A check for \$668.83, being the final payment on the new incinerator was mailed Friday by Mark Poulson, to the Pittsburgh-Des Moines company, which installed the burner. The total purchase price was \$25,016, the final payment being for additional items, such as lumber, brick, etc. The bond issue covering the installation of the incinerator was for \$40,000, but road construction and building of a sewer connection will take a good share of the surplus.

For your vacation—a Jar foot watch will stand the knocks. See them at Fomeroy & Keene's. 173

Mr. and Mrs. E. B. Millard left Saturday on a two weeks' vacation tour of Yellowstone park. They expect to make the trip to the park by way of Seattle and Spokane, returning through Pocatello and Boise.

Nine boy scouts left Salem at 8:30 this morning for the second period of camp being held on Neil creek in the eastern part of Linn county. They will join three other scouts who are here over from the first camp. A very successful camp is being held this year, according to officials in charge.

\$10.00 Reward for information, leading to recovery female Boston terrier, 6 mo. old, lost June 8, 1123 N. Cottage. Also pups for sale. 173

Doris Marsden won the paper chase at the 14th street playgrounds Friday with Lois Cowden second. In the treasure hunt for older girls, Mary Squirm was the best hunter. The older boys from the 14th street grounds met defeat when they journeyed over to Yew Park and played that organization's baseball team, the score being 12-10. This is the first time that Yew Park has triumphed over the 14th streeters and they are quite jubilant over the victory. Instruction in the handling of firearms will be started at Yew Park today.

Will your dreams come true? See P. E. F. Company's investment offer page 6. 173

Gertrude J. M. Page has returned from a ten days stay in Newberg.

Dance at Mehama Sat. nite. 173

Being threatened with shooting by her husband did not appeal to Helen Boedighelmer consequently she has appealed to the court for a divorce from Leo Boedighelmer. The Boedighelmers were married at Sublimity, August 31, 1926 and no children are involved. They have agreed to settle the property rights out of court. She also accuses her husband of associating with other women and when she remonstrated claims he told her it was none of her affairs and that he wished she would get out an stay out. She subsequently left him.

Ice for residences, Phone 280 early. Capital Ice & Cold Storage Co.

Bertha Zinn as joint executor with V. F. Ulrich in the Ulrich estate has petitioned the court for the removal of J. F. Ulrich on the grounds that he has neglected to properly settle affairs connected with the estate. She claims that two notes, one for \$765.40 signed by H. B. and Sam L. Ulrich, the other for \$400 signed by H. B. Ulrich and Edward Zinn have been allowed to become outlawed. She also states that J. F. Ulrich signed a note for \$2475 in favor of the estate and has made no effort to settle the same and that it will become outlawed by January 1, 1929.

## CARRANZA BODY DELIVERED INTO HANDS OF FOLKS

Laredo, Texas, July 21 (AP)—The body of Captain Emilio Carranza, Mexican air ace was given into the keeping of his people at 9:30 this morning on the international bridge here.

The ceremony marked the end of one of the most magnificent demonstrations of sympathy and grief this country has ever made for the body of a noted foreigner.

Captain Carranza crashed in New Jersey a week ago while returning to Mexico after paying this country a return of the visit Col. Charles A. Lindbergh made to Mexico.

From the time Carranza's body was found by berry pickers until the climax at the bridge here the military forces of the nation have extended themselves to honor him. The long train trip from New Jersey was accompanied a large part of the way by aerial escorts from fields along the route. Many planes dropped flowers on the train. At San Antonio yesterday the second army division and a squadron of 100 army planes honored the corpse.

Both sides of the river were lined solidly with spectators as the guard of honor which accompanied the body from Washington, reinforced by the Eighth Engineers from Fort McIntosh, followed the gun carriage upon which the body rested to the center of the international bridge. Here, while 70 army airplanes circled above the river and dropped flowers, taps were sounded.

The Mexican troops advanced from the south end of the bridge and the soldiers of the two nations met as the casket was removed to a caisson brought by the Mexican soldiers.

Just received—4 Ford coupes, touring and roadsters—1928 and 27; one 1928 Pontiac coach, at bargain prices. Used Car Corner, 246 State Street. 173

Miss Margaret McAlpine of the Health Demonstration left today for a month's vacation in San Francisco.

## JAIL SENTENCE AND FINE GIVEN PROH UPHELD

Indianapolis, July 21 (AP)—A sentence of 60 days on the state penal farm and a fine of \$250 imposed on Dr. Edward S. Shumaker, superintendent of the Indiana Anti-Saloon league, for contempt of the Indiana supreme court, was affirmed by that court. The court refused however, to increase the sentence on a motion of Attorney General Arthur L. Gilliom.

Conviction for contempt of court was obtained following publication of statements that certain members of the supreme court were prejudiced in deciding liquor appeals.

The motion to increase the sentence was filed after the publication of correspondence between Shumaker and Senator James E. Watson. Attorney General Gilliom contended this correspondence indicated "corrupt attempts by Shumaker to corruptly influence a decision favorable to him."

