BUTTER PRICES SOME HIGHER; EGGS FIRMER

Portland, Ore., Feb. 21. (AP)—Butter prices took slight increases at the meeting of the dairy exchange, prime firsts advancing a cent and all other grades rising half a cent.

Eggs were also somewhat firmer, but the only change was a cent advance in the quotation on standard firsts. Supplies of both butter and eggs were large, but demand continued heavy and offerings were well absorbed.

Announcement by F. J. Dixon, manager of the co-operative egg association, that they would hereafter sell eggs to retailers at one cent above exchange quotations brought matters to a head which have been brewing for some time. It is said that independents have been paying no attention to dairy exchange prices of late and that members of the exchange have been at a disadvantage as a result. The action of the association is expected to result in numerous resignations from the exchange today which may mean that the exchange will practically be dissolved, at least as far as a price fixing body.

On the country dressed meat markets, trading was of a desultory character today with prices quotably steady but movement of most classes nominal. The same condition prevailed in the poultry division with slightly easier trading tone noticeable.

STOCK MARKET

New York, Feb. 21. (AP)—After three days of sharply declining prices the stock market turned upward today as buying orders poured in for a wide variety of stocks. Express shares and a few other specialties developed weakness but many of the standard rails and industrials moved up 1 to 3 points with gains twice as large in some of the pool favorites. Trading started at a brisk pace, but had slowed considerably by afternoon. The rally was generally characterized as a correction of a temporarily over-sold position.

The closing was strong. The retreat of the shorts was more precipitate in the final hour, when the advance in many specialties reached spectacular proportions. Standard Plate Glass preferred jumped 12 points, City "B", 7 and Case Threshing Machine, Cluett Peabody and Warren Brothers, five or more. Well known stocks like Montgomery Ward, Radio and Cudahy were 4 points or so higher. Total sales approximated 2,000,000 shares.

ASK BIDS FOR CONSTRUCTING 16 SIDEWALKS

Sixteen sidewalk construction projects are to go forward by the city's calling for bids and charging the costs against the affected property owners, since the property owners have failed to do the building in compliance with resolutions adopted by the city council.

This action was decided on by the city last night on motion of Alderman Townsend, chairman of the street committee, who read the numbers of the resolutions covering the various streets where the walks have failed to materialize. His motion was that the city recorder be instructed to call for bids.

The projects involved, with name of property owner affected are:

High street between Shipping and Hood, North Salem addition; Oregon Electric Railway company.

North side Bush street between Liberty and Commercial, Jones addition; Pearl D. Formick.

FREE TRIPS ABROAD FOR VETS' MOTHERS

Washington, Feb. 21. (UP) — The United States Veterans Bureau has approved today a pilgrimage of war mothers to France to visit the graves of sons killed during the war. It passed a bill providing free transportation of gold star mothers and unmarried widows of soldiers killed in France and buried there. The pilgrimage would be from July 1, this year until June 30, 1931. The measure now goes to the senate.

GROWERS STAND BY ETTERSBURG BERRIES HERE

Some new plantings of Ettersburg strawberries are reported by County Fruit Inspector Van Trump, who states that quite a considerable new acreage of these hard canning strawberries is being put out in the Quinaby and North Howell sections north and northeast of town. No new soft strawberries are being planted that he knows of. While constant experiments are being made and constant efforts put forth to discover some sort of a variety of strawberry which will hold up with the Ettersburg in the can, so far none of these has met with approval and it is still the "121" variety that stands ace high with the canners.

The county inspector reports that the strawberry weevil is getting fairly well under control. He states that in the North Howell section they are using poison bait effectively during the blooming season and coupling this with rotation has worked some fine results toward solving the weevil problem.

The crown borer, however continues to do heavy damage, and while not as bad as some years ago is still bad enough to work a heavy hardship on many growers. The only method of combatting the ground borer seems to be rotation and not to plant too continuously in one section.

He cited the Chemawa section which used to be one of the best in this region but the borer gradually got so bad there that it became necessary to virtually quit the strawberry game.

