Ralph Thompson says he doesn't figure how a girl can have the nerve to wear one of these new sun tan bathing suits. All Ralph needs to do is to look at one of them to see that she has plenty of backbone.

At any rate, when we're swimming with one of them, whether she leaves us or not, we're glad to see her back.

One of those new bathing suits is like a game of hide and seek—you don't have to seek far to find the hide.

We have always been advised that to make a building look better it should get a new coat of paint. Harry Hawkins and Tommy Roberts are reversing the process by making them look better by removing the paint. A lot of women could profit by the example.

Just why the editor calls the column for public letters the "Open Forum" is beyond us. All the letters we read in it don't seem to be for 'em but against 'em.

Whatever happens in this squabble about the Espee bus franchise, let's hope it gets rid of the old yellow Highland bus, at least. While it didn't go very fast everyone who rode in it got rattled before the trip was over.