An appeal to the United States supreme court now is the only means by which the dry leader may be able to avoid serving the sentence. Attorneys for Shumaker said they did not know whether an appeal would be taken. Dr. Shumaker declined to comment.

## SAW MALMGREN ALIVE, ASSERTS RESCUE PILOT

Kings Bay, Spitzbergen, July 21 (AP)—The Soviet aviator, Chukhovskiy, who first sighted Captains Adalberto Mariano and Filippo Zappi and directed the Kraasin to their rescue, in an interview today said he was greatly surprised when he learned Professor Finn Malmgren also had not been rescued.

He said he and his five aides felt certain they saw three men on the ice floe when their plane first passed over the little group.

"When we spotted the Malmgren group on the ice floe we were convinced we saw three persons, the first standing cross, the second crouching and the third lying down," Chukhovskiy said.

"All three were tied together with ropes to prevent their slipping off the ice floe, which was only 20 square meters, surrounded by open water. We were greatly surprised on learning that only two were rescued."

"It is possible we mistook a bundle of garments for a third person. We hope this will be clarified through pictures we took while cruising over the ice floe."

Stockton, Cal. July 21 (AP)—G. Elmer Reynolds, 45, managing editor of the Stockton Record, died in his office today from a heart attack. He had been connected with the newspaper about 25 years.

## PAGES ENCOUNTER HEAT IN TRAVELS

Real old-fashioned hot weather is being encountered by Mr. and Mrs. E. M. Page, in their travels in the east, according to a letter received by Leo Page, a brother. Mr. Page, who is deputy district grand exalted ruler for Oregon south, of the B. P. O. Elks has been attending the national Elks convention in Miami, Fla.

Mr. Page reports Miami as being a wonderful playground, but says the weather is just too hot for an Oregonian to be comfortable. The Pages made the trip to New York from Miami by boat and again encountered torrid weather in the metropolis.

After visiting New York, Washington and other eastern cities the Pages will go to Quebec, where they will take the boat up the St. Lawrence river, through the Great Lakes to Chicago and home over the Canadian Pacific. They expect to return to Salem in about three weeks.

## PREPARE TO ROCK NORTH FORK ROAD

Work of setting up a rock crusher on the Siliway place four miles above Ashland on the Little North Fork of the Santiam was started yesterday. County Roadmaster Cullver reports, and as soon as this in operation work of rocking two miles

## SALEM DELEGATES LAND CONVENTION

Salem's delegation of the Pacific Northwest Real Estate convention in Victoria, B. C., were successful in having Salem chosen for the host city for the 1928 convention. The mid-winter session, at which time officers will be installed, will be held in Seattle. Officers elected were George A. Spencer, Seattle, president; W. Zimmerman, Portland, re-elected executive secretary. Attending the convention from Salem were George Grabenhorst, J. F. Ulrich, W. E. Hansen, and Leo Childs, realtors and C. E. Wilson, manager of the Salem chamber of commerce, which organization has been directing its efforts towards this convention for the past two years. The 13th annual convention here next year is expected to bring nearly 1500 delegates and visitors to Salem.

## TRAIN HITS OPEN DRAW; DOZEN HURT

New York, July 21 (AP)—A dozen persons were injured today when the first two cars of a long island railroad electric train plunged through an open drawbridge over an arm of Jamaica bay between Broad Channel and Hammel.

The first car, the amok, which contained 24 passengers, was three quarters submerged, while the second car was balanced on the edge of the bridge superstructure.

The motorman, Carl Muller, who according to reports to the railroad officers ran by a block signal, smashed a window and swam to the surface.

The bridge had been opened for the Jamaica Bay tug Dynamic, whose crew rescued the motorman and several of the passengers.

Carroll McDonald, carrier, and W. G. Ross, clerk at the postoffice are leaving tomorrow for a two weeks' outing. They expect to visit Crater lake and the Oregon caves.

## SOURCE OF EGGS THAT POISONED 200 IS SOUGHT

Washington, July 21 (AP)—Source of hard boiled eggs blamed by hospital authorities for poisoning about 200 persons on an excursion down the Potomac river yesterday was investigated today by Maryland and District of Columbia police.

Most of those affected were children. Eleven remained in hospitals today, one in a serious condition. All were taken ill at Marshall Hall, Md., an amusement resort 30 miles from Washington on the hottest day of the year. The excursion steamer Charles McAlester returned under forced steam to Washington where ambulances and scores of hysterical relatives of the stricken waited at the dock.

Late last night the steamer made another trip for more of the stricken carrying doctors and nurses to treat them enroute.

The excursion was an annual event sponsored by the Central Union Mission, a charitable organization affiliated with most of the capital's churches.

John S. Bennett, Mission superintendent, denied that the eggs served, had been boiled "two weeks ago."

Salem merchants are again being made the victims of a bogus check artist. This time the perpetrator is a woman. Several checks have been passed, most of the men July 18. One for \$10 made out to Marie Dennison, with an address of 1381 South 12th street wash cashed at Miller's store. Other victims were Greenbaum's and the Smart Shop. Only a very meager description of the woman has been given the police, most of the saying that she is about 23 years old.

