A new package... that is as fresh and attractive as Snowdrift itself

You will recognize the new blue and white can on your grocer's shelf as Snowdrift, even before you read the label.

The design is so clean and inviting and fresh—so simple and modern. For all the world like Snowdrift itself.

You'll be pleased when you learn of the convenience of the large cans—the new three and six pound sizes. Just about as wide as they are tall and as easy to spoon from as from your own mixing bowl. These new sizes add to the convenience of Snowdrift itself.

And convenience, you know, is just another word for Snowdrift's creaminess. A creamy texture so smooth and so spoonable that you never have to work it into sugar or flour—just put them together and mix with a few stirs of the spoon.

Maybe that's why Snowdrift cakes and biscuits and pie crust have such an unusually fine texture, and why food fried in Snowdrift is so deliciously good to eat.
