

# \$5,000,000 FOR POSTAL CABLE PENSION FUND

New York, N. Y.—An initial fund of \$5,000,000 has been set aside by the directors of the Postal Telegraph-Cable company for administration of a new pension and benefit plan, involving about 20,000 employees, to go into effect July 1st. The plan is designed after that of the International Telephone and Telegraph corporation, with which the Postal is affiliated.

"The \$5,000,000 is just a beginning and the fund will be increased from time to time," Clarence H. Mackay, president of the Postal company declared. "We believe we have taken a most liberal means of providing for the needs of our employees in sickness, injury and old age. To devise the plan other similar ones were very carefully studied and we believe the plan we have finally adopted is the best and most all embracing, in that it provides a pension for dependents of employees who die while in service of the company, or while pensioners, as well as including generous sick and pension benefits. It is our feeling that employers should show consideration for the families of their workers as well as the workers themselves."

Under the new plan, male employees of Postal may be retired after they have reached the age of 60, while women employees may be pensioned any time after they are 55. On their own request, male employees may be pensioned after they become 65 years old and women employees after they are 60.

# PRIVATE FLYING CLUBS SOUGHT

Washington (AP)—A movement to establish private flying clubs throughout the country has been launched by the National Aeronautic Association.

Senator Hiram Bingham of Connecticut, president of the organization, announcing the plan, said the movement was directed toward the "proper development of civil flying in the United States. It has been undertaken, he said, only after insurance difficulties have been overcome. It is now possible, he explained, for a flying club formed under the N. A. A. plan and chartered to receive insurance against the loss of the plane, and against property liability, property damage and passenger liability.

While foreign flying clubs are thriving under government subsidy he declared, this idea "is not tolerated and is not recommended by the association."

# NEW ANAESTHETIC PROVES SUCCESSFUL

Chicago, (AP)—Two experiments with a new anaesthetic, given intravenously, proved successful at the Cook county hospital last week. The new anaesthetic is called "Cytex" and is a major operation was performed, the anaesthetic being "a distinct success," according to Dr. Harry Rohneck, who assisted in handling the cases.

The anaesthetic is "sodium isoamyl-ethyl barbiturate," developed by Dr. L. G. Zerfas and Dr. J. T. C. McCallum, of the Indianapolis city hospital. Under the anaesthetic the patient falls asleep while it is being injected into the veins. Advantages claimed for it are that it eliminates post operative pain, involvement and nausea. It may be given alone or as an adjunct to a general anaesthetic.

The claim also is made that it may be employed in control of convulsions, strychnine poisoning, rabies and tetanus.

# LEAGUE HOLDS FIRST PLENARY SESSION MADRID

Madrid, (AP)—The first plenary session of the league of nations council passed off smoothly before a crowd of distinguished international and Spanish personalities.

The Papal Nuncio, American ambassador Ogden Hammond, the French, Italian and German ambassadors and the diplomatic representatives of most of the countries of the world, heard the reading of the reports and the discussion of various questions raised by the German foreign minister, who appeared pale and debilitated. Herr Stresemann allowed himself to be photographed and filmed on entering and leaving the senate.

The session was adjourned early because the delegates have a long program of festivities and formal functions to complete.

Reports were read on health organization, particularly dealing with sleeping sickness, which an expert committee has been appointed to study, on opium traffic and on infant mortality. A report on public health administration in the United States was approved.

Announcement was made that 28 states are now enforcing the anti-slavery convention.

The plenary session adjourned until Wednesday.

# INTEREST INCREASES IN LATIN CLASSES

Twenty-one percent of the boys and girls in senior high school, 30 percent of Parrish junior high ninth graders, and 52 percent of Leslie ninth graders, were enrolled in Latin classes during the past year, says Laura V. Hale, head of the Latin department, in her annual report to the city superintendent.

The head of the Latin department will be made the head of the foreign language department in the fall and a course in German will be offered for the first time in 10 years.

Miss Hale says that both Leslie junior and the senior high school have active Latin clubs which do much to further interest in the study. The Paul Wallace prizes awarded this year to Bernice Rickman and Marjorie O'Dell are also factors in increasing interest in Latin.
