

REINHART IN AIR FOR 101 HOURS

EUROPE DIGS OUT OF DEBRIS LEFT BY GALE

28 Persons Killed and Hundreds Injured by Wind and Hail Storm

Swath of Desolation left From Germany to Jugoslavia

London, (AP)—Central Europe dug itself out today from debris of a series of storms which yesterday swept down from south-eastern Germany and killed 28 persons, injuring hundreds in Czechoslovakia, Austria, Yugoslavia, Germany and Switzerland.

The storms, which at times reached hurricane intensity and exceeded 100 miles an hour velocity, did widespread damage, destroying growing crops in some districts, tearing down telegraph and telephone wires, and interrupting railroad traffic.

The disturbance began in Germany, as hail storms tore down through Bohemia and Moravia, and swung eastward, and turned into Austria where they raked the republic's length and breadth. Here the disturbance divided, one section sweeping south through Yugoslavia and another continuing westward into Switzerland.

The wind reached a velocity of 100 miles an hour in Austria, interrupting shipping on the lakes.

FAMINE CAUSES CANNIBALISM IN NORTH CHINA

Beijing, (AP)—Reports of appalling conditions caused by famine in southern Szechuan, Honan, Henan, Tientsin and Tientsin districts of China have been received by the American board of commissioners for foreign missions. Conditions are so terrible, missionaries reported, that several cases of cannibalism have been authenticated.

The Rev. Earle H. Ballou, reported that only a few hundred miles west of Tientsin where he is stationed, the famine is so great that parents dare not let their children out on the streets for fear they will be stolen and sold, or actually eaten.

To assist in relief work the board has transferred the Rev. Stephen C. Peabody, of Appleton, Wis., to Yulin, northern Szechuan, to relieve Elmer W. Galt, of Shenandoah, Iowa. Mr. Peabody has been in Peking since 1924. Both men have been released by the board to assist in relief work.

Failure of the spring crop and the extreme dryness which prevents planting for the fall in southern Szechuan means, according to Dr. E. T. Watson, of Northfield, Minn., head of the American board hospital, in Fenchow that there will be no food grown in that area until the spring of 1930.

HOOVER ENJOYS FISHING TRIP

Madison, Virginia, (AP)—The presidential party of seven was secluded Saturday from the cares and stress of administrative duties at the Hoover fishing preserve in the Blue Ridge mountains near here after their hard drive Friday over rain soaked roads from Washington.

With the president were Mrs. Hoover and her son, Herbert, Jr., Dr. Vernon Kellogg, permanent secretary of the national research council, and Mark Sullivan and William Hard, news writers. They expect to return to the capital late Sunday.

The party was led into the mountains by Mrs. Hoover and her son, who drove alone in her car to the point where the snow trail to the camp branches off from the highway. There the whole party assembled and, transferring to small cars, completed the trip.

MERRIAM OF EUGENE SUCCEEDS MR. PARK

The state board of control has appointed Howard Merriam of Eugene as a member of the state board of horticulture to succeed C. A. Park of Salem who resigned. A. C. Allen of Medford and H. H. Weatherpoon of Elgin were reappointed.

Good Evening!

DON UPJOHN OFFERS Sips for Supper

The girl who writes the words across the top of the classified page in the Journal surely handles a good line. In fact she handles a good line every night.

Nobody seems to know who's running things out at the airport. 'Sall right these aviation chaps are up in the air most of the time, anyway.

Whatever may be the results in the notorious breach of promise suit back east, whether the girl wins or loses, the fact remains that our forefathers were right when they enunciated the declaration that there's no fool like an old fool.

Now that another endurance record has been broken via air we wonder what the dickens else has been accomplished.

Another triumph for Sips.

Jim Nicholson has got his mustache shaved off.

We couldn't see much change in the plateau under Jim's nose from the way it looked before he let the sage brush grow.

At any rate, that's one place where the zoning commission should have acted—because that is an improvement.

From now on Jim will have to drink his root beer through a straw, being no longer able to filter it.

Word has come to us from different sources that Frank Minto, chief of police, was caught working the other day, kalsomining the walls of the police station. Inasmuch as the word came from Minto himself, two members of the police force and one newspaperman, our customers will have to take the information for what it is worth, considering the doubtful veracity of the sources of information.

However, after looking over the police station recently we'll admit that it looks as though Frank might have done the job.

Because he was alleged to have shot a deer out of season in southern Oregon Pete Reinhart quit being traffic cop and now has his name on the front page of every paper in the country as an endurance flier. If he'd shot a couple of deer he might be a second Lindbergh by now.

If Pete breaks the new record we suppose Tom Raffety will take all the credit for it.