## LANGLEY WAITS FOR AL SMITH TO SOUND NOTE

Portland, Ore., July 21 (AP)—Lotus L. Langley, chairman of the state democratic central committee, told the United Press today that he would issue a call for a state meeting Tuesday. The meeting will be held August 4, according to the Langley proposal, and at that time organization for the Oregon campaign will be perfected.

A number of democrats met here last night, many of whom felt that organization should be made at once. Longley did not attend the meeting but sent a letter in which he said he had no desire to outline the campaign policies of Alfred E. Smith, the democratic presidential nominee, until after Governor Smith had officially accepted the nomination and submitted his own views in the acceptance speech.

A factor behind the desire of Langley, a Smith supporter, to delay an organization meeting, is said to be his desire to have a majority of counties present for the meeting and that this was impossible immediately because a number of county committees are as yet unorganized.

The democratic board of strategy also selected regional headquarters, one at St. Louis close to the farm belt and in a doubtful state; and the other at Salt Lake City for the intermountain and western states. Senator Harry B. Hawes of Missouri will direct the former, Fred W. Johnson of Rock Springs, Wyo., head of the western states Smith-for president club, the latter.

Those were the only regional headquarters designated yesterday when campaign plans were practically completed, the south being left out, it was explained, that others might be selected later, however.

Raskob's job in the campaign scheme will be to apply his business and organizing ability to the situation as it is laid before him by these men and women who have grown up in the school of politics.

Raskob heads the executive committee and is an ex-officio member of the advisory committee, the latter headed by Senator Peter G. Gerry of Rhode Island.

## POLITICIANS OF EXPERIENCE ON RASKOB BOARD

New York, July 21 (AP)—Practical politicians of long experience will direct the "oh-so-sleazy" campaign that democrats will begin soon for Governor Alfred E. Smith.

Chairman John J. Raskob of the national committee, who is not a politician and admits it, has gathered about him an executive committee whose members have worked with Smith for years, and an advisory committee of practical politicians from all sections of the country, some from doubtful territory where the democrats plan a real fight.

The democratic board of strategy also selected regional headquarters, one at St. Louis close to the farm belt and in a doubtful state; and the other at Salt Lake City for the intermountain and western states. Senator Harry B. Hawes of Missouri will direct the former, Fred W. Johnson of Rock Springs, Wyo., head of the western states Smith-for president club, the latter.

Those were the only regional headquarters designated yesterday when campaign plans were practically completed, the south being left out, it was explained, that others might be selected later, however.

Raskob's job in the campaign scheme will be to apply his business and organizing ability to the situation as it is laid before him by these men and women who have grown up in the school of politics.

Raskob heads the executive committee and is an ex-officio member of the advisory committee, the latter headed by Senator Peter G. Gerry of Rhode Island.

## MERCURY SOARS TO 1928 RECORD

With every indication that 100 degrees would be reached in the business district by 4 o'clock, the retail section sweltered under a 96-degree temperature at 2 o'clock this afternoon, the hottest day of the year and the fourth time the mercury has reached or passed the 90-degree mark during the spring and summer.

Readings taken from the Hartman Bros. thermometer in the shade on the Liberty side of the store at 2 o'clock revealed 96 degrees, while the dial showed that the 90-degree mark was reached at 11 o'clock. At 6 o'clock Saturday morning the temperature was 64 degrees, a steady and sharp increase in heat being recorded. At 8:30 o'clock the 90-degree mark was reached.

## DEMOCRATS HERE PLAN SMITH DRIVE

The democratic county central committee is determined to put over Al Smith for Marion county.

With the committee organized within the legal time limit with Kenneth Bayne as county chairman; Joe Minto as secretary and August Hucklestein as state committeeman work is already under way on part of the committee, members declare to put this county in the democratic column.

Officers of the committee say that no stone will be left unturned during this campaign to put it over in the county. While they are not divulging their plans to any great extent they can see by the dope where the chance to put this county in the democratic column in a residential year the best yet and state that even many republicans are admitting that this normally heavy republican county is on the verge of slipping this year.

Miss Beatrice Walton, secretary to Governor Patterson, and Miss Cornelia Marvin, state librarian, left today for Seattle, where they will spend part of their vacation.

Mrs. L. C. Northcott, who has been a guest at the home of Mr. and Mrs. A. L. Lindbeck of Auburn Lane, left yesterday for her home in Fresno, Cal. Mrs. Northcott accompanied the Lindbecks on their vacation trip last week.

## TRAIN HITS OPEN DRAW; DOZEN HURT

New York, July 21 (AP)—A dozen persons were injured today when the first two cars of a long island railroad electric train plunged through an open drawbridge over an arm of Jamaica bay between Broad Channel and Hammel.

The first car, the amok, which contained 24 passengers, was three quarters submerged, while the second car was balanced on the edge of the bridge superstructure.
