COURT REFUSES PAROLES TO TRIO OF BURGLARS

Curtis Townsend, Adrian Loomis and Henry Jack, Salem youths, all under 21 years of age, were refused a parole from their sentence of two years in the state penitentiary this afternoon by Circuit Judge Percy R. Kelly.

The trio were arrested in June in connection with a long series of burglaries and thefts in dwelling houses of some of Salem's leading citizens, the raids being made while the parties were away over weekends and on vacations. Wearing apparel, jewelry and musical instruments were included in the loot, much of which has not yet been recovered.

Defense attorneys Macy and Ferris to have the case dismissed because of the youthfulness of the defendants, their willingness to confess and the possibilities of securing each a position were futile. Judge Kelly taking the position that if the state should grant a parole, such an action would serve only as an inducement for further delinquencies by boys and young men who are on the borderline between a criminal life and going straight.

Jauntiness exhibited during their month in jail and their trial is believed to have nullified the plea that the convicted boys had repented their crimes. The district attorney's office refused to recommend that parole be granted to any of the trio, who had not only admitted one crime but had been guilty of a series of so-called "jobs" and had made little effort to assist officers in recovering the stolen goods.

No announcement was made concerning a possible appeal to the supreme court. The trio will enter the "fish" cells at the penitentiary tonight.

ALL RUMANIA MOURNS LOSS OF HER KING

Bucharest, Rumania, July 21.—(AP)—A whole nation mourned today for its king as the body of Ferdinand lay in the great hall of the castle at Sinaia, where officers of a local mountain regiment standing guard.

The castle, in the shade of great pines, was the place where Ferdinand passed away early yesterday morning. It was built by his uncle, King Carol, and at his own request, Ferdinand will be buried beside his uncle and his aunt, Queen Elizabeth, better known to the world as Carmen Sylva.

Rumania's new king, Michael I, a flaxen-haired boy not yet six, has already been installed before the national assembly as Ferdinand's successor, and the regency council, which will act until Michael becomes 18 years of age, was sworn in at the same time. All parties took the oath of allegiance to the new monarch. The liberal ministry, after the formality of tendering its resignation to the regency council, which was rejected, continued at the helm.

State troops throughout the country have sworn their allegiance to the new regime and the capital and country are calm.

Bucharest heard the booming of guns at 4 o'clock yesterday afternoon and knew that the boy king had ascended the throne. The child, dressed in a white silk suit, black tie and patent leather slippers, holding the arm of his mother, Princess Helen of Greece, passed before the deputies and senators in the house of parliament to receive their cheers. When the brief ceremonies were over, the little king, hardly 6 years of age, what it was all about, could not conceal his pleasure, and an officer of the guards heard him whisper to his mother: "Let's go home, I'm hungry."

ESTELLE TAYLOR SENT TO HER ROOM

Los Angeles, July 21.—(AP)—Estelle Taylor, motion picture actress, wife of Jack Dempsey, today was under her physician's orders to remain in her room and not to answer telephone calls. The physician said her nervous condition wrought by her husband's heavyweight battle tonight was not serious, but required rest and quiet seclusion.

BIG PICNIC AT HAGER'S GROVE FOR MONTANANS

Everything is all set for the Montana picnic to be held at Hager's grove, Sunday, July 24.

Assurance is reaching the committee from towns far south as Eugene and Astoria that the Montana people will be here in large numbers.

Everything indicates that this will be the largest gathering of Montana people ever held in the state of Oregon. An elaborate program has been planned for the picnic, which will be at 12 o'clock, the club furnishing coffee. It is planned to have the speakers' platform so located that the crowd can spread their dinner around it. Immediately after dinner Governor Patterson will deliver a short address welcoming the Montana citizens to Oregon.

H. R. Cunningham, president of the Montana Life Insurance company of Helena, is making the trip from Helena to Salem and will deliver the principal address.

Cunningham is known personally or by reputation to practically every former Montana resident.