WORLD RECORD IN ENDURANCE FLIGHT BROKEN

Cleveland Fliers Remain Aloft 174 Hours and 59 Seconds in Plane

Airship Wrecked by Crowd for Souvenirs, One Killed in Rush

Cleveland, Ohio, (AP)—Holders of a new world's record for endurance flights of 174 hours and 59 seconds, Pilots Roy L. Mitchell and Byron K. Newcomb Saturday raised their wearied bodies after remaining in the air for a week ago Friday afternoon until 12:39:50 Saturday morning, when they brought their plane to earth at Cleveland airport.

They exceeded by one hour, 28 minutes and 58 seconds the old mark set recently in Fort Worth, Texas, by Reginald Robbins and James Kelley, who remained aloft 172 hours, 32 minutes and 1 second.

Weariness brought the airmen to a landing and the riotous acclaim of 75,000 persons, one of whom was killed, after a flight which became.

ATLANTA AGAIN HEADQUARTERS OF KU KLUXERS

Washington (AP)—The Washington Post Saturday says "the Ku Klux Klan has abandoned Washington as a national headquarters and is now back in Atlanta, Georgia, the place of its birth."

Two reasons are given for the transfer. One official is quoted as explaining that the national headquarters moved to Washington because this was believed the best place to direct its campaign against the presidential candidacy of Alfred E. Smith.

"Well, the campaign is over now," he is quoted as saying. "Will we move back again? That may depend on who the candidates are."

The other reason ascribed is that "the Klan has just erected two new buildings in Atlanta, one a factory where the regalia is turned out, and the other an administrative building for the officials and clerks of the organization."

Klan officials who have been stationed here included H. J. Ramsey, imperial secretary; the editor of the Courier, whose identity is kept secret, and the imperial auditor, together with about 30 employees.

Imperial wizard, Hiram Wesley Evans, however, will remain in Washington. Evans is quoted as saying: "The headquarters of the Klan is wherever I am."

SIAMESE TWINS TO WED SISTERS

Manila (AP)—Lucio and Simplicio Godino, 21 years old Filipino "Siamese Twins" announced Saturday their intention of marrying Natividad and Victoria Matos, sisters, Tuesday, despite official opposition. After marrying, they said, they would go to the United States to enter vaudeville.

The license clerk's ruling that the twins were not single because they were joined together, was overruled by the Philippine department of justice, and they were granted a license to marry. The clerk denied them licenses a few days ago, saying that while in one sense, they were single because unmarried, in a larger sense they were not single because of the physical tie which bound them. The clerk held that they were one individual with a dual personality, and that their marriage would result in that one individual having two wives.

As a result of the decision of the department of justice, permission to wed probably will be granted Tuesday.

RADIO TO CARRY KING'S SERVICE

New York (AP)—Thanksgiving services for King George V, which will be broadcast Sunday from Westminster Abbey, London, by the British government radio station at Chelmsford, England, will be re-broadcast in the United States, the National Broadcasting company announced Saturday. Radio engineers here will attempt to pick up the abbey services by short waves from the British station, 5-SW, and they will be broadcast over combined coast to coast networks.

Failure To Sell Land Behind Pugh's Letter Of Complaint, Claim

The main reason why D. W. Pugh wrote a letter to the city council protesting against Lee Eyerly being allowed to operate his flying school on a piece of land that dovetails into the airport is that Pugh is part owner of a tract that he wants to sell to Eyerly at a substantial profit over what he paid for it, Brazier C. Small told the other members of the airport committee Friday night.

Small also offered the suggestion that if Pugh would move back into town and pay city taxes someone might possibly pay more attention to him. Just how much attention is being paid Pugh at present was indicated when the airport committee

See voted unanimously to recommend that the city council receive his letter and place it on file. Matters so disposed of by the council are considered in the graveyard.

Eyerly, who was present, told the committee that he is exercising his option on the Holman tract where

NEW ORLEANS STRIKERS BURN 5 CAR BARN

Disorders Spread Throughout City, Dynamite Hurlled at Buildings

2 Strikers Killed and Property Damage Estimated at \$50,000

New Orleans, (AP)—Application for a federal injunction to restrain officials and members of the street men's union from interfering with the operation of street cars of the city, the company's property was filed here Saturday on behalf of the bond holders of New Orleans Public Service, Inc.

New Orleans, (AP)—After two nights and a day of wild disorder, striking street car men and other sympathizers rested today while representatives of the company and union sought to find a common ground for negotiation.

The disorders which swept through Canal Street all of yesterday and spread into other sections continued into the night resulting in the burning of five street cars, the throwing of dynamite into the Canal Street car barn and setting fire to the Claiborne Avenue street car bridge.

