A committee appointed by the Women's club are planning to ask permission to add a kitchen and further improvements to the hall, which if permitted, will add greatly to the comfort of the community meeting place. A plan to enlarge the building was found to be feasible on account of the limited space which the floor might be extended to and the cost involved.

The measure nineteen inches along the base, and stand about ten inches high. The cases are the richest solid mahogany. The dials have raised gold numerals. They go for eight days with one winding and chime all the hours and every fifteen minutes on a set of silvery-voiced chimes—reproducing the famous bells of Westminster Abbey.