After the speaking the committee on sports will take charge and the afternoon will be devoted to games, races, swimming and horse-shoes. The horseshoe contest promises to be a lively and interesting match, a small entrance fee will be charged for this contest and a white prize will be awarded the winner.

The committee now estimates that there will be between 150 and 2000 in attendance. Every arrangement has been made to handle the crowd, which will be between 1500 and 2000 club members on the ground to supervise parking of cars and give general information. Expert swimmers will be stationed at the swimming pool to guard against accident.

Men will be stationed at the sound their cars for an extra passenger or two to give direction for reaching the grove. Any Montana people without transportation who will come to the state house grounds at 10 o'clock will be taken to the grove in cars with others. The committee requests all those who have room in their cars for an extra passenger or two to stop at the state house grounds and pick up those who have no transportation.

To reach the grounds go east on State street past the penitentiary to the four corners, turn south on Turner road and go east.

All members of the Salem Montana club are urged to be present on the grounds by 10 o'clock if possible.

\$35,000 PRIZES TO BE OFFERED

Portland, Ore., July 21.—(AP)—The largest stakes ever provided to interest horse fanciers, are to be hung up for the coming Pacific International Horse Show to be held here, October 29 to November 5, according to Manager A. P. Fleming, States, prizes and awards will aggregate \$35,000.

"Never before has so large a sum been offered to exhibitors anywhere," said Mr. Fleming, "and this is the fourth year in succession that the Pacific international show has broken records in that respect."

Portland firms have provided five \$2000 stakes; seven \$1000 stakes; three \$500 stakes; and numerous trophies and awards.

A Seattle hotel—the Olympic, contributes again this year the largest single stake ever offered at a horse show—a \$4000 stake for the five gallop saddle horse division.

A deluxe stock train—the only such train in the world—will again cross the continent, Mr. Fleming said, bringing to Portland some of the finest stock to be found on the Atlantic coast.

Mr. Fleming, who has been in Portland the past ten days perfecting arrangements for the show, left for San Francisco last night.

STATE BOARD INDIFFERENT

(Continued from page 1)

mouth citizens the Oregon commission has admitted doing nothing, and a review of the history of the case indicates nothing except its entire indifference as to the outcome.

When the copy of the abandonment application was received it was evidently filed away with scarcely more than the cursorial attention of the commission. That they could not have studied it is amply demonstrated by the fact that when the Monmouth delegation called to inquire what action the commission contemplated taking they were informed that Monmouth was not on the line the company proposed to abandon, and an announcement to that effect was made to the press at the office of the commission.

EROR PASSED OVER

In the chart accompanying the application the company had designated Monmouth as being on the Falls City branch, several miles from its actual location, and it was not until after the commission's announcement had been made that the error was detected by the Capital Journal and called to the attention of the commission, which subsequently informed the Monmouth delegation that it would enter a protest and ask for a hearing.

With the dispatch of a letter advising the I. C. C. that a hearing was desired on the application the state commission has apparently dismissed the matter.

While the citizens of the Perrydale, Monmouth, Independence and Airline communities have been organizing to fight the proposal, and have been laying plans to gather the necessary data and employ an attorney to represent them, the public service commission, with all of the facilities for investigating such a case, has ignored the whole affair. It has, it seems, not even taken the trouble to advise the I. C. C. of the errors in the company's application.

INDIFFERENCE EXPOSED

How complete has been the commission's failure to interest or in-

ELECT LAYMAN PRESBYTERIAN MODERATOR

Eugene, Ore., July 21.—(AP)—Elder J. A. Wilkinson, North Bend, was elected moderator of the Presbyterian synod which opened at 2:30 p. m. yesterday, in the Central Presbyterian church, and will continue until July 27. The election of a ruling elder to this position is unprecedented in the annals of state Presbyterian synods and is taken as a gesture of gratitude to the laymen for promoting the \$15,000,000 pension fund for ministers, which was recently completed.

