The failure of the market reporting service of the government to quote its prices on eggs obtained by the poultry producers which does most of the business here is causing much adverse comment in regard to the so-called official prices. Market in general is unchanged.

Considerable depression is shown in light weight hens and heavy broilers in the local live poultry trade. Lower prices are again shown. Quality of the lightweight hens is usually very poor. Heavy bens in demand. failure of the market report

Higher prices are being named by Dalfornia shippers for Brussel sprouts and artichokes. This is in the south when demand becomes more general in those lines.

Market for potatoes here is showing a generally steady tone. The local trade is by no means absorbing the extreme strength indicated by the asking prices of Yakima interests and much of the strength there is believed to be a bluff.

New York, (P)—The unexpected increase of nearly 245,000 tons in the september untilled orders of the United State Steel corporation, announced at noon Thursday, brought a flood of buying orders into the stock market, and sent prices whirling upward as panic stricken "shorts" rushed to cover their commitments. Budapest (P)—A Hungarian Reform League has been organized to combat, among other things, the craze for "ruminy" which has awept this capital and is apreading to other sections of the monarchy. The league will seek to restore the old Magyar tradition of chivalry and love for the family and the home. Newspapers have warned the government that Hungarians are becoming a race of gamblers. One publication says that even the stock exchange suffers from the "rummy-mania" because players make more
