

CAR THIEF IS IDENTIFIED BY PRISON GUARD

Albany—Linn county officials' suspicions were substantiated over the week end by Ivan McClain, captain of the guards at the state penitentiary, when he identified John Moore, alias Charles Allen, as having a prison record, having been sentenced from Klamath county in 1926 to the state prison.

McClain was making a casual inspection of the jail with his brother, W. H. McClain, deputy sheriff, when he identified Moore.

On August 9, Moore attempted to steal McClain's car from his apartment here, but was caught in Salem after a gun battle. He is bound over to the Linn county grand jury on charges of automobile theft.

CHORUS APPEARS AT HUBBARD COCET

Hubbard—The last concert of the series given by the Hubbard Community band for Saturday night out of door entertainment drew one of the largest attendances ever seen at a concert in Hubbard. Cars were parked for blocks on every side of the Methodist church yard which also was filled with cars.

An added attraction was the initial appearance of the boys' chorus from the state training school. The 40 boys gave two double numbers both being enthusiastically encored. Six of the Dallas band were guest players at the concert and after the playing they were the guests of the director, Dr. A. F. de Lespinasse and the Frank Thompson dining room. All the concerts were sponsored by the Hubbard commercial club.

Baby Elephants Dislike Face Washing Ordeal

RINGLING BROS. AND BARNUM & BAILEY CIRCUS

If the dozen baby elephants that travel with the Ringling Bros. and Barnum & Bailey circus have a wish it probably is that they like Soudans, one of the Giraffe herd, had been born with long necks, for in that event, they would not have their washed every day by the keepers as is now the case.

In fact, George Denman, boss of the big and little pachyderms, will tell you that the "punks" often turn a jealous eye across the menagerie tent where these long necked jungle curiosities stand, as though envious of their cleanly appearance.

Unlike the baby elephants, who must have their faces sponged before they go into the "big top" to perform, Soudans Giraffe never meets this ordeal. She simply can't be reached. Soudans, who is 21 feet

DEMONSTRATION LIFE SAVINGS GIVEN SUNDAY

Hubbard—The swimming, diving, rescue work by members of the Oregon volunteer life guards proved to be all that had been said of this form of entertainment. The two women and 15 men demonstrated the various methods of life saving at the large pool of Playmore park Sunday before an interested crowd of patrons of the Hubbard volunteer fire department who were responsible for the show.

The Hubbard community band furnished the music for the celebration, which is an annual event, during the day. They were handicapped in numbers as many of the players are out on vacations; the principal bass player is convalescing from an attack of flu, but the music was heartily applauded in spite of the handicaps.

The fire department was augmented for the day by Jerome Jackson who took his share of the work of keeping everything moving along. After the swimming demonstration there was a ball game between Donald and St. Paul, the latter winning 12 to 9.

Leta's orchestra of Salem, drew a large crowd to the dance pavilion in the evening. The firemen said that though the morning's attendance was discouraging, the afternoon and evening proved more satisfactory so that a substantial though modest amount will be added to their exchequer through the day's program. All money made is used for fire purposes only.

New and Improved..

THIS is an announcement to all users of Agmel. It is also addressed to all prospective users who are interested in this great health food—this valuable tonic in high blood pressure, kidney deficiencies, indigestion, glycosuria.

You have probably seen Agmel in the new glass bottle which has replaced the familiar tin container. It is the same Agmel—known so long and favorably in this community. However, it has been improved in both taste and appearance and its efficiency has been considerably increased. It is the finest concentrated sap of the maguey plant that has ever been produced.

As before, Agmel is imported from Mexico. But an improved vacuum process is now employed in the concentration of the raw sap—the latest type of vacuum reducing equipment has been installed in the center of the maguey growing region of Mexico and the raw fresh sap is concentrated every day as soon as it is gathered from the plants. This new method makes the relation between fresh aguamiel and Agmel closer than ever before. In fact, Agmel is aguamiel or maguey sap with the surplus water removed.

The new glass bottle holds a sufficient quantity of Agmel for a whole month's use. Get Agmel at your druggist's. Most druggists sell it.

Smith & Watkins invite you to another blowout. The lid is off.
