No actress knows better than does lovely Mae Murray how much a girl's power to stir hearts lies in her soft, smooth skin. Snowdrift in a new convenient can . . . easier to spoon

"Easy to use—it's so creamy," you say, when anyone asks you why you like Snowdrift.

And now you can add, "The can is so convenient, too—almost like my mixing bowl. So wide you can scoop out even the last spoonful of Snowdrift without rubbing your fingers on the side of the can."

The new Snowdrift cans are convenient. The three and six pound buckets are about as wide as they are tall. And all cans, large and small, have a pretty new blue and white design. You'll

these new convenient cans better in every way.

The new cans are air-tight, of course, with the Snowdrift inside always creamy and always spoonable. Even when it's kept in the refrigerator and thoroughly chilled Snowdrift never becomes hard and difficult to use.

Biscuits can be made in less time with Snowdrift—pastry dough cuts together more easily—cake and waffle batters stir up in a jiffy when you use a shortening like Snowdrift which is already creamed.
