For over fifty years, mothers, like this well-known Western woman, have been telling each other about California Fig Syrup, and leading physicians have been endorsing it. Nothing else acts so gently and harmlessly to propel the souring waste from the delicate system of babies and children, which, when allowed to remain, keeps them cross, feverish, bilious, headachy, weak, with coated tongue, bad breath, broken-out skin, no appetite or energy. Its rich, fruity goodness helps to give tone and strength to their little stomachs and bowels so they continue to act normally of their own accord. It helps to build up and strengthen them—makes them active and happy.

"Sweetest Baby in the West!"

"I have used California Fig Syrup with my little daughter since early babyhood," says Mrs. S. Judd, 17 Pearl St., Denver, Colorado. "Whenever she has a cold, is the least bit constipated or doesn't seem just right, I always give her a little, and it fixes her up quick. She's the picture of health, now, and friends say she's the sweetest baby in the West. She has never had a serious illness, and I give California Fig Syrup full credit for it." "Protect your child from imitations of California Fig Syrup. See that the carton bears the word 'California'."
