Sage Tea Puts Color in Gray Hair

By LOIS PAIGE

I am heartily in favor of the woman who refuses to be aged by gray hair. It is every woman's right to retain her youthfulness and attractiveness as long as she can. When a woman asks me about coloring her gray, faded or streaked hair I say, "Go ahead," and tell her the secret of sage tea and sulphur.

A brew of common garden sage tea and sulphur has the power to restore gray or faded hair to full life and color. You can either prepare the mixture at home or buy it already prepared and ready to use. The name of the prepared article is Wyeth's Sage & Sulphur, and since it costs only 75c a bottle at any drug store, there is really no need to go to the bother of preparing it yourself.

You simply moisten a comb or soft brush and draw it through your hair, one strand at a time. Done at night, morning sees the gray gone; another application or two and your hair is once again of the color and lustre of youth and you appear years younger. The whole effort is one of perfect naturalness.
