

BOYS' AND GIRLS' CLUBS OF COUNTY WILL PICNIC AT RICKREALL

TUESDAY HUGE DAY IN LIVES OF CLUB YOUTH

Dallas, July 21.—Plans for the big picnic for boys and girls in club work and their parents for Tuesday in the Rickreall grove are all complete and the only thing that remains to make the day an extremely memorable one is good weather.

J. R. Beck, county agent, and the members of the Independence Lions club and the Independence Lions club who are going in with him in sponsoring this big affair state that everything is going along fine and that the capacity of the Rickreall grove should be taxed to the limit, particularly, if any where near all of the 550 boys and girls who are in club work and their parents go.

The program for the day includes athletic contests for the boys and girls to baseball games. President J. S. Landers of the Monmouth Normal school will be the speaker of the day. H. C. Seymour, of the Oregon Agricultural college will be present for a special feature in conjunction with the local leaders of the county.

George N. Angell, editor of the Oregon Farmer has promised to be on hand to lead the boys and girls in their club songs and yell and the members of the Lions club and Kiwanis club will vie in a song contest with their peculiarly interesting and snappy songs.

In the contests of the day the boys and girls residing north of the Dallas-Salem pavement will be matched with those residing south of the highway. The scores of each group will be kept separate and totaled up to determine which section of Polk county is superior in the various events. County Agent Beck has already compiled a list of many clubs in the county for the best ball players among the boys and girls and entries will be made at the picnic for the other events.

All attending the picnic are expected to take their own lunch but through the courtesy of the Independence and Monmouth creameries free ice cream will be furnished to the boys and girls and if there is any left over the adults may have it.

It has been some years since any affair of this scope has been attempted in the county and those who are in charge of arrangements hope that it will prove to be highly successful. The program is rather intended to interest and entertain the boys and girls and will consist largely of activities they will participate in.