While property damage was estimated at \$50,000 last night's troubles brought a minimum of human injury. So far two strikers have been killed, one shot through the shoulder, and hundreds hurt by flying bricks, sticks and splintering glass.

The quiet of today was attributed mainly to fatigue, the rioters having worn themselves out by the long hours of fighting against the operation of cars. Police continued to maintain heavy guards around the company's property.

Hot heads among the strike sympathizers were said to have been all set at midnight to deliver a mass attack against imported non-union carmen but the special train which brought them in was shunted about on sidings until trace of it was lost. The operators, brought in from the east and branded by union leaders as "pro-unionists."

EBERLE DEAD OF EAR INFECTION

FATHER OF CHINESE EXCLUSION DEAD

Washington, (AP)—Rear-Admiral Edward Walter Eberle retired, died here Saturday.

Admiral Eberle died at the naval hospital here where he was undergoing treatment. He had served in the navy since 1881 when he entered Annapolis naval academy and had had a distinguished career which included that of directing naval operations.

An ear infection of long standing was the immediate cause of the admiral's death.

Admiral Eberle who was born at Denton, Texas, retired in August, 1928, and was 65 years old. At the time of his retirement he was ranking officer of the navy by virtue of seniority, and was chairman of the executive committee of the navy general board. His home was at Fort Smith, Ark.

PATHOLOGISTS IN CONVENTION

Portland, Ore. (AP)—Portland heard the names of many new germs and scientific names for old ones Saturday as members of the American Society of Clinical Pathologists told of conquering dread diseases of the past and research into rarer and less known maladies.

As a forerunner to the main convention of the American Medical association, the pathologists will continue in session until Monday when it will be merged with general meetings.

Saturday, Dr. Walter M. Simpson, Dayton, Ohio, who last year received a medal from the national association for research on tularemia and undulant fever told delegates of his work in curbing tularemia, known familiarly as "tick fever."

"Up until 1924 only fifteen cases of tularemia were known to medical annals," Dr. Simpson said, "but during the past five years more than 800 cases have been reported in America and many more in Russia. Oregon, especially in the eastern part, where wood ticks and deer flies abound, reported a few cases."

\$59 Bargain Lots Still Lack Buyers and Alternate Snaps Fail to Start Flow of Gold

By HARRY N. CRAIN

Anglers in turbulent mountain streams and placid lakes for the wily trout are not the only ones who discover that sometimes the most gullible fish won't bite. Likewise "suckers" are frequently revealed to be of the more bull-headed variety—in water and out.

Which may or may not have something to do with the announced intention of the Johnson Realty Co., the local operators of which are being studied closely by the state real estate department to seek new fishing grounds. Angling for fish of the legged variety here has proven much too slow for the high-powered anglers constituting the aforesaid company.

C. W. Johnson and his associates descended upon Salem bearing licenses as real estate operators in California and a few other states, took out a license to operate in Oregon and set about to make names for themselves in Salem real estate circles.

From Becke & Hendricks, local realtors, the Johnson Realty Co. took options on about 30 lots, three (Continued on page 13, column 4)

\$250,000 HEART BALM CASE IN HANDS OF JURY

Chicago (AP)—The \$250,000 breach of promise suit brought against Franklin S. Harding, 62 year old oil burner manufacturer, by Mrs. Ann Livingston of Tulsa, Okla., was given to the jury at 3:32 p. m. Ann Livingston was characterized as a "cold, calculating lady from Tulsa" by the defense Saturday.

Of Harding, the chief attorney for Mrs. Livingston said: "With a lie on his lips and malice in his heart, he knew he was doing this girl wrong."

Mrs. Livingston's attorneys asked that she be given punitive damages as well as compensation because, they contended, her character was blackened by the testimony of Mrs. Victor C. Heath of Omaha, who said the plaintiff was indiscreet with men as a girl in Little Rock, Ark.

He charged Mrs. Heath's testimony was "pure perjury, bought and paid for." He also attacked Mrs. James Beyer of Tulsa, Mrs. Livingston's former landlady and friend, who said Mrs. Livingston planned to marry Harding and divorce him to obtain money.

Erlich charged that all of Harding's testimony was false and said he felt sorry for Josephine Brand, his housekeeper.

FINKE'S TRIAL TO BE HELD IN CIRCUIT COURT

Portland, Ore. (AP)—Juvenile Court Judge Gilbert Saturday was directed to sign an order which eventually will lead Walter J. Finke, Jr., 16, charged with the slaying of Herbert Beem, high school youth in the corridor of the institution, to trial in circuit court.

