HOT CHECK MARRIAGE

Bristow, Okla. (AP)—How to finance a marriage though broke was solved by a Bristow youth. He cashed four "hot" checks. One was for the ring, another for the bridal gown, a third for candy and the fourth for wedding cigars. But he spent his honeymoon alone in jail.

River taxicabs now ply between a railway station and Chicago's business district along Michigan avenue.

STRIKERS' DEFENSE COUNSEL

Associated Press Photo

Tom P. Jimison (right) of Charlotte, N. C., is acting as chief of defense counsel in the trial of 16 mill strikers indicted for murder of Gastonia, N. C., chief of police. John Randolph Neal (upper left) of Knoxville, Tenn., and Leon Josephson of Trenton, N. J., are assisting him.

HURLED TO DEATH IN ROLLER COASTER

(Continued from page 1)

A heavy, wide leather strap which held them securely to the seat had been tightly fastened and inspected by two men before the car, loaded to capacity with 12 passengers, began its fatal trip.

Returned to the station, the two parts of the leather belt hung loosely across the rear seat of the rear car in which the pair were riding.

Police and men in charge of the concession agreed the straps and fasteners were in perfect condition and that one of the victims must have unclasped the buckle.

Theories of suicide had scanty attention since parents and friends of both declared Miss Brockmyer and Clark never had met.

Guy A. Hightower, a friend of Clark, riding the seat immediately in front of the pair, said he felt a sudden jolt as the car rounded a turn and looking back discovered both passengers had disappeared.

He called other passengers immediately and many of them were hysterical when the two car train reached the stopping point.

TARIFF PLAN GIVEN BY IDAHO SOLON

(Continued from page 1)

high or through a limitation preventing the Philippines from importing more than a certain amount of duty free sugar into this country each year.

How many votes Borah will get in the senate is problematical. The democrats and independent republicans, comprising a majority, are opposed to any increase in house duty and some favor a reduction of the present law to 1.32 cents for Cuba.

The drift of sentiment among the republican members of the senate finance committee, now concluding work on the bill, is toward a two cent flat rate for Cuba, a reduction of .20 of a cent under the house bill and an increase of .24 of a cent over the present law. Chairman Smoot who has abandoned his sliding scale, is understood to have taken the suggestion up with President Hoover when he called at the White House late Monday.

Smoot announced after the conferences that the committee would have all tariff rates ready for submission to the senate when it reconvenes next Monday.

DORAN SEEKS TO END LEAKS AT WINERIES

(Continued from page 1)

is one of he reasons for the recent order permitting the home manufacture of cider and fruit juices non-intoxicating in fact.

"There is very little leakage at present in sacramental wine manufacture or distribution but there is a growing demand for wines for medicinal preparations." At present there is not as much wine in storage as in previous years but there are millions of gallons on hand in California at present that must be refortified this year to prevent deterioration and souring."

Old wine is "refortified" by adding fresh vintage, it is explained.

"Reports to the prohibition bureau indicated the grape production this year will be slightly smaller than the 70,000 cars of wine grapes marketed in 1928 but nevertheless we are not going to take chances of letting a large percentage of the crop get into the hands of wildcat wineries."

OATS ACREAGE EXPANDING

Washington (AP)—Despite a decline in the number of horses and mules the production of oats continues to increase in the United States. Comparative freedom from crop failure, value for starting clover in crop rotation, and low labor cost are stimulating factors.

DENY SNOOK'S PLEA FOR ACQUITTAL

(Continued from page 1)

throat. In his testimony Dr. Snook said he swore he had no recollection of severing her jugular vein, the act in which the state bases its charge of premeditation, necessary for the first degree murder conviction.

Dr. J. M. Dunn, who examined Dr. Snook Friday, testified that he found bruises on his body but that he thought they were not more than two or three weeks old. The defense maintains that Dr. Snook struck the first blow with a hammer on Miss Hix's head after she attacked him at a rifle range on the edge of the city where they had gone for their last tryst on June 13.

DRESSMAKER'S ART PRAISED IN PARIS

Paris, (AP)—Paintings done by Paul Poiret, fromer courturier, who says that he feels equally at home creating works of art with scissors, paint brushes or saucepans, are on exhibit at a small art gallery here.

Some French critics, among them Andre Warnod of Comoedia, daily are newspaper, pronounce the Poiret paintings good.

"His art is substantial, vigorous and true," Warnod says of Poiret's portrait of himself depicted standing at work before an easel, cap on the back of his head, cigaret in his mouth and wearing a red checked shirt open at the neck.

Of the man who designed hobble skirts and made women like them, Warnod writes:

"Poiret is one of those Parisians whom few people judge at their true value. They put him too high or too low and never where he should be.

"They remember a lot of brilliant things he did and easily forget the role he had in bringing out painters, among them the best of his time, whom he was the first to like. They forget the influence he had on the shift of styles up to the present an influence much bigger than that of a dressmaker."

Poiret does most of his painting at his home at St. Tropez on the Mediterranean. He first began to exhibit his paintings two years ago.

SOVIET FLIGHT TO ALASKA IS PLANNED

Moscow (AP)—Radio will be carried by the Soviet plane which will attempt a flight from Kamchatka to Alaska in August.

Using the call letters ANT, the plane's transmitter will opperate on 600 meters, with a wide effective radius. Three stations in Russia will attempt to keep in communication with the plane in its flight. These are RHO, 1000 meters; RFK, 1000 meters, and RCP, 1800 meters.

The supply ship Raja, which is landing fuel for the plane on the Island of Attu, may stand by during the flight. Its radio equipment is designed to operate on from 350 to 1150 meters.

THINK DANIEL BOONE CARVED TURTLE BACK

Indianapolis (AP)—Because its undershell bore the inscription, "D. Boone, 1799," a small, ordinary looking turtle has come under official notice.

The turtle was found by Ralph Lyons of Wingate, Ind., while he was shocking wheat on a farm. Statehouse officials compared the lettering on the shell with those Bo
