

BUTTER PRICES SHOW FURTHER SLUMP

Wide Spread Evidenced In Quotations

Portland, (AP)—For the last session prime first cubes were off half cent and first one cent a pound. The differential or spread between top and bottom cube butter is but 2 1/2 cents a pound.

Make of butter is increasing rapidly all through this section which calls for additional easiness in the trade. However, prices in the south are holding fairly well, although not as good as those in effect here.

Most of the present eye movement appears in the direction of coolers. The only price change for the late session of the dairy exchange was a loss of one cent for medium firsts. This remains the low market of the coast.

Active demand is continued in the live chicken trade with no general change in the price list. Receipts are somewhat more liberal especially as regards small broilers. Under 1 1/2 pounds they are hard to move.

Quality of present turkey arrivals is such as to keep the demand at a low point. There is a limited call for good stuff with former prices still generally available.

There remains a scarcity of light-weight quality calves along the wholesale way. Receipts are inadequate to take care of demand and prices are firm. Heavier sorts are in call at unusually good values. Hogs are firm. Bulls and goats are in demand.

Supplies of asparagus are more liberal but not yet sufficient to create a material price reduction. In fact the best stuff is still selling as high as 30 cents a pound with the low at 25 cents.

Market for onions is almost lifeless at the source for carload lots. Some consignments are reported. Growers are much more willing to do business at \$2.50 but there are few buyers in sight. California is expecting Texas Bermudas next week.

While some firms, more or less loyal to local, are still trying to get an extreme price for southern broccoli, the Roseburg stock is showing improved quality. In regular or large crates sales are being made up to \$1.75 generally. A few higher or lower.

Orange market still congested with small stuff.

Florida oranges moving fairly well around \$5.50 box.

New potatoes are listed at 12 to 14 cents a pound.

Old potato market remains quiet with prices nominally listed.

SURVIVORS LOOK ON AS VICTIMS BURN

(Continued from Page 1)

The engines of both trains were piled in a mass of wreckage. A baggage car on the east bound train was wrecked, as were the colonist car and a baggage car of the west bound train. The next two cars were derailed.

The only identified dead were six members of the train crews. They were Conductor Barstead, brakeman Ferguson, brakeman White, News Agent Miller, fireman Smith and Express Messenger Strutt.

Paul Gauvreau, engineer of the east bound train suffered fractures of both legs and severe burns from steam. G. V. Alexander, engineer of the west bound train jumped at the moment of impact and escaped with slight injuries.

The west bound train running by a switch was given by some of the passengers as the cause of the collision but A. E. Warren, general manager of the central division of the railroad, said the cause had not been determined.

Passengers asleep in the Pullmans escaped.

Investigations by the Dominion board of railway commissioners and the Canadian National railways, in addition to the official inquiry by the coroner are expected to start Thursday to determine the responsibility for the collision.

Reasons are sought for the apparent disregard of an order by which the two Toronto-Winnipeg trains were intended to pass at a switch near Droucourt.

REBEL CAPTURED IN BATTLE SHOT

(Continued from Page 1)

The attack which had been expected several hours previous.

The federal garrison numbers 2,500 effective and the attacking rebels seemed to be two to three thousand strong, government offices were informed. The strongly entrenched position of the federal and the topography of the city, which makes Mazatlan easy to defend, inclined the government to believe that forces now there were amply sufficient for the defense.

It was believed that General Calles would not immediately deploy any of his men from Torreon to reinforce the Mazatlan garrison. General Calles is somewhere between Torreon and Chihuahua City in pursuit of the rebels, the government announced.

Reports that the rebels had captured Durango were received but could not be confirmed.

A rebel advance on the federal stronghold of Naco on the border also was threatened.

The insurgents claim that their strategy is to draw General Calles northward into a trap, to cut him off from reinforcements and then to launch a major drive against him.

Rebel headquarters reported the capture of Puebla and Guanajuato near Mexico City, but there was no confirmation of this.

General Jesus Aguirre, leader of the defeated insurgents in Vera Cruz, was captured and is understood to have been court-martialed and executed.

West Stayton Goes In For Cauliflower; Plan Many Carloads

Cauliflower sufficient not only to supply the local demands, but also to provide between 50 and 60 carloads for shipment was arranged at a meeting of the West Stayton Growers' Association, corporation, which was held in West Stayton Wednesday night.

Details were made available Thursday through Roy Hurst, of the Hurst-Root company. The latter organization is to establish exclusive sales agencies through an agreement reached at the West Stayton meeting. That is, the Hurst-Root company will take care of all cauliflower which is to be handled in carload lots.

