

106 FARMERS IN COUNTY SECURE POWER SERVICE

The demand for electricity on the farm seems to be growing rapidly, as evidenced by the number of lines that are being extended almost daily into farming communities by power companies throughout the United States.

Within recent months lines have been extended by the Portland Electric power company to 106 farms in the vicinity of Salem, Woodburn and Silverton, involving in all about 20 miles of line and costing approximately \$22,000.

The farmers co-operate with the company in the financing of these extensions, the amount subscribed by the individual farmers varying on different lines from \$150.00 down according to the cost of the line and the number of customers per mile of the line.

Following is a list of the customers that have been served by the above referred to extension:

Only Available Data Shows Third Of O A C Students Outsiders

By HARRY N. CRAIN
Better than one third of the students being educated at the expense of the taxpayers of Oregon at the Agricultural College are not even residents of the state, if meager figures (the only ones available, apparently) are a true indication of the relative proportion of resident and non-resident students in the Corvallis institution.

With the rapid growth in the past few years of the University and the Agricultural College, and their accompanying clamor for more money, there has grown among the taxpayers and members of the state legislature an insistent demand that the state be relieved of the burden of educating students who have been pouring in from neighboring states. Increases in tuition fees for non-resident students, which even now amount to only about half the per capita cost of handling students, have been a direct result of this agitation. But there is every indication that not nearly all of these tuition fees are being collected.

Students from other states are openly boastful of the fact that they are allowed to escape paying tuition through various ruses designed to establish a claim upon residence in Oregon.

At the University of Oregon, where matriculation standards have been gradually raised along with those of similar institutions up and down the coast, the influx of outside students has not been large, and at the Eugene institution there appears to have been an earnest endeavor to abide by the tuition requirement.

The growth at the Agricultural College, on the other hand, seems to have been largely due to an influx of students ineligible for entrance into their own state colleges and universities.

With its lower standards the college has been bidding for these outside students in order to make a showing in numbers to justify the heavy demands they make upon the public purse, and there are ample grounds for belief that they are making no more than a gesture at compliance with the tuition fee requirements. Repeated efforts on the part of members of the legislature and others to secure accurate and complete records of the number of non-resident students at the Corvallis school have been unavailing.

The relation of the known number of non-resident students at the college to the revenues derived from the tuition fees supposed to be collected presents a mathematical puzzle.

Even before the ways and means committee of the last legislature, President Kerr, of the college, protested his ignorance of the non-resident enrollment, and sought to justify his ignorance by profession that these students pay their own way. If they do the reported receipts from tuition fees at the college, on which accurate data is likewise lacking, do not balance up very favorably with the apparent non-resident enrollment.

A press report of the number of students at the college turning out for the freshman football team in October showed 43.3 percent of the total number of players to be residents of other states than Oregon—38.3 per cent of them gave home addresses in California.

On September 28 the Portland papers printed the names of 292 men students at the college who had been

JUNIORS FORM MT. ANGEL BAND WITH 43 BOYS

Mt. Angel, Ore., Dec. 21—About 100 young boys accompanied by their parents attended the first meeting of the new junior band Monday night in the music room of St. Mary's school, which was one of the most enthusiastic meetings ever held.

Joseph Berni, president of the local community club, was also elected for the first band president. John Stecklein and Andrew Schmidt, with the assistance of Ed Gooley of Harrington, Wash., will direct the band. A representative from a Portland music house was also present.

Prospects look favorable for one of the best junior bands in the country. The 43 young boys, 16 years and younger, who have already signed up with their parents approval to join the band are: Wilbert Anson, Sylvester Anson, Robert Anson, William Beyer, Robert Blensius, Charles Drysdale, Valentine Boer, Albertus Ebner, Rudolph Ebner, Raymond Fessler, Lawrence Gerlitz, Oswald Hasting, Vincent Keber, Virgil Klinger, John Kokkier, Leo Kokkier, Louis LeDoux, Robert LeDoux, Jerome Lutz, Gilbert Mickel, Charles Persyn, Walter Rothlin, Alvin Saalfeld, Hubert Saalfeld, Alfred Schiedler, Arnold Schiedler, Andrew F. Schmidt, George Schmidt, Joseph Schmidt, Theodore Schmitz, Ralph Schwab, Killian Smith, Walter Smith, Arnold Sprauer, John Stecklein, Joseph Stecklein, Joseph Ueselman, Melchior Ueselman, Andrew Wachter, Alois Wavra, John Wavra and Leo Weber.

The next meeting will be held Tuesday at 7:30 o'clock in the music room of the school, for the selection

of instruments. Rehearsals, Tuesday and Friday.

John Stecklein, director of the new junior band, is also the band leader of the St. Mary's band, which has been in existence 144 years, according to Ed Gooley, of Harrington, who was the director when the band first was organized.

Fred Schwab, Sr., is the only continual active member of the organization, having been its president from its beginning. Gooley says he expects to be present six years from now when the organization will celebrate its golden jubilee. This is exceptional for a band of this kind to be in continual existence for that length of time, as most bands lose interest only to start in again after several years. This band has been very active in these parts, having played at most of the state fairs, county fairs, and also at the Lewis and Clark fair held in Portland in 1925.
