York, April 21.—(AP)—Miss Mary K. Browne, for 15 years an outstanding figure in tennis and who has had a short period of meteoric success in golf, now is barred from amateur competition in both sports.

By voluntarily renouncing her amateur standing in tennis to capitalize her skill last winter, she "acted in a manner detrimental to the best interests and true spirit of the game of golf," and henceforth will be ineligible for amateur play on links the executive committee of the United States Golf association announced.

The only woman athlete ever to reach national title finals in the two fields of athletics, accepted the decision with good natured resignation, although keenly disappointed.

"You will probably find me in the galleries," she said when notified in Cleveland, where she recently opened a woman's apparel and millinery shop.

While the action of the golf association bars Miss Browne from championship competition and will also be effective among the sectional associations governed by the parent body, President Hobart H. Young of the Western Golf association said in Chicago that Miss Browne would be considered eligible

Court House Happenings

J. W. Casey and wife have filed action in circuit court against John Williamson and wife, alleging they have sustained \$10,000 damages in the purchase of the big service station at the junction of Fairgrounds road and Capitol street.

They allege in the complaint that Williamson represented to them that the service station was selling 600 gallons of gasoline daily, when they charge as a matter of fact it was selling not over 250. The complaint states that in event the station had been selling 600 gallons daily it would have been worth the price of \$30,000 agreed upon, but, with the 250 gallons a day sale, they charge it is worth not over \$10,000. They state that they paid \$4000 on the station at the time of purchase and have paid \$500 since that time.

Blue prints of the proposed national park at Silver Creek Falls were brought over from Silverton last night to County Judge Hunt to submit to Congressman Hawley. The judge suggested that the presentation be delayed until the prints could be more definitely marked out in red lines. The prints have been drawn to assist the Oregon delegation in its proposal to set aside the falls as a park.

County Inspector Van Trump states there was a big meeting at Stayton yesterday of all the farmers of the county, with visitors also present from Albany and Monmouth. Van Trump and Judge McMahon took Dr. Chantrel of Los Angeles over to the meeting where he delivered a lecture.

The Business Men's Adjustment company has filed action in circuit court against Harry Tangemann.

What About the Markets?

Sugar Market—Most of the larger dealers in sugar believe that the low point in the sugar market has been reached. An advance of 15c last week and further advance of 10c expected this week seems to bear out this belief.

Canned Goods—Owing to a large pack last year such items as corn, peas, tomatoes and asparagus in the fancy and extra standards, can now be had at the lowest price in several seasons—You'll find your favorite brands priced exceptionally low at Busick's. Order a few cans with your next grocery order.
