

### SCHOOL GROWTH IS FORESEEN IN SCIO DISTRICT

Scio—In anticipation of a 50 or 60 per cent increase in high school enrollment this year, the Scio board of education has decided to employ an additional teacher, making four instead of three in the high school. It was believed last spring that three teachers would be able to handle the work, but with bus transportation as affected by legislation enacted by the recent state legislature it is now said to be considered advisable to add a fourth instructor.

Scio schools will open on Tuesday, September 17, according to announcement of F. A. Gallegly, superintendent. It is expected that with the establishment of transportation routes, employing two or three buses, the high school this year will include 70 or 80 students, as compared with 40 members last year. Transportation matters have not been fully arranged, as the board of education at Scio has left the matter with the county boundary board, which consists of the county court and the county superintendent of schools. The boundary board is to meet at Albany August 15, it is stated, at which time it is expected the transportation routes and the number of buses will be definitely determined.

J. D. Denmore, manager of the Scio mill company, has been appointed a member of the Scio school board to succeed Frank Barto, who was elected at the annual meeting in June but who declined to serve on account of business interests requiring his time and attention. Denmore was recommended by the Scio school board and the appointment was made by the county superintendent, Mrs. Edna Geer, in accordance with statutory provision.

The approaching school year is looked forward to with interest and anticipation by all interested in the education of the Scio region. Seven teachers will constitute the faculty.