Growers of the West Stayton district, Mr. Hurst said, are pledged to not less than 75 acres in cauliflower. It is entirely possible, he explained, that the acreage may approximate 100 acres.

At the meeting E. R. Clark was chosen president; V. O. Tyler, was elected secretary and treasurer and the directors selected are as follows: Harley Johnson, J. J. Kendal, A. S. Worsley, W. O. Royce and R. E. Tyler.

The deal was sponsored and made possible, financially, through the efforts of J. W. Mayo, of the Stayton bank.

HURST-ROOT TO INCREASE CHERRY POOL

Expressing great confidence in the territory surrounding Salem and manifesting this confidence by increasing their cherry pool and by leasing the Terminal Ice & Cold Storage plant—a plant which, it claims, is one of the best equipped in the northwest, the Hurst-Root company, of Salem, have declared their intentions for the coming season.

"Our pre-cooling rooms," explained Roy Hurst Thursday, "are equipped so as to cool the fruit before shipment with dry cold air. This new arrangement we believe is a great and very necessary step forward in the interests of the cherry and prune shipping industry.

"This new arrangement will put out Willamette valley deals on a par with all the better deals in the northwest."

Mr. Hurst again expressed confidence in the Willamette valley and said he believed the organization with which he is identified should ship from Salem no less than 50 carloads of cherries.

"It is our intention," he added, "to make Salem the hub of our deals, and all cherries from outside will be brought to this city.

Offices of his company are located on Front street, one block east of the Kings plant. It will be opened May 15, at which time growers are urged to visit the fruit men.

PRUNE THIRP DUE TO SHOW HEAD SOON

Dallas—The prune thrip which caused such conversational stir during the past two seasons should put in its appearance either this week or next. The amount of damage caused by this insect has been a debatable issue and the matter of controlling it is still in the experimental stage.

Trials conducted over a period of two or three years have indicated that considerable success is experienced when a spray consisting of three-fourths of oil emulsion and two-fifths of pint of nicotine sulphate are mixed with 100 gallons of water. The resulting spray should be put on as soon as the thrips make their appearance and a fine driving spray is of importance.

From inquiries received in the office of the county agent there are indications that some orchardists are planning on using this spray this season.

The thrip put in its appearance March 12 in 1928, March 17, 1927 and on March 15 in 1928.

leaders of German industry and finance.

The figure of 1,750,000,000 marks is understood to represent reparations payments of all categories. This would entail a reduction of the present annuities under the Dawes plan of between seven and eight hundred million gold marks.

The 1,750,000,000 marks figure was guarded with the greatest secrecy; consequently, when it was learned, there was no attendant explanation or comment to indicate the number of annuities, or if as generally supposed, it was the first figure of a schedule of rising annual totals.

Thus it appeared that the minimum which Germany's creditors will accept is in fact the equivalent of the fourth year's Dawes annuity, payment of which was completed August 31, 1928.

Uneasiness Over Credit Hits Market

New York (AP)—Extremely nervous trading in the stock market reflected the widespread uneasiness over the credit situation. Prices opened irregular, turned heavy just before mid-day, and then started upward in the early afternoon under the leadership of the public utilities. Trading turned dull on the rally with many small traders showing a disposition to keep out of the market until after the New York and Chicago federal reserve meetings were out of the way.

Prices were unable to hold a definite course during the last hour. Railroad equipments were heavily bought for a time, Baldwin locomotive approximating its 1928 high. Texas Gulf sulphur developed pronounced strength, and Midland Steel products preferred mounted seven points. Interim selling broke out in the coppers, oils and merchandising shares. The close was irregular.

Total sales approximated 4,500,000 shares.

FUNERAL FOR FOCH SET NEXT TUESDAY

the whole nation to whose glory Foch so greatly added.

J. P. Morgan called Thursday afternoon to speak a few words of condolence to Mme. Foch. He signed the visitor's register.

Marshall Joffre and Ambassador Herick both called about noon.

Upon a high catafalque over which hung a canopy of black studded with silver embroidery the body of Marshal Foch was laid Thursday afternoon, that friends of the family and high dignitaries of France might take farewell before the public lying-in-state.

Foch was dressed in his campaign uniform. The dark blue overcoat which he wore when he entered Strasbourg lay over his knees. The five stars of his rank as marshal gleamed from the lower part of his sleeves. His breast was covered with medals which a grateful fatherland and other nations to whose flags he brought victories had bestowed upon him.

Six tall tapers were burning at each side of the catafalque and at the foot were tall golden candlesticks each bearing ten candles.

The marshal's widow, his daughters and his brother, sat in front of a prie-dieu at the foot of the bed, while in a corner a few feet away, two sisters of the order of
