Oregon Mothers Start Drive

Salem mothers of University of Oregon students and university girls in town for the summer will start Thursday on the drive for an infirmary which will be built on the Eugene campus as soon as the mothers of the state match the \$50,000 appropriation made by the last legislature.

A group of university girls led by Miss Betty Shipley and Miss Helen Darby will start a city-wide campaign Thursday to sell the "Buy a Brick" tags. A dollar will add a brick to the proposed structure say those sponsoring the drive.

Under the direction of Mrs. W. B. Crane of Portland, state chairman, Mrs. Earl Fisher and Mrs. R. T. Boaks, of Salem, will start a consistent campaign among all of the Salem women who have boys or girls at the university, to raise funds in addition to the buy a brick campaign of the university girls.

Only a frame building with 12 or 13 beds is now available for infirmary purposes at the university and during the school year when influenza or other epidemics occur there are no facilities to care for the students.

Pecks Home From Year's Tour

After a year's tour of the United States, England and Scotland, satisfactory from the standpoint of interest as well as accomplishment, Professor and Mrs. Morton E. Peck returned last week to Salem, where in September, Professor Peck will resume his work as head of the biology department of Willamette university.

Having been granted a year's leave of absence from the university, the Pecks left Salem on the seventh of July, 1928, on a tour planned for the purpose of studying collections of Oregon flora in herbaria in the United States and the British Isles. Studying enroute, they arrived in Iowa where they visited Mrs. Peck's relatives for a month. The month of September was spent in study in Missouri botanical gardens and in October, Professor and Mrs. Peck left for Cambridge for extensive work in the herbarium at Cambridge. Research work at the national herbarium at the Smithsonian institution at Washington, D. C., occupied Professor Peck during February and in March he studied at the New York botanical gardens at Bronx park.

In April, Professor and Mrs. Peck sailed from New York for Scotland, landing at Glasgow. In addition to research work in Edinburgh and the highland country they visited Mrs. Peck's relatives in various parts of Scotland. The largest as well as the oldest collection of Oregon plants in the world is located at the royal botanical gardens at Kew, England, according to Professor Peck, who spent some time in research work there.

After several weeks in Dover, one of the most interesting foreign cities, the Pecks crossed the channel to France, where they spent a week before sailing on June 22 for New York. On the return to Oregon, Professor and Mrs. Peck made several side trips including several days' stop in Iowa.

While engaged in his research work, Professor Peck came in contact with a number of the leading botanists of the present day.

The bride was a student at the University of Oregon and a member of Pi Beta Phi sorority.

Mr. and Mrs. Graham have returned from a short wedding trip and are at home in the Embassy apartments in Portland.

Mr. and Mrs. James Bradshaw, their son, Jimmy Jr., and Mrs. Bradshaw's mother, Mrs. Edith Bradshaw, left by motor Wednesday morning for New Jersey where they will make their new home. Tuesday evening Mr. and Mrs. Archie Holt entertained Mr. and Mrs. Bradshaw informally in their home.