The close of the long investigation to decide whether Finke should be tried in juvenile court or circuit court came to an end Saturday when Judge Gilbert and District Attorney Myers agreed that juvenile court facilities were inadequate to cope with the case.

John Collier, counsel for Finke, declared it "would be a crime to send Walter to the penitentiary," as the circuit court has no other alternative. On the other hand, he said, in spite of the enormity of the crime, Finke was still a minor and his act "emanates from the mind of an immature person." Collier argued that the young man should be tried in juvenile court.

The attorney declared Finke, although 17, has the mentality of a person of "10 or 12 years."

OFFICERS SEARCH FOR YOUTH OF 12

Dexter Boise, red headed, freckled faced and badly wanted by some of the county authorities, is running at large in the county, or was Saturday morning. However, the fact that he is only 12 years old makes possibilities of his running amuck for a day or two not exceedingly alarming.

Dexter, nevertheless, has caused the county authorities considerable trouble, first by playing hooky from school, then engaging, it is alleged, in purloining various articles, principally copper and brass which it is said a gang of which he was a member, was disposing of across the river. One of his latest escapades with the gang was to break into the Mellow Moon pavilion and swipe soda pop and various other articles yearned for by desperadoes of 12 years and thereabouts.

After being apprehended recently he was being held at the Deaconess hospital pending developments and early this morning succeeded in skipping away.

BRIDGE WIDOWER Deserving Medal, Given Divorce

Chicago, (AP)—James Breen "bridge widower" is the "world's most patient husband," Judge William N. Gemmill believes.

"My wife is bridge crazy," said James when Mrs. Marie Breen demanded alimony. "In the seven years we were married, we separated eleven times—always over a bridge argument."

"I had to mind our two children every night while she played. To make matters worse, her partner, Mrs. Jeanette Pond, finally brought over her two youngsters and I had to look after them, too. Both women stayed out until 4 and 5 in the morning. When I protested, my wife told me I was only a husband, but that bridge was bridge."

"Enough," declared the court. "I wish I could give you a medal as well as a divorce."

PLANE WORKS PERFECTLY AS FOG IS LIFTED

Fliers State They Will Smash New Record Before Ending Flight

Goal is Only Three Days Away, Clear Weather Aids

The pilots were more optimistic Saturday than at any time previously. They said the absence of the fog barrier Friday night had made it possible for them to get "plenty of sleep" and they were feeling much better.

Messages dropped from the plane indicated the motor was working smoothly and the forced lubrication of the engine's rocker arm, provided by a special device installed on the plane during its preparation, was operating perfectly.

"Newcomb and Mitchell made it a little harder for us, but we hope to stay up here more than a week yet anyway," one of the messages read.

HOOPER GIVEN COPY OF PAPAL PACT WITH ITALY

FINKE'S TRIAL TO BE HELD IN CIRCUIT COURT

Washington (AP)—President Hoover's conference with Archbishop Pietro Fumasoni Biondi, apostolic delegate to the United States, has aroused speculation as to the status of relations between this government and the Holy See.

Mr. Fumasoni Biondi delivered to Mr. Hoover a copy of the lateran treaty by which Italy recently recognized vatican sovereignty. The meeting in the White House occurred without consulting the state department and an expression of departmental opinion can be had as to relations between Rome and Washington.

Whatever the relationship may be now it is expected that the vatican's sovereignty eventually will be recognized by the United States. Several hundred letters of protest against exchange of diplomatic representatives with the vatican have been received by the state department. A form letter used to reply merely says the question has not arisen.

WILBUR PROMISES NEW AND SQUARE DEAL FOR INDIAN OF AMERICA

Klamath Falls, Ore. (AP)—Secretary Wilbur of the interior department, declared Saturday that the new policy of the Indian bureau contemplated the complete breaking up of reservation life as soon as it is possible to train the young Indian to handle his affairs.

The interior department head amplified his previously stated policy here in a community immediately adjacent to the Klamath reservation where the Indian question is acutely local.

He conferred with a number of groups concerning local tribal affairs before continuing his tour of inspection of interior department projects in the west. He planned a two day visit to Crater lake national park.

As a great white father, the American government has been more than slightly off color," the secretary declared. "Reservations have been little more than jails for

OPERATOR WORKS ON WHILE HOME BURNS

Rebo, Nev. (AP)—The radio operator who can calmly report weather reports as his home burns has been found. He is Charles Jennings.

Recently, Mrs. Jennings telephoned her husband at the local airport that their house was ablaze. At the time, Jennings was taking weather reports, so he passed the word along to the "gang" around the room and continued his work. The others rushed out as a volunteer fire department but the flames had been put out before they arrived.
