RURAL CORN CLUB HAS FINE MEETING

North Howell—The best meeting of the year of the North Howell Corn club was held recently with all members of the club present. At a short business meeting, the second cards were filled out. Plans were made for a picnic to be held in the near future. Members are also planning an inspection trip to various state buildings in and around Salem.

Following the business session, the club members made a tour of the corn fields, using the cars of the leader, George Weisner, and the club president, George Cline. The Cline plot was visited first, with the tour ending at the Wayne Weisner field.

SAINT BENEDICT EDITOR PASSES AFTER ILLNESS

Saint Benedict—Brother Celestine Miller, O. S. B., died at St. Vincent's hospital shortly after midnight on Wednesday morning. He had been in the hospital for about four months, but the doctors stated in the first examination that his case was hopeless.

With asthma and heart disease combined, he kept working at his desk during the early winter months, and when he went to the hospital in February, the disease had gained too much headway to be overcome by medical treatment.

Brother Celestine was born in Schmerikon, Switzerland on October 2, 1866, and came to Mt. Angel in 1888 to oin the Benedictine order. Having had some experience as a printer in Switzerland, he was appointed to take charge of the new paper started by Father Somers and afterwards published as a national Weekly under the title "St. Joseph's Blatt." In the beginning the subscription list was only a few hundreds, but it gradually gained with the years until the year 1914 when the circulation was over 30,000.

Brother Celestine was a tireless worker as editor of the German publications, St Joseph's Blatt, Armen Seelen Freund, and the German Calender published once a year. For nearly 40 years he was at the work, and his death will be deeply felt at St. Benedict's abbey.

Funeral services will be held about 8 a. m. on Friday morning.

Percy A. Cupper of Salem, former state engineer, refuses to confirm or deny a report that he will become a candidate for the republican gubernatorial nomination in 1930.

"It's too early to talk politics," Cupper said when asked about the rumor.

DRY AGENT GETS 2 YEARS PRISON

Louisville, Ky. (AP)—A new trial was refused Wednesday to a federal prohibition agent and a deputy sheriff, who are under sentence to two years imprisonment for the killing in 1925 of a man whose moonshine still they were raiding.

Federal Judge Charles I. Dawson, before whom the men were tried at Paducah, Ky., in April, 1929, said in overruling the motion, which was based on a plea of new evidence discovered and the fact that jurors had read newspaper accounts of the trial, said that he did not believe any jury could fail to convict the men.

The defendants, Roy Miller, and Deputy Sheriff Clarence Gossett, both of Hopkinsville, Ky., were said to have been the only officers ever convicted in a federal court for a killing in a raid.

FAVOR WOMEN FOR POSITIONS IN CENSUS TAKING

Washington (AP)—Population statistics of the 1930 decennial census will be announced publicly in each of the 500 districts immediately after they are gathered, instead of being tabulated first in Washington.

William M. Steuart, director of the census, explains that this procedure would be followed for the first time with the forthcoming census, in order that inaccuracies may be detected before the figures are tabulated for the permanent record.

At least 100,000 enumerators will be needed to canvass the nation's homes for the census, he says, and between 6,000 and 8,000 more will be employed here later.

Selection of women for the jobs is favored by the directors.

"Women have been employed in the works for census of the past," he says, "and with great success. They have tact."

Though applications for positions as enumerators will be filed with the census bureau here, supervisors in the 500 districts into which the country wil be divided, will be responsible for organization of the staff. The plan is to employ one enumerator for each 2,000 estimated population.

"Publication of the figures in the districts," director Steuart expects, "will also enable me to carry out the provision of the law of a penalty on deliberate inaccuracy. The supervisor will not be paid for the work in his district until after results of his staff have been published and opened to public comment."
