

CITY OFFICER CHOICE WAITS UPON QUORUM

Woodburn, Nov. 21.—On account of the absence of Councilman C. J. Epp from last night's meeting because of illness the appointment of city officers was deferred until a full quorum could be present, which will probably be at the next meeting on December 4. On motion the salaries of the city officers were fixed the same as last year, which is per month: recorder, \$100; treasurer, \$30; marshal \$100; street commissioner \$100; fire chief, \$10; city attorney \$35; water superintendent, \$100; auditor, \$25; health officer \$100 per year.

The bonds of the recorder were fixed at \$1500; those of the treasurer at \$10,000 and of the marshal at \$500. The request of Joseph Hugill for water was granted on condition that he dig the ditch and refill it after the pipe is laid by the city. J. R. Landon is present and asked for a permit for the construction of a building of hollow tile 20 by 40 in dimensions adjoining the Love Tire shop on the east. Mr. Landon was informed that it would be necessary to file a written request for the permit with an outline of his plans before action could be taken by the council in conformity with the building ordinance.

C. F. Jackson and George Huber who reside on Brown street made a request for a light at the dark and dangerous intersection of Brown street with East Cleveland and the council consented to have a light moved to that corner from further up the street, having no funds for the purchase of additional lights. Complaint was also made of the blackberry bushes which obscure the view at that intersection and there will be removed by the city.

The street commissioner's acceptance of the improvement of Second street was approved by the council, no objections to the same having been filed. The request of W. J. Wilson for a new walk on Wilson street was not allowed. Reports of city officers were accepted and placed on file.

LUMBER CAMP ENDS SEASON'S ACTIVITY

Silverton, Nov. 21.—Camp 16 of the Silver Falls Lumber company will close down Friday for the winter, leaving only about 30 men there to do repair work and do some new building. There are plenty of cut logs in the town 12-acre pond and the immense pile near the pond to do the 6-day-a-week day shift for several months.
