LA GRANDE CELEBRATES
La Grande, Or., May 21—(AP)—An impromptu celebration was enacted here when the Associated Press flashed news of Captain Lindbergh's safe landing at LeBourget field, Paris. Bells, whistles and bells were turned on full blast.

DORAN IN CHARGE OF DRY BUREAU

Washington, May 21—(AP)—James M. Doran today took over his duties as commissioner of prohibition and recommended the appointment of Major Herbert H. White as assistant commissioner.

Roy A. Haynes, who failed of appointment to the place, but who has been acting commissioner, left the offices of the prohibition bureau, and Doran said Haynes' formal resignation was not necessary. "When Secretary Mellon appointed a commissioner, that vacated the position of acting commissioner," he said. "Of course the appointment of Major White will fill the position as assistant commissioner, which Mr. Haynes held under the prior appointment."

MRS. KERRICK DENIES SHOTS

Los Angeles, Cal., May 21—(AP)—Mrs. Sarah Kerrick, between sobbing and fainting spells on the witness stand here today, denied she fired the shots which killed her husband, Tom Kerrick, film western player, and declared the gun discharged accidentally during a scuffle.

Mrs. Kerrick and four other members of a drinking ory in Hollywood on April 8 are charged with Kerrick's murder. The widow testified that she had taken the gun into the kitchen when her husband, Henry Isabell, member of the party and co-defendant of Mrs. Kerrick, were quarreling in another room of the flat. Anita Davis, another defendant, and Isabell followed her and in an effort to obtain the gun all fell in a heap into the breakfast nook. Where testimony showed the actor was shot. During the ensuing scuffle, she said, the gun was discharged.

COOLIDGE SENDS LINDBERGH CABLE

Washington, May 21—(AP)—President Coolidge today sent to the American embassy in Paris for transmission to Lindbergh immediately on his arrival the following message: "The American people rejoice with me at the brilliant termination of your heroic flight. The first non-stop flight of a lone aviator across the Atlantic crowns the record of American aviation and in bringing the greeting of the American people to France you likewise carry the assurance of our admiration of those intrepid Frenchmen, Nungesser and Goll, whose bold spirits first ventured on your exploit and likewise a message of our continued anxiety concerning their fate."

POLA NEGRI STARTS BACK TO AMERICA

Paris, May 21—(AP)—Pola Negri and her new husband, Prince Serge Mdivani, started back for America today, she to resume her screen work and he to engage in the oil business. They entrained this morning with a compartment full of bag ladies, to start for the Aquilina. They were married a week ago today at her chateau near the village of Seraincourt, about 30 miles from Paris.

PLUMBERS OF STATE INSPECT LOCAL PLANTS

The delegates to the convention of master plumbers of Oregon spent the morning visiting the principal industries of Salem. Their first visit was at the papermaking plant of the Oregon Pulp & Paper company. From there they went to the Oregon Linen Mills and then to the converting plant of the paper company.

At the meeting yesterday afternoon the zone directors reported for their districts as follows: H. H. Collier, zone 1, Portland; W. N. Smith, zone 2, Astoria; F. E. McKenna, zone 3, Corvallis; A. J. Fish, zone 4, Baker; Milton Keyser, zone 5, Roseburg; W. L. Schroeder, zone 6, Marshfield, and W. G. Wright, zone 7, Klamath Falls.

The chairman of the legislative committee, Bert Coffey of Portland, gave a report of the committee's efforts during the last legislative session. The plumbers were behind the state plumbing code passed two years ago and this year sought to iron out those things that two years of experience pointed out as necessary. Their amendments to the existing code went through the house of representatives with colors flying, but failed of passage in the senate by a disheartening margin of one vote.

The committee on trade relations made a report yesterday that reiterated the policy of the master plumbers to keep the jobbers jobbing and the journeymen plumbers seeking to have the jobbers refrain from entering the retail trade and to keep the journeymen plumbers from themselves contracting for small jobs on the side.

Business not reached yesterday has been put over until this afternoon. The session started shortly after 1 o'clock and included the report of the executive committee, the report of the state secretary, Stephen Pollit, and the report of the state treasurer, T. J. Rowe.

The executive secretary did not have his report in final shape yesterday and gave that afternoon. The women's auxiliary has a business meeting this afternoon at 2:30 o'clock, and following that the convention adjourned until 6:15 o'clock tonight when the annual banquet and inauguration of officers will be at the Elks club.

Better Health Longer Life
GORGAS MEMORIAL INSTITUTE

WOMEN MUST BE ON GUARD AGAINST CANCER

By Simon Levin, M. D., Houghton, Michigan, Member Gorgas Memorial Institute.

In the past it has been customary to blame to the "change of life" all the irregularities of the menses. In fact, this "change" received the blame for any alteration in health or actions that the women of the past suffered during that important period beyond 40 years of age, when the menses usually cease. No other fallacy or error in the judgment of health and disease has caused so much sadness, suffering, and untimely death as this one. This article deals only with one important sign—i.e., excessive or irregular flowing.

When any woman, whose age is above 30 and whose menses have been regular, has any interruption or disturbance of any sort, a proper medical investigation should immediately be demanded. This applies as well to the unmarried women as the married ones.

Of late it is becoming no uncommon experience for the surgeon to find unusual numbers of unmarried women subject to tumors of the uterus. We grant that these tumors may be benign in nature, but not always cancerous, but let me impress upon you very strongly that they may at any time become so, and there are many fatal complications that may arise at any time to make them very dangerous as they attain great size and irregularity.

Legeneration like turning into cancer, the growth twisting itself off, becoming infected and causing adhesions to important abdominal organs are dangers that may arise in the life of any growth. We cannot tell, until it occurs, just when a benign growth becomes cancerous, or becomes mechanically dangerous when it still rests within the pelvis.

Again, fast growing cancers of the body of the womb may attain great size and be beyond surgical or medical care if delayed. Just remember, size is no method of judging the danger of a growth; it is the degree of malignancy, its degree of power to grow locally or involve the rest of the body.

You can readily see how desperately important is proper examination by a competent medical man early in the disease. Furthermore, the earlier these conditions are cared for, the more your chances of a good result. Complete removal surgically, and treatment by radium or x-ray are your only assurance of cure.

Italian Aviator To Hop Off for Azores From Trepassy

St. Johns, N. F., May 21—(AP)—Commander Francesco DePinedo, Italian aviator, has definitely decided to hop off from Trepassy, N. F., for the Azores, on the last leg of his four continent flight at 8 o'clock tonight (5:30 Eastern standard time), it was reported from Trepassy this afternoon.

Trepassy, N. F., May 21—(AP)—Commander Francesco DePinedo, Italian aviator, will fly "Fly Light" when he hops off tonight at 8 o'clock, local time, on the ocean flight to the Azores. Preparing today for this difficult feat, he removed from his plane all spare parts as well as the wireless equipment.
