

# BUTTER SLATED TO RISE, EGGS REMAIN STEADY

Portland (AP)—The price of extra eggs will be advanced two cents a dozen effective Wednesday morning at 38 cents wholesale according to announcement made by E. J. Dixon, general manager of the Pacific Cooperative Poultry producers. The new price will be 38 cents. Mediums will be 32 cents, a mistake having been made in quoting them that high effective Tuesday. There is no change in firsts. Retailer prices are two cents above those listed.

Portland (AP)—Butter quotations remained steady Tuesday although there were indications that egg quotations would be changed about noon.

Market for eggs showed little change. The fractional advance in medium extras was due for several days. In the meantime big packing interests are reported as bearing the regular trade.

Liberal degrees of strength shown in market for live poultry. Light-weight broilers are up about one cent with an extreme of 27 to 28 cents a pound while heavyweights are showing mixed ideas with sales 26 to 27 cents pound. Light hens are unchanged, also mediums.

With continued small supply in sight here, market for country killed calves is firm with some packing interests reported as bearing the regular trade.

Initial arrival of red nectarines from Mosier is reported. Priced to sell at 23 peach box. Unusually fancy.

Bad slide is shown in market for lemons with a sheer cut of 11 in the price here. The market is sharply off with a general \$9.50 top reported.

With the apple season just getting under way, the price of oranges is dropping rather sharply. Some of the dealers who bought direct reported no change in prices but delivered values were lower.

Watermelons are easy to lower; irrigation 2 1/2 cents pound.

Corn market weak, not generally above 11 sack.

Cauliflower steady for number one with sales up to \$1.75 crate.

Pears are considered a trifle easier, the sales not keeping pace with the slowly increased offerings. Sweet potatoes are lower at 7 1/2 to 8 cents pound.

# SHEEP INDUSTRY HELD BIG ENOUGH

Further expansion of the sheep industry in the Willamette valley and Oregon seems inadvisable at this time except under special circumstances, according to advice from the Oregon Agricultural college extension service. Benton carries about 24,000 sheep.

Most of the available sheep range is already well stocked, higher prices for hay and feed are in prospect, and the long-time outlook does not indicate a continuance of the high prices for lambs and wool which have prevailed during recent years.

The short time market situation, however, appears fairly favorable because of the relatively high prices for other meats, the demand for feeders, and because some improvement in wool prices may occur before the end of the year.

The long time outlook suggests need for caution in regard to further expansion in the sheep industry," says the 1929 midsummer sheep and wool outlook report.

The fairly favorable outlook for the sheep industry during the next year is due partly to high prices of competing meats and the fact that the 1929 lamb crop is smaller than that of 1928 because of the reduced percentage of lambs saved. Present breeding flocks seem ample to produce all the lambs that can be disposed of at prices in line with the level of the last few years."

# TOSS BRIDGE PROGRAM OUT

bridge fund. It shows that the balance on hand August 19, according to a statement by the city recorder was \$18,695.53. Unsold bonds were \$50,000, estimated to sell at 95, therefore amounting to \$47,500. The balance on hand and the unsold bonds make a total of \$66,195.53 in available revenues.

Unpaid obligations are listed in the Townsend report as follows: Church street bridge, \$7000; North 15th street bridge, \$2310; North Winter street bridge, \$17,374; 12th street culvert, \$7195. Total \$33,779.

This total of \$33,779 deducted from \$66,195.53 leaves \$32,416.53 available for new work.

MADRID GOES AMERICAN  
Madrid, (AP)—Hatless and coatless Madrid this summer—especially hatless men. The prejudice against men may be seen on all sides in the American custom of doing away with the use of a coat during hot weather still prevails, but it is not 100 per cent strong as in Madrid.

Ingenuous Texans found an effective way to stop the menace of cotton cushion scales. It imported ladybird beetles, which ate the scales as they exterminated themselves.

# MARKET QUOTATIONS

**PORTLAND LIVESTOCK**
