And no wonder—10 to 60 miles an hour in 31 seconds—over the top of a long 11.6% grade at 25 miles an hour, starting at 5 at the bottom—all in high gear. (The average road grade is 7%). 68 or 70 honest miles in comfort1 There isn't a phase of performance where it can't show a clean pair of wheels to every car in its price class.

One word can say most about the Marquette—it's "VALUE." The Marquette with the latest Bodies by Fisher is America's most complete moderate-priced car. It is a thoroughly better automobile for the money. Throughout this great new sixin every feature, from bumper to bumper, from top to tread-there is more quality than seems possible to put into a car at the price. But it is there, because Buick knows how to build an extra margin of out-and-out goodness into all its products.