The only other time that an elder has been given any similar office was at the general assembly in San Francisco, some time ago when J. Willis Beard was chosen moderator. Elder Wilkinson has taken an active part in church and civic work. Two years ago he was sent to the general assembly as commissioner from the Coos Bay Presbytery. He represented Coos Bay in the pension plan, and was one of the first to have his report completed and sent in, according to Rev. J. E. Snyder, pastor at North Bend, who nominated him. Elder Wilkinson also is connected with the Albany college, having served as a member of the board of regents to that institution for several years. In electing Elder Wilkinson moderator of the synod, the ministers secured a man for the position with a most friendly attitude toward them, according to Rev. Mr. Snyder, who has been intimately acquainted with the new moderator for several years. Elder Wilkinson, who is in the mercantile business at North Bend, has supported the church at all times, not in a financial way alone, but through physical effort placed at the disposal of the minister.

WIRE MOVING CAUSE STALLING OF OLD HOUSES

The unregulated moving of houses on Salem streets has caused more trouble this summer than ever before, and numerous protests have resulted. In some instances trees have been broken down, but the main interference with traffic and the tendency of house movers to allow the buildings to stand in the streets for unwarranted lengths of time, recently a house being moved on reason and remained in the same Marion street for some time, held up in the center of the street for over a week.

Alderman W. H. Daney complained about the matter at the council meeting Monday night and yesterday W. M. Hamilton, division manager for the Portland Electric Power company, sent a letter to the Salem Realty board suggesting that their cars be held up for some time in the center of the street for over a week.

The companies owning and operating overhead wires in streets where houses are permitted to be moved, says Mr. Hamilton, find that many people purchase the buildings with the intention of moving them to a new location without giving any thought to the necessity and cost of raising or removing the wires so the houses may be moved past them.

"As the companies owning the wires do not learn of the proposal to move the house as a rule, until the deal for the sale of the house has been consummated and the work of moving started," Mr. Hamilton writes, "the purchaser of the house finds himself in an unfortunate predicament when it comes to moving the house, due to his ignorance of the necessity and the cost of moving the wires."

Mr. Hamilton suggests that the condition is inimical to the interests of real estate men and that they are in a position to warn prospective purchasers of houses of the cost of moving the wires. The companies owning the wires are willing to make an estimate of the cost.

GOVERNOR NAMES THREE JUSTICES

K. D. Warner of Pendleton was today appointed by Governor Patterson as a member of the state livestock sanitary board. He will represent the Oregon Wool Growers' association. He succeeds Jay H. Dobbins of Enterprise.

Under a new law whereby appointments to fill vacancies in justice courts are made by the governor, three appointments were announced. R. A. Arnold has been appointed justice of the peace at Toledo to succeed the late J. W. Farrah. Arnold has lived at Toledo 52 years. He was postmaster for 16 years and has been a member of the port commission for two years and is now president of the commission.

R. L. Leggett was appointed justice of the peace for the Devil's Lake district and C. E. Linnton for the Waldport district.

The appointments are until successors are elected and qualified at the next regular election.

BLOOD PRESSURE INJURES CHANCE

(Continued from page one)

In his physical responses was a blood pressure test which, although not abnormal, seems very high for an athlete. Sharkey's blood pressure was about normal.

"Dempsey's high blood pressure, from a medical viewpoint, may tend to slow him up as the fight progresses," Dr. Walker continued. "Furthermore, Dempsey's pulse rate '73 at rest and '79 after exercise indicated that the former champion's heart action would be slower returning to normal than Sharkey, whose pulse at rest was 68 and 74 after exercise."

"Dempsey's increasing blood pressure is doubtless due to his age," Dr. Walker said.

Sharkey was as cool and confident as ever when he stepped on the scales.

"Ho, ho! so he was afraid to see

ROSEBURG ELKS TEMPLE HAS FIRE

Roseburg, Ore., July 21.—(AP)—Fire was discovered about 8 o'clock this morning in the Elks temple and caused considerable damage to the interior of the lodge hall before it was extinguished.