He states that up to now no bait has been found which can be used effectively against the crown borer. He states that as the moth which is parent of the borer lays its eggs on the plant, there is no way to poison the young grub as he gets into the plant, and the one way to take care of the borer when started is to destroy the plant, and this proves effective only when next plantings are made on new soil.

PRUNE MARKET IS TO BE CLEANED OUT

The prune market continues firm here and it appears undoubted that it will clean up well and very much better than was expected last fall, says the California Fruit News. The recent advances in prices have been maintained and 30s are a trifle firmer this week than last, other sizes being quoted at this writing the same as last week. There are few, if any other changes in the dried fruit list this week as compared with last, the recent price advances being well maintained. Peaches and apricots are firm at present lists. Pears are pretty well gone and figs are steady for what there are. Evaporated apples are, if anything, a little firmer this week and are pretty generally quoting upon the basis of last week's maximum figures.

speeches and boycotts of business establishments in efforts to make itself powerful. He said members were initiated into the klan on one set of principles and given another set to follow after they had taken their oath.

It was further charged that the klan used Sunday school publications to carry klan slates, that the membership of the Indiana klan, the klan stronghold of the country, had shrunk from 178,000 in 1923 to less than 4000 paid up members at the present time, that the klan lecturers were instructed to be anti-Catholic, anti-Jew and anti-negro and that the general program was to get control first of the county, then the state and then the country.

CONTRACTS LET FOR CITY BRIDGES TO LOW BIDDERS

Adopting a recommendation of the bridge committee, the city council last night awarded to Heglund & Allison of Albany a contract for construction of the North 17th street bridge, and to A. L. Lamb of Salem a contract for the construction of the South Winter street span. The bids were respectively $16,696 and $8817, each being the lowest of about a dozen bids.

Bids were opened last night on an issue of $51,286.78 in city improvement bonds, the award going to Freeman, Smith & Camp of Portland whose bid was $107.17. There were four other bidders.

The Loggers & Contractors' Machinery company was the only bidder on a rubber track for tractor use, its bid being $513.58 f. o. b. San Leandro. The bid was referred to the street committee.

The White Auto Paint shop made a bid to paint the city street flusher for $96.50, while the Salem Auto Painting company offered to do the job for $75. The bids were referred to the street committee.

Also referred to the street committee were bids on a second-hand truck for the street department. The Roberts Motor Car company bid $450 and the Bonesteele Motor company $350. There was a difference in the capacity.

Practically identical bids were received from four firms on cement to be used in street improvement this year. The Salem Sand & Gravel company, the Spaulding Logging company, the Henry Cowell Lime & Cement company and the Oregon Gravel company each bid $3.28 per barrel, with a return of 10 cents for each sack returned in good condition and a 10-cent discount for prompt payment.

On sand and gravel needed by the city the Oregon Sand & Gravel company bid $1.50 on sand, $1.05 on gravel and $1.45 on concrete. The Oregon Gravel company bid $1.55 on sand, $1.10 on gravel and $1.50 on concrete. All bids were referred to the street committee.

The Oregon Gravel company was the only bidder on 124 feet of 24-inch sewer pipe, its offer being $2.16 a foot.

On a paving breaker bids were: Howard-Cooper corporation, $198; J. L. Latture Equipment company, $190; Gardiner-Denver company, $195.

Bids were also received on lamp holes and manholes and catch basins. All bids were referred.

City Recorder Poulsen was instructed to advertise for bids on 10 fire hydrants and four smoke masks for the use of firemen. He was also instructed to advertise for bids for a car for the city engineer.

Petitions were received for the paving of University street from Oak to Leslie, Market street from Commercial to Front, and Tile road from Capitol to Warner, also for the paving of the alley in block 71 between Ferry and Church streets.

Resolutions were adopted declaring intention and authorizing plans and specifications for 19 different street improvement projects.

