When asked how he got into the building he said that he went in there on Saturday and undid a back door when nobody was looking and got in through the unlocked door Sunday afternoon between 5 and 6 o'clock when no one was about. COUNCIL HEARS MUCH FUSS FOR NEW SIDEWALKS

Woodburn, Mar. 21.—At the regular meeting of the city council held in the city hall last night a large delegation of property owners from Hardcastle avenue were present as a result of the recent activities of the council in the matter of ordering new concrete sidewalks. Mrs. F. Huguenin, the only woman with the delegation, seemed to be the spokesman and did most of the talking. According to her idea it was not fair for the council to order a walk on the north side of the street unless they ordered one on the south side also (where there never has been a walk), or either ask property owners on the south side to help pay for the sidewalk on the north.

Mayor Broyles very patiently explained that this could not be done. Remarks were also made by Henry Hall, Ivan Magee and Charles Henkes, all of whom were willing to build new walks but were anxious to see the other fellow build walks also. The matter was finally adjusted by the council promising that the walk on the north side should be put through from the Pacific highway to the fill with no exceptions. Byron street sidewalks also came in for some discussion and a new walk of concrete was ordered on the Christianson property with repairs to the walk abutting the Shafer property.

The condition of the walls and roof of the city hall was discussed and the matter of proper repairs was left for further investigation. After the usual amount of much ado about nothing the council adjourned.

Cascara is Your Doctor's Choice

When physicians pronounce cascara the PERFECT laxative, why experiment with things that lash the system into action? Cascara, you know, is the bark of a tree. A natural and normal stimulus to the bowels.

The Indians, who used to chew this bark, and no word in the language that meant "constipation!" Perfect regularity is possible today, and to all of us. We have cascara in ideal form; the very delightful-tasting candy cascara gives us pure cascara. It has helped at least a million people to habitual regularity. Millions of others, unfortunately, have stuck to stronger things and acquired only the laxative habit.

Your first cascara will demonstrate how THOROUGH this gentle laxative is, after all. Your next surprise will be the length of time before you need another. Eventually, you'll see that cascaring tends to make the bowels move thereafter of their own accord!

A modern druggist must stock many laxatives, but for your own good the druggist would rather have you ask for the inexpensive little box of cascara than anything else.