The fire apparently originated from electrical wiring or possibly from an electric cooking device which may not have been turned off after the club rooms were closed last night. Starting in the kitchen, the flames spread into the attic, burned through into the gymnasium below and threatened to spread into the main portion of the club rooms and the Anders theater, adjoining, before the fire could be extinguished. Water and smoke damage, together with the direct loss from fire, will amount to around \$3000, it is roughly estimated.

ENCAMPMENT CLOSES

Klamath Falls, July 21.—(AP)—Members of the United Spanish War Veterans left last night and today for their homes following the close early last evening of their annual state encampment. The veterans and their wives were taken to Crater lake yesterday afternoon, and were guests of the Fort Klamath community club at a banquet in Fort Klamath, last night. More than 250 veterans and their wives were here for the three-day convention.

WIRE MOVING CAUSE STALLING OF OLD HOUSES

The unregulated moving of houses on Salem streets has caused more trouble this summer than ever before, and numerous protests have resulted. In some instances trees have been broken down, but the main interference with traffic and the tendency of house movers to allow the buildings to stand in the streets for unwarranted lengths of time, recently a house being moved on reason and remained in the same Marion street for some time, held up in the center of the street for over a week.

Alderman W. H. Daney complained about the matter at the council meeting Monday night and yesterday W. M. Hamilton, division manager for the Portland Electric Power company, sent a letter to the Salem Realty board suggesting that their cars be held up for some time in the center of the street for over a week.

The companies owning and operating overhead wires in streets where houses are permitted to be moved, says Mr. Hamilton, find that many people purchase the buildings with the intention of moving them to a new location without giving any thought to the necessity and cost of raising or removing the wires so the houses may be moved past them.

"As the companies owning the wires do not learn of the proposal to move the house as a rule, until the deal for the sale of the house has been consummated and the work of moving started," Mr. Hamilton writes, "the purchaser of the house finds himself in an unfortunate predicament when it comes to moving the house, due to his ignorance of the necessity and the cost of moving the wires."

Mr. Hamilton suggests that the condition is inimical to the interests of real estate men and that they are in a position to warn prospective purchasers of houses of the cost of moving the wires. The companies owning the wires are willing to make an estimate of the cost.

SAVE STEAMER FROM SINKING

New Orleans, July 21.—(AP)—A determined fight to prevent the 6500-ton steamship Jacob Luckenbach from sinking at the Galvez street wharf, apparently succeeded, when Capt. Theodore Cunningham, commander, said today.

The ship struck a coral reef off the coast of Costa Rica more than two weeks ago and limped into port here, July 19. Last night she began to list rapidly toward the dock and water poured in through a hole. Efforts were hastened to unload the cargo.

All the cargo will be removed today, the captain said, and there is no danger of the boat sinking.

After unloading, the boat will be taken to drydock for repairs.

The Luckenbach was bringing a general cargo from Panama and Caribbean seaports to New Orleans, and it was one of the boats operated by the Luckenbach line.

STATE AID ASKED FOR VOICE CULTURE

Little Frances Florence of Arlington, Ore., has a natural contralto voice that attracted the attention of Wilfrid Bovey, assistant to the principal and vice chancellor of McGill University of Montreal, when Mr. Bovey ate breakfast at the Arlington hotel and the little girl sang to her canary in the cafe. So interested was he that he inquired about the child, who is 10 years old, and ascertained that her relatives are financially unable to give her the vocal training she should have, so he has written Governor Patterson asking if the state cannot help a child on her way to a career. He writes:

"During a motor trip across the continent recently I spent a night in the small city of Arlington. While having breakfast at the Arlington hotel I was astonished to hear a small girl of about 10 sing to her canary in a most remarkable natural contralto. I heard her sing two or three other songs and ascertained that her name was Frances Florence and that her mother was in charge of the cafe attached to the hotel.

"There is no question but that the child's voice was a most wonderful one and that she should be trained in the best possible fashion. I learned from her mother that her relations are quite unable to find the necessary funds for this, but I feel sure that the authorities of such a progressive state as yours would find no