THE RIGHT WAY TO BANISH FAT

Combat a cause which modern research has discovered. Turn food into fuel and energy, rather than into fat. Supply a natural element which your system lacks. That is the method embodied in Marmola prescription tablets.

People have used Marmola for 20 years—millions of boxes of it. They have told others the results. Now, in almost every circle, you can see the results in new beauty and new vim. Why not learn the way to attain them?

A book in each box of Marmola tells you the formula, also the reasons for results. You will know why the effects come, and why they are beneficial. Go ask your druggist—in fairness to yourself—for a $1 box of Marmola.

PAPE'S COLD COMPOUND

WIDOW TELLS OF DRUGGIST'S MURDER

(Continued from Page 1)

Thoms dragged himself across the floor.

Hunt, she said, was battling with the policeman; he broke and ran to the cash, register, two shots from the officer's gun caused to continue his flight out of the store.

The youths were Santa Claus masks during the holdup, she said.

Dr. Frank R. Webb, assistant county autopsy surgeon, who preceded Mrs. Thoms on the witness stand, identified a bullet as the one taken from the body of Thoms.

The doctor testified he performed the autopsy on the body and that death had resulted from a gunshot wound.

Had a Bad Cold But Accepted!

The theatre that evening, though her nose was red and eyes were running! For six hours is enough to conquer almost any cold. Here's what to do:

Take a plain, pleasant-tasting tablet which the smallest drugstore is never without. Pape's Cold Compound is what they call it. Harmless as it is, it will knock the worst cold—so quickly you'll think it was luck the first time.

A stubborn, chronic cold is broken up the same way; it just takes a little longer.

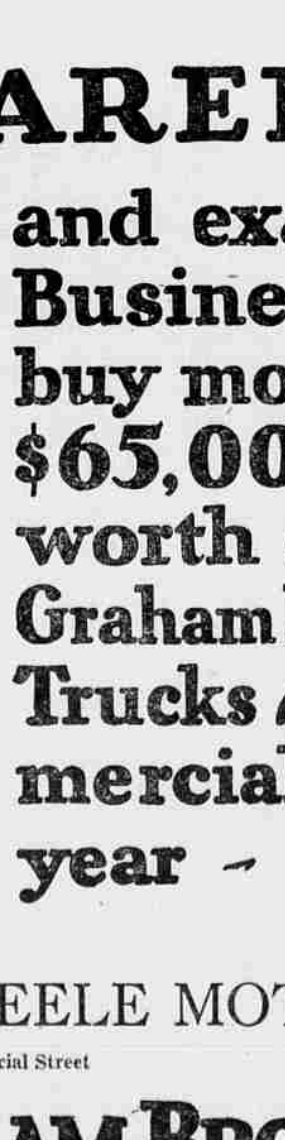
SENIORS TO PRESENT 'CHARM' APRIL 27

Miss Lelia Johnson, coach of the senior class play at Salem high school this year, announced this morning that John Kirkpatrick's play, "Charm," has been chosen for presentation by the seniors on the evening of April 27. The play includes 14 characters and Miss Johnson will make her cast selections next month.

"Charm" is a new play as it was given for the first time in 1926. Salem high seniors were required to pay a high royalty to secure the rights for presentation here. The play, Miss Johnson says, deals with a small town girl who wishes to go to the city against family opposition. A comedy in three acts, with good lines and plenty of laughs, is built around the results of a visit to the community of a man who sells a book on "Charm." The "Charm" book works wonders for the girl's boy friend and their families and she decides to remain in the small town after all.

HORSES DEMANDED

Grand Island, Feb. 21.—Worth Wiley reports the demand for horses at the auction sale held in Newberg to have been good. The horses were good and good prices were paid for them. He paid $230 for a span of dark gray five-year-old draft horses.



HIDE BRINGS $

Unionvale, Feb. 21.—A fresh hide from a beef under two years netted a farmer of this district $4 recently.

Acid Stomach

"Phillips Milk of Magnesia"
Better than Soda

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.—Adv.
