Guarding Against the FLU

Any cold can mean the flu; the surest way to avoid flu is to avoid colds.

To avoid coming down with a cold make prompt use of Bayer Aspirin.

Don't wait to see if that first sneeze or cough is going to be a cold. Take Bayer Aspirin at the first sign of any cold, and be safe.

And whatever you do, don't neglect a sore throat these days; gargle with Bayer Aspirin and remove the infection.

Guard against the flu by guarding against the colds that make you susceptible to the flu germs that lurk in crowded and poorly ventilated places.
